- Use appropriate tools and safety gear during installation.
- Keep small parts away from children to prevent choking hazards.
- Do not overload the towel holder beyond its intended capacity.

2. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- METAFORM Ella Swivel Chrome Towel Holder (1 unit)
- Mounting Hardware (screws, wall anchors)
- Installation Template (if included)

3. SETUP AND INSTALLATION

The METAFORM Ella Swivel Chrome Towel Holder is designed for wall mounting. Follow these steps for secure installation:

Tools Required:

- Pencil
- Measuring Tape
- Drill with appropriate drill bit for wall anchors
- Screwdriver (Phillips head recommended)
- Level

Installation Steps:

1. **Choose Location:** Select a suitable wall location, ensuring there are no hidden pipes or electrical wires.
2. **Mark Drilling Points:** Use the provided installation template or measure the distance between the mounting holes on the towel holder. Mark the drilling points on the wall with a pencil. Use a level to ensure the marks are perfectly horizontal.
3. **Drill Holes:** Drill holes at the marked points using a drill bit appropriate for your wall type and the provided wall anchors.
4. **Insert Wall Anchors:** Gently tap the wall anchors into the drilled holes until they are flush with the wall surface.
5. **Mount the Holder:** Align the mounting plate of the towel holder with the drilled holes. Insert the screws through the mounting plate and into the wall anchors. Tighten the screws securely, but do not overtighten.
6. **Attach Towel Arms:** If the towel arms are separate, attach them to the main bracket according to the design. Ensure they swivel freely.

4. OPERATING INSTRUCTIONS

The METAFORM Ella Swivel Chrome Towel Holder is designed for convenient towel storage.

- **Hanging Towels:** Drape towels over the individual arms of the holder.
- **Swivel Function:** The arms are designed to swivel independently, allowing you to adjust their position for optimal drying and space utilization. Gently move the arms to the desired angle.

5. MAINTENANCE

To ensure the longevity and appearance of your METAFORM Ella Towel Holder:

- **Cleaning:** Clean the chrome surface regularly with a soft, damp cloth. For stubborn spots, use a mild, non-abrasive cleaner specifically designed for chrome or stainless steel. Avoid harsh chemicals, abrasive pads, or scouring agents, as these can damage the finish.
- **Inspection:** Periodically check the mounting screws to ensure they remain tight. If any looseness is detected, gently tighten them.
- **Swivel Mechanism:** The swivel mechanism is designed for smooth operation. If it becomes stiff, a small amount of silicone-based lubricant can be applied to the pivot points.

6. TROUBLESHOOTING

If you encounter any issues with your towel holder, refer to the following common solutions:

- **Holder feels loose:** Check and tighten all mounting screws. Ensure wall anchors are securely seated. If the wall material is weak, consider using stronger anchors or relocating.
- **Arms do not swivel smoothly:** Clean any debris from the swivel joints. Apply a small amount of silicone lubricant if necessary.
- **Scratches or dull finish:** Minor scratches on chrome can sometimes be buffed out with a chrome polish. For a dull finish, ensure you are using appropriate cleaning products and avoiding abrasive materials.
