Krups EA81

Krups EA81 Pisa Fully Automatic Espresso Machine User Manual

Model: EA81

INTRODUCTION

Welcome to the user manual for your new Krups EA81 Pisa Fully Automatic Espresso Machine. This machine is designed to provide a convenient and high-quality coffee experience, from bean to cup. Please read this manual carefully before operating your machine to ensure proper use, optimal performance, and longevity.

Image: The Krups EA81 Pisa Fully Automatic Espresso Machine, a sleek black unit, is shown on a countertop surrounded by various coffee beverages in clear glass cups, demonstrating its versatility.

PRODUCT OVERVIEW AND KEY FEATURES

The Krups EA81 Pisa is a fully automatic espresso machine equipped with features designed for ease of use and consistent coffee quality.

- **Integrated Grinder:** Features 3 grinding levels for personalized intensity.
- **Digital Display:** Intuitive and easy-to-use interface for selecting drinks and settings.
- **Milk Frother:** For preparing creamy and hot milk for lattes and cappuccinos.
- **Large Capacity:** 1.7L water tank and 260g bean container.
- **Automatic Cleaning:** Utilizes cleaning tablets for easy maintenance.
- **One-Touch Beverages:** Prepare a variety of drinks with a single touch.
- **Two Cups at Once:** Option to prepare two cups simultaneously.

Image: A detailed view of the Krups EA81 machine highlighting its key components: the 1.7L water tank, 260g bean container, automatic cleaning function, LCD screen, coffee residue container (9 cups), and the option to prepare 2 cups at once.

SETUP AND FIRST USE

- Unpacking:** Carefully remove the machine and all accessories from the packaging. Retain packaging for future transport if needed.
- Placement:** Place the machine on a stable, flat, and heat-resistant surface, away from direct sunlight and heat sources. Ensure adequate ventilation around the machine.
- Water Tank:** Remove the water tank from the back of the machine. Rinse it with fresh water and fill it with cold, fresh drinking water up to the MAX level. Reinsert the tank securely.

MOLINILLO INTEGRADO

3 grados de molienda para una intensidad personalizada

Image: The rear view of the espresso machine, clearly showing the removable water tank for easy filling.

4. **Bean Container:** Open the lid of the bean container located on top of the machine. Fill it with whole coffee beans. Do not use ground coffee, instant coffee, or caramelized beans.

Image: A side view of the machine, highlighting the transparent bean hopper filled with coffee beans.

5. **Drip Tray:** Ensure the drip tray and coffee grounds collector are correctly in place.
6. **Power Connection:** Plug the power cord into a grounded electrical outlet.

7. **Initial Rinse Cycle:** Follow the on-screen instructions for the initial rinse cycle. This primes the system and cleans internal components. Place a large container under the coffee spouts.

OPERATING THE MACHINE

Making Coffee

Your Krups EA81 Pisa offers a wide variety of coffee beverages.

Image: A circular diagram illustrating 11 different coffee beverages that can be made with the machine, including Ristretto, Espresso, Lungo, Largo, Doppio, Latte Macchiato, Cappuccino, Caffe Latte, Americano, Steamed Milk, and Hot Water. It also notes the ability to make 2 cups at the same time.

1. **Turn On:** Press the power button. The machine will perform a brief self-check.
2. **Select Beverage:** Use the digital display and control buttons to navigate and select your desired coffee type (e.g., Espresso, Lungo, Americano).

Image: A close-up of the machine's digital display, showing various icons and settings, indicating an intuitive user interface.

- 3. Adjust Settings (Optional):** Depending on the beverage, you may be able to adjust coffee strength or volume.
- 4. Start Brewing:** Press the Start/Stop button to begin the brewing process.
- 5. Enjoy:** Your coffee will be dispensed into your cup.

Grinding Settings

The integrated grinder allows you to customize the fineness of your coffee grounds, affecting the intensity and flavor of your coffee.

Image: A close-up of the integrated coffee grinder, showing the adjustment knob for selecting one of the three grinding levels to personalize coffee intensity.

- Adjust the grinding knob located inside the bean container.
- Finer grind (smaller number) for stronger, more intense coffee.

- Coarser grind (larger number) for milder coffee.
- Adjust only when the grinder is operating.

Milk Frothing

Use the steam nozzle to froth milk for cappuccinos and lattes.

Image: The milk frother in action, producing creamy, hot milk in a glass mug.

1. Fill a pitcher with cold milk (dairy or non-dairy).
2. Position the steam nozzle into the milk.
3. Activate the steam function (refer to your machine's display for the specific button).
4. Move the pitcher up and down to create foam.
5. Clean the steam nozzle immediately after use with a damp cloth.

¿QUÉ BEBIDAS PUEDO HACER CON ESTA MÁQUINA?

Bebidas a 1 botón

SHOT / DOBLE
ESPRESSO

SHOT/DOBLE
RISTRETTO

SHOT/DOBLE
LONG COFFEE

Bebidas que puedes hacer por tú mismo.

CAPPUCCINO

FLAT WHITE

LATTE MACCHIATO

ESPRESSO
MACCHIATO

AMERICANO

DOPPIO

Y mucho más

¿Qué tipo de grano de café debo utilizar?

- Utilice café tostado ligero - medio y evite el tostado oscuro (aceitoso)

Tips para espumar leche fresca:

Utilice leche fría y fresca del refrigerador.

Para espumar mejor, utilice leche semi-descremada, descremada y/o entrera.

Limpie y enjuague el sistema de leche frecuentemente.

KRUPS
DELIGHT IN THE DETAILS

Image: A visual guide to various coffee types, including Espresso, Ristretto, Long Coffee, Americano, Cappuccino, Flat White, Latte Macchiato, and Espresso Macchiato. It also provides tips on recommended coffee bean types (light to medium roast, avoid oily) and fresh milk frothing (use cold, fresh milk; clean system frequently).

MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and optimal performance of your espresso machine.

Daily Cleaning

- **Drip Tray and Coffee Grounds Collector:** Empty and rinse daily.
- **Water Tank:** Rinse daily and refill with fresh water.
- **Coffee Spouts:** Wipe clean with a damp cloth.
- **Milk Nozzle:** Clean immediately after each use to prevent milk residue buildup.

Automatic Cleaning Cycle

The machine features an automatic cleaning program. It is recommended to run this cycle approximately 3 times a year using Krups cleaning tablets. The machine will prompt you when a cleaning cycle is due. Follow the on-screen instructions.

Descaling

The machine will indicate when descaling is necessary. Use a descaling solution recommended by Krups and follow the instructions provided on the display. Regular descaling prevents mineral buildup and ensures proper machine function.

TROUBLESHOOTING

If you encounter issues with your machine, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No coffee dispenses.	Water tank empty, coffee beans empty, or brewing unit clogged.	Refill water tank/bean container. Run a cleaning cycle.
Coffee is too weak/strong.	Incorrect grind setting or coffee strength selection.	Adjust grind setting (finer for stronger, coarser for weaker). Select desired strength on display.
Milk not frothing properly.	Milk nozzle clogged or milk is not cold enough.	Clean the milk nozzle thoroughly. Use cold, fresh milk.
Machine displays an error message.	Specific error code indicates an issue.	Refer to the machine's display for the specific error code and consult the full manual or Krups support.
