6. TROUBLESHOOTING

Encountering issues during assembly or play? Here are some common solutions:

- **Missing Pieces:** If you find a piece missing, first double-check all packaging and the surrounding area. If still missing, contact LEGO Customer Service for replacement parts.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and apply firm, even pressure. Some new pieces may require slightly more force.
- **Structural Instability:** Review previous steps in the building guide to ensure all connections are secure and pieces are placed correctly. Incorrect placement of even one brick can affect stability.
