Bio Ionic 10X UltraLight Speed Hair Dryer Instruction Manual

Model: 0874822004436

1. INTRODUCTION

Thank you for choosing the Bio Ionic 10X UltraLight Speed Hair Dryer. This professional styling tool is designed to provide fast, efficient, and frizz-free drying with advanced technology. Please read this manual thoroughly before use to ensure safe and optimal performance.

The Bio Ionic 10X UltraLight Speed Hair Dryer features an 1800W EcoDrive Brushless Motor and Bio Ionic Moisturizing Heat Technology, utilizing a proprietary mineral complex with volcanic rock to create moisturizing heat for enhanced hydration and faster drying.

This image highlights the Bio Ionic Moisturizing Heat Technology, which uses a proprietary mineral complex and volcanic rock to provide hydrating heat for healthier hair styling.

2. IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of electric shock, burns, fire, or injury to persons:

- Do not use this appliance near water, such as in a bathtub, washbowl, or shower.
- Always unplug the appliance immediately after using.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Do not use an extension cord with this appliance.
- Keep the power cord away from heated surfaces.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked.
- Never use while sleeping.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- This appliance is for household use only.

3. PRODUCT FEATURES

- **EcoDrive Brushless Motor:** 1800W motor for powerful and efficient drying.
- **Bio Ionic Moisturizing Heat Technology:** Utilizes volcanic rock minerals for hydrating heat.
- **Ultra-Lightweight Design:** Weighs 1.1 pounds for comfortable handling.
- **Adjustable Heat & Speed Settings:** Customize airflow and temperature for various hair types and styles.
- **Cool Shot Button:** Locks in style with a burst of cool air.
- **Easy-to-Clean Removable Filter:** Ensures optimal performance and extends motor life.
- **Long Power Cord:** 8ft 9in cord for flexible use.

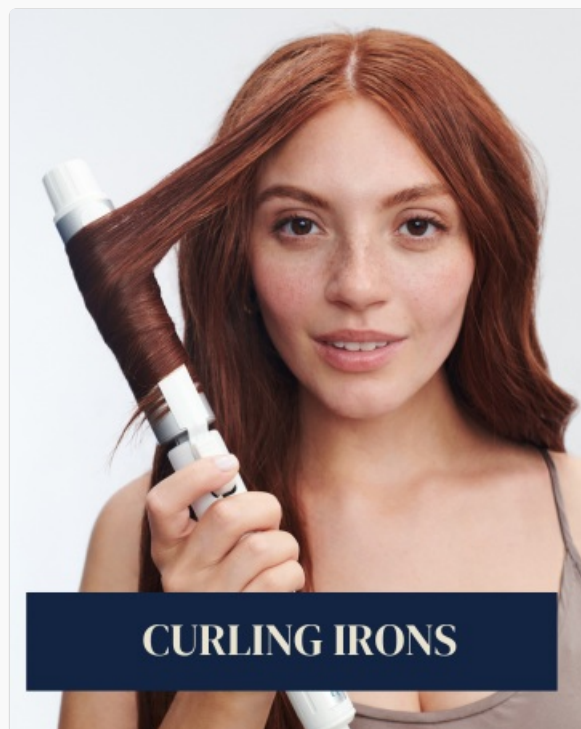

This image illustrates the key features of the Bio Ionic 10X UltraLight Speed Hair Dryer, including the concentrator nozzle, removable filter, adjustable power settings, cool shot button, and the 8ft 9in power cord.

This image highlights the performance aspects of the dryer, such as its 1800W EcoDrive motor, energy efficiency, lightweight design, and powerful airflow.

4. SETUP

1. **Unpacking:** Carefully remove the hair dryer and all accessories from the packaging. Retain packaging for storage or future transport.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.
3. **Attachments:** The dryer comes with a concentrator nozzle. To attach, align the nozzle with the front barrel of the dryer and push firmly until it clicks into place. To remove, pull gently.
4. **Power Connection:** Ensure your hands are dry. Plug the power cord into a standard electrical outlet (120V AC, 60Hz). The appliance is designed for use in the United States and Canada.

