Chill-O-Matic sc8534

Chill-O-Matic Instant Beverage Cooler

Model: sc8534

User Manual

1. INTRODUCTION

Thank you for purchasing the Chill-O-Matic Instant Beverage Cooler. This portable device is designed to rapidly chill 12-ounce cans of soda or beer from room temperature to ice-cold in approximately 60 seconds. It operates without causing fizz or foam, providing a quick and convenient cooling solution for your beverages.

2. SAFETY INFORMATION

- Read all instructions before use.
- Keep the device away from children and pets.
- Do not submerge the main unit in water or any other liquid. This device is not waterproof.
- Ensure the battery compartment is securely closed before use.
- Use only 2 AA batteries as specified. Do not mix old and new batteries, or different types of batteries.
- Remove batteries if the device will not be used for an extended period.
- Do not attempt to chill cans larger than 12 ounces.
- Avoid placing fingers or foreign objects into the chilling chamber while the device is operating.

3. PACKAGE CONTENTS

Please check the package to ensure all items are present:

- Chill-O-Matic Instant Beverage Cooler Unit
- User Manual (this document)

4. SETUP

1. **Battery Installation:** Locate the battery compartment on the side of the unit. Open the cover and insert 2 AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment. Close the cover securely.
2. **Placement:** Place the Chill-O-Matic on a stable, flat surface.

Image: Front view of the Chill-O-Matic unit, showing its compact design.

5. OPERATING INSTRUCTIONS

Follow these steps to chill your 12-ounce beverage can:

1. **Prepare Ice:** Fill the chilling chamber with ice cubes or crushed ice. Do not overfill; ensure there is enough space for the can.
2. **Add Water:** Pour a small amount of water into the chamber, just enough to create an ice bath around the can. Adding a pinch of salt to the ice water can enhance cooling efficiency.
3. **Insert Can:** Place a standard 12-ounce beverage can into the chilling chamber. Ensure the can is seated properly and can rotate freely.
4. **Close Lid:** Securely close the clear lid over the can.
5. **Activate:** Press the power button located on the side of the unit to start the chilling process. The can will begin to rotate in the ice bath.
6. **Chill Time:** Allow the device to operate for approximately 60 seconds for optimal chilling.
7. **Remove Can:** Once chilled, press the power button again to stop the rotation. Open the lid and carefully remove your ice-cold beverage can.

6. MAINTENANCE

- **Cleaning:** After each use, empty any remaining ice and water. Wipe the chilling chamber and exterior with a damp cloth. Do not use abrasive cleaners. Ensure the unit is completely dry before storage.

- **Storage:** Store the Chill-O-Matic in a cool, dry place. If storing for an extended period, remove the AA batteries to prevent leakage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	Batteries are dead or incorrectly installed.	Replace batteries with fresh AA batteries, ensuring correct polarity.
Can does not spin or motor freezes.	Too much ice/friction, can not seated properly, or motor obstruction.	Reduce amount of ice, ensure can is centered and level. Check for any debris obstructing the motor.
Beverage is not cold enough.	Insufficient ice or water, or chilling time too short.	Ensure adequate ice and water are used. Add a pinch of salt to the ice water. Allow the full 60 seconds for chilling.
Can does not fit.	Can is not a standard 12-ounce size.	This device is designed for standard 12-ounce cans. Some slim or larger cans may not fit.

8. SPECIFICATIONS

Feature	Detail
Brand	Chill-O-Matic
Model Name	IN1500BKB (Item model number: sc8534)
