SETUP GUIDE

Follow these steps to set up your OpenBox V8 Combo receiver:

1. **Connect to TV:** Use the provided HDMI cable to connect the HDMI OUT port on the receiver to an HDMI IN port on your television.
2. **Connect to Antenna/Dish:**
 - For Satellite (DVB-S2): Connect your satellite dish LNB cable to the "LNB IN" port on the receiver.
 - For Terrestrial (DVB-T2): Connect your terrestrial antenna cable to the "RF IN" port on the receiver.
3. **Connect to Network (Optional):**
 - **Wired Connection:** Connect an Ethernet cable from your router to the LAN port on the receiver.
 - **Wireless Connection:** The device supports Wi-Fi. Refer to the "Network Settings" section in Operating Guide for Wi-Fi setup.
4. **Connect Power:** Plug the power adapter into the DC IN port on the receiver, then plug the adapter into a wall outlet.
5. **Power On:** Turn on your television and select the correct HDMI input source. The receiver should power on automatically or can be turned on using the power button on the front panel or remote control.

- **DLNA Support:** Stream media content from compatible devices (e.g., smartphones, tablets) to your TV via the receiver.
- **PVR (Personal Video Recorder):** Record TV programs to an external USB storage device.
- **Parental Control:** Set up parental controls for channels to restrict access to certain content.
- **Software Upgrade:** Update the receiver's firmware via USB.

MAINTENANCE

To ensure the longevity and optimal performance of your OpenBox V8 Combo receiver, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the receiver. Do not use liquid cleaners or abrasive materials.
- **Ventilation:** Ensure the receiver is placed in a well-ventilated area. Do not block the ventilation openings.
- **Power Off:** If the receiver will not be used for an extended period, disconnect it from the power outlet.
- **Firmware Updates:** Periodically check for and install firmware updates via USB to improve performance and add new features.

TROUBLESHOOTING

If you encounter issues with your OpenBox V8 Combo, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
No Power	Ensure the power adapter is securely connected to the receiver and the wall outlet. Check if the wall outlet is functioning.
No Signal / No Picture on TV	Verify the HDMI cable connection between the receiver and the TV. Ensure your TV is set to the correct HDMI input source. Check antenna/dish cable connections. Perform a channel scan if channels are missing.
Remote Control Not Working	Ensure there are no obstructions between the remote and the receiver. Replace the batteries in the remote control.
Cannot Connect to Wi-Fi	Ensure Wi-Fi is enabled on the receiver. Verify the Wi-Fi password. Move the receiver closer to the Wi-Fi router or reduce interference.