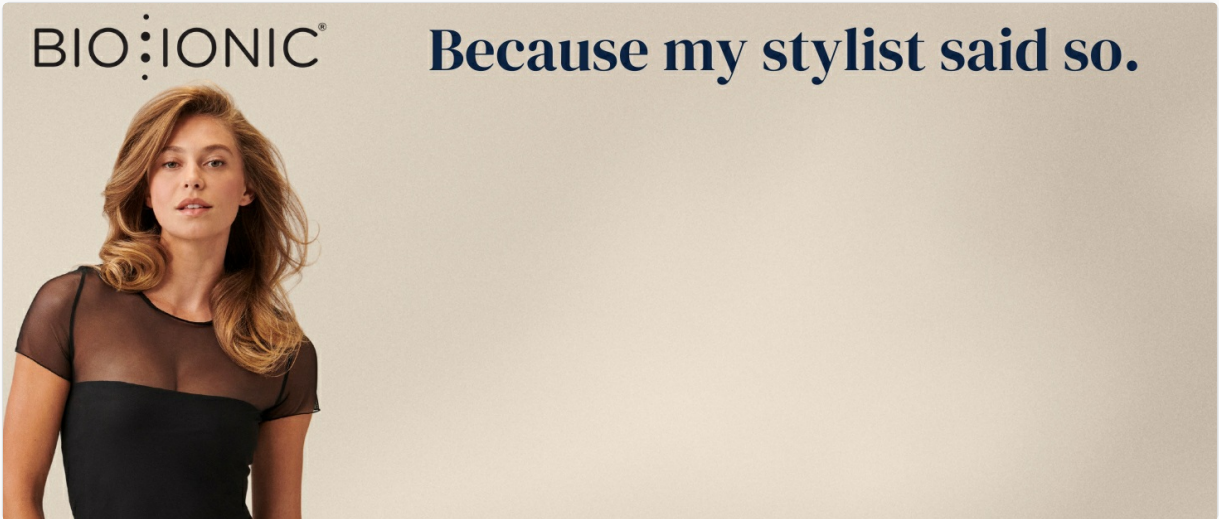

This image shows the Bio Ionic 10X Hair Dryer with its concentrator nozzle, which helps direct airflow for precise styling.

5. OPERATING INSTRUCTIONS

1. **Power On/Off:** Locate the power switch on the handle. Slide it to the "ON" position to start the dryer. Slide it to "OFF" to turn it off.

- 2. **Adjusting Speed:** The dryer features multiple speed settings. Use the speed control switch to select your desired airflow intensity. Higher settings provide faster drying.
- 3. **Adjusting Heat:** The dryer offers adjustable heat settings. Use the heat control switch to select the appropriate temperature for your hair type. Lower heat settings are suitable for fine or damaged hair, while higher settings are for thicker or coarser hair.
- 4. **Cool Shot Function:** Press and hold the cool shot button to deliver a burst of cool air. This helps to set your style and add shine. Release the button to return to the selected heat setting.
- 5. **Drying Technique:** For best results, towel-dry hair before using. Section hair and direct airflow from roots to ends. Use the concentrator nozzle for targeted drying and smoothing.

This image demonstrates the hair dryer in use, highlighting its ability to lock in moisture and smooth the hair cuticle during styling.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your hair dryer.

- **Cleaning the Filter:** The rear filter is removable for easy cleaning. Regularly check the filter for lint and dust buildup. To clean, twist or pull off the rear filter cover (refer to product diagram for exact mechanism). Use a soft brush or cloth to remove any accumulated debris. Reattach the filter cover securely before next use. A clogged filter can lead to overheating and reduced performance.
- **Cleaning the Exterior:** Wipe the exterior of the dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, unplug the dryer and allow it to cool completely. Store it in a dry, safe place, out of reach of children. Do not wrap the power cord tightly around the dryer, as this can damage the cord.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Dryer does not turn on.	No power to the outlet; power switch is off; internal fault.	Check if the outlet is working by plugging in another appliance. Ensure the power switch is in the "ON" position. If the issue persists, contact customer support.

Problem	Possible Cause	Solution
Dryer overheats or shuts off during use.	Clogged air filter; prolonged use; internal safety mechanism activated.	Unplug the dryer and allow it to cool down. Clean the rear air filter thoroughly (refer to Maintenance section). Ensure air vents are not blocked during use.
Dryer trips circuit breaker.	High power draw; circuit overload.	Ensure no other high-wattage appliances are operating on the same circuit. Try plugging the dryer into a different outlet on a separate circuit. If the problem continues, consult an electrician.
Reduced airflow or weak performance.	Clogged air filter.	Clean the rear air filter as described in the Maintenance section.

8. SPECIFICATIONS

- **Model Number:** 0874822004436
- **Brand:** BIO IONIC
- **Power Source:** Corded Electric
- **Wattage:** 1800 watts
- **Material:** Plastic
- **Color:** Black
- **Product Dimensions:** 12.5 x 3 x 12 inches
- **Item Weight:** 1.1 Pounds
- **UPC/GTIN:** 874822004436
- **Manufacturer:** Bio Ionic

9. WARRANTY AND SUPPORT
