

Kuzco Lighting VL0118-BN

Kuzco Lighting VL0118-BN Lighthouse LED Vanity Light User Manual

Model: VL0118-BN

1. INTRODUCTION

Thank you for choosing the Kuzco Lighting VL0118-BN Lighthouse LED Vanity Light. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. Please read these instructions thoroughly before beginning installation and retain them for future reference.

The VL0118-BN is a contemporary LED vanity light featuring a brushed nickel finish and a white opal glass cylinder, designed for indoor bathroom use. It offers dimmable functionality and can be controlled via an app or remote.

2. SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these basic safety precautions:

- **Disconnect Power:** Always turn off the main power supply at the circuit breaker or fuse box before beginning installation or performing any maintenance.
- **Qualified Electrician:** Installation should be performed by a qualified electrician in accordance with all applicable local electrical codes.
- **Grounding:** Ensure the fixture is properly grounded to avoid potential electrical shock.
- **Handle with Care:** Do not handle the fixture with wet hands.
- **Voltage:** Verify that the supply voltage is compatible with the fixture's requirements (120 Volts).
- **Fixture Integrity:** Do not alter the wiring, components, or structure of the fixture.
- **Cleaning:** Use only a soft, dry cloth for cleaning. Avoid abrasive cleaners or solvents.

3. PACKAGE CONTENTS

Carefully unpack your fixture and inspect all components for damage. Keep all packaging materials until you are satisfied with the product. The package should contain:

- Kuzco Lighting VL0118-BN LED Vanity Light Fixture (with integrated LED module)
- Mounting Hardware Kit (screws, wire nuts, mounting plate)
- Instruction Manual

Image 1: Kuzco Lighting VL0118-BN Lighthouse LED Vanity Light in Brushed Nickel finish. The fixture features a rectangular backplate with a cylindrical white opal glass shade extending horizontally, supported by two brushed nickel brackets.

4. SETUP AND INSTALLATION

Note: It is highly recommended that this fixture be installed by a licensed electrician.

1. Prepare for Installation:

- Turn off the electrical power at the main fuse box or circuit breaker.
- Ensure the power is off before proceeding.

2. Mounting Plate Installation:

- Attach the mounting plate (included in hardware kit) to the junction box in the wall using the provided screws. Ensure it is securely fastened.

3. Wiring Connections:

- Connect the fixture's black wire to the house's black (hot) wire.
- Connect the fixture's white wire to the house's white (neutral) wire.
- Connect the fixture's ground wire to the house's ground wire (or to the mounting plate if no house ground wire is available).
- Secure all connections with wire nuts and wrap them with electrical tape for added safety.

4. Fixture Attachment:

- Carefully tuck all wires into the junction box.
- Align the fixture's backplate with the mounting plate and secure it using the provided screws.

5. Glass Shade Installation:

- Gently attach the white opal glass cylinder to the fixture according to the design. Ensure it is seated properly and securely.

6. Restore Power:

- Once installation is complete, restore power at the circuit breaker.
- Test the fixture to ensure proper operation.

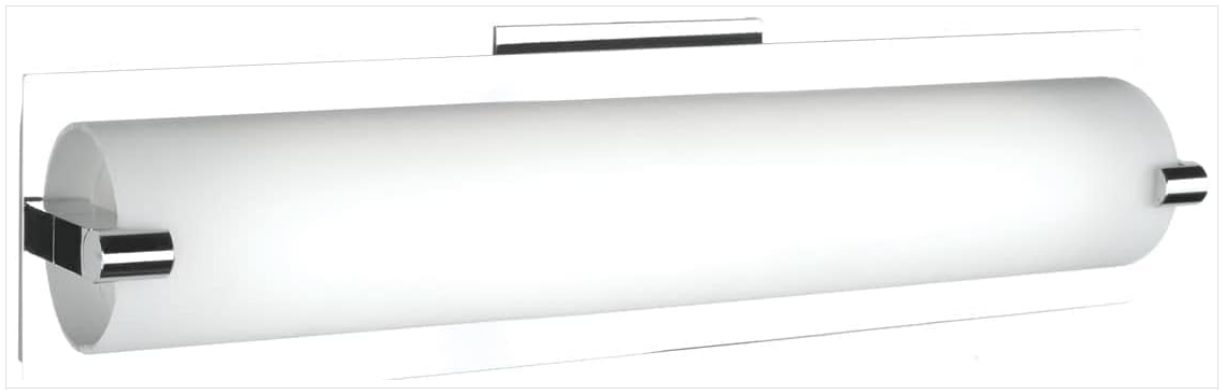

Image 2: A slightly angled view of the Kuzco Lighting VL0118-BN fixture, highlighting the brushed nickel finish of the backplate and end caps, and the uniform glow of the white opal glass shade.

5. OPERATING INSTRUCTIONS

The Kuzco Lighting VL0118-BN is designed for ease of use and offers advanced control options.

- **Basic Operation:** Turn the light on or off using a standard wall switch connected to the fixture's power supply.
- **Dimmable Functionality:** This fixture is dimmable. To utilize the dimming feature, ensure you have a compatible LED dimmer switch installed. Follow the dimmer switch manufacturer's instructions for proper operation.
- **Smart Control (App/Remote):** The VL0118-BN supports control via an app and a remote. Refer to the specific instructions provided with your Kuzco Lighting smart control accessories (sold separately or included with specific kits) for pairing and operation. This typically involves downloading the Kuzco Lighting app and following the in-app pairing guide, or synchronizing the remote control with the fixture.

6. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your fixture.

- **Cleaning:** Always turn off the power to the fixture before cleaning. Use a soft, dry, or slightly damp cloth to wipe down the metal finish and glass shade. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish or electrical components.
- **LED Module:** The LED light source in this fixture is integrated and not user-replaceable. If the LED module fails, contact Kuzco Lighting customer support for assistance.
- **Inspection:** Periodically check for any loose connections or signs of wear. If any issues are observed, disconnect power and consult a qualified electrician.

7. TROUBLESHOOTING

If you experience issues with your fixture, refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Light does not turn on	No power to the fixture Loose wiring connection Faulty wall switch	Check circuit breaker/fuse. Ensure all wire connections are secure (power off first). Test wall switch with another device or replace if faulty.

Problem	Possible Cause	Solution
Light flickers or dims incorrectly	Incompatible dimmer switch Loose wiring Faulty LED driver	Ensure dimmer is LED compatible. Check wiring connections (power off first). Contact Kuzco Lighting support if issue persists.
App/Remote control not working	Not paired correctly Battery low (for remote) App connectivity issue	Refer to app/remote pairing instructions. Replace remote batteries. Check Wi-Fi connection for app control.

If these steps do not resolve the issue, please contact Kuzco Lighting customer support.

8. SPECIFICATIONS

Brand	Kuzco Lighting
Model Number	VL0118-BN
Product Dimensions	23"L x 16.5"W x 7.5"H
Color/Finish	Brushed Nickel
Material	Acrylic, Alloy Steel, Nickel, Glass
Shade Material	Glass (White Opal)
Light Source Type	Integrated LED Module
Wattage	18 watts
Voltage	120 Volts
Brightness	1600 Lumens
