### 3. SETUP GUIDE

#### 3.1 Connecting the Tablet

1. Connect the USB cable to the Parblo Coast10 tablet. Ensure the cable is securely inserted into the port, which may have a locking lug for stability.
2. Connect the other end of the USB cable to two available USB ports on your computer. If your computer has limited USB ports, use the included 4-port USB 3.0 Hub.
3. Power on your computer. The tablet display should light up.

## 3.2 Driver Installation

The Parblo Coast10 requires driver installation for full functionality, including pressure sensitivity. It is highly recommended to download the latest drivers from the official Parblo website for the best performance and compatibility.

1. **Important:** Before installing, ensure any existing tablet drivers (e.g., Wacom, Huion) are uninstalled from your system to prevent conflicts.
2. Download the latest drivers for your operating system (Windows 7/8/10 or OS X 10.11 El Capitan and above) from the official Parblo support website.
3. **Crucial Step:** Install the *Display-Link driver first*. This driver is essential for the tablet's display functionality.
4. After the Display-Link driver is installed, proceed to install the *tablet setting driver*.
5. Follow the on-screen prompts to complete the installation. You may be required to restart your computer.

## 3.3 Display Configuration

After driver installation, configure your display settings:

- Go to your computer's display settings (e.g., Windows Display Settings or macOS System Preferences > Displays).
- Set the Parblo Coast10 as your **main monitor** for accurate calibration and optimal drawing experience.
- You can choose to **mirror** your main display or **extend** your desktop onto the tablet, depending on your workflow preference.

## 5. MAINTENANCE

---

### 5.1 Cleaning the Tablet Screen

To clean the screen, gently wipe it with a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid using harsh chemicals or abrasive materials.

### 5.2 Replacing Pen Nibs

Over time, the pen nib may wear down. Replace it using the included nib remove ring:

1. Gently grip the worn nib with the nib remove ring.
2. Pull the nib straight out.
3. Insert a new replacement nib firmly into the pen until it clicks into place.

## 6. TROUBLESHOOTING

---

### 6.1 No Display or Power

- Ensure the USB cable is securely connected to both the tablet and two USB ports on your computer.
- Try connecting the USB cable to different USB ports or using the included USB hub.
- Verify your computer is powered on and functioning correctly.

### 6.2 Pen Not Working or No Pressure Sensitivity

- Ensure the tablet drivers are correctly installed. If you installed them in the wrong order (tablet driver before Display-Link driver), uninstall both and reinstall them in the correct sequence (Display-Link first, then tablet driver).
- Download and install the latest drivers from the official Parblo website.
- Check if there are any conflicting tablet drivers from other brands installed on your system and uninstall them.
- Verify that your drawing software supports tablet pressure sensitivity. Some older versions of software (e.g., GIMP 2.8 and newer) may have compatibility issues; consider using an older, more compatible version if necessary (e.g., GIMP 2.6).
- Test the pen on a different compatible computer if possible to rule out hardware issues.

### 6.3 Inaccurate Calibration

- Ensure the Parblo Coast10 is set as your main monitor in your computer's display settings.
- Run the calibration utility within the Parblo tablet driver settings.
