## 2. SETUP AND ASSEMBLY

Assembly of the tectake coat rack is designed to be quick and straightforward. All necessary components and tools are included in the package. Please follow these steps carefully:

- 1. Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the parts list are present and undamaged.
- 2. Assemble the Base:** Attach the main pole to the heavy base plate using the provided screws and Allen key. Ensure the connection is secure and stable.
- 3. Install Umbrella Stand:** Secure the umbrella stand frame to the lower section of the main pole. The integrated drip tray should face downwards to collect water.
- 4. Attach Lower Hooks:** Fasten the lower set of hooks (typically 4 hooks for bags or children's coats) to the designated points on the main pole.

5. **Attach Upper Hooks:** Secure the upper set of rotating hooks (typically 12 hooks for coats and hats) to the top section of the main pole. Ensure they can rotate freely.
6. **Final Tightening:** Once all parts are in place, re-check all screws and connections to ensure maximum stability.

### 3. OPERATING INSTRUCTIONS

---

The tectake coat rack is designed for convenient and efficient storage of outerwear and accessories. Follow these guidelines for optimal use:

- **Hanging Garments:** Utilize the 16 hooks to hang coats, jackets, scarves, and hats. Distribute weight evenly to maintain stability. The upper hooks are designed to rotate for easy access.
- **Bag Storage:** The lower hooks are ideal for hanging handbags, backpacks, or children's coats.
- **Umbrella Storage:** Place umbrellas in the designated stand at the base. The integrated tray will collect any drips, protecting your floor.
- **Weight Capacity:** Do not exceed the recommended weight capacity of 8 kg to ensure stability and prevent damage.

## 4. MAINTENANCE AND CARE

---

To ensure the longevity and appearance of your tectake coat rack, follow these simple maintenance steps:

- **Cleaning:** Wipe the metal and plastic surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Drip Tray:** Regularly empty and clean the umbrella stand's drip tray to prevent water accumulation and potential rust or odors.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Placement:** Place the coat rack on a flat, stable surface. Avoid placing it in areas with excessive humidity or direct sunlight for prolonged periods, which could affect materials.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your coat rack, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
<b>Coat rack is wobbly.</b>	Loose screws or uneven weight distribution.	Ensure all assembly screws are tightened. Redistribute items on hooks to balance the weight. Place on a flat surface.
<b>Hooks are stiff or difficult to rotate.</b>	Tightened too much during assembly or minor manufacturing tolerance.	Slightly loosen the screws holding the rotating hook sections. Apply a small amount of silicone spray if needed (avoid oil-based lubricants).
<b>Umbrella stand collects water.</b>	This is normal and intended.	Regularly empty and clean the drip tray to prevent overflow and maintain hygiene.
