Bose QuietComfort 35 (Series I) Wireless Headphones User Manual

Brand: Bose | Model: 759944-0050

INTRODUCTION

The Bose QuietComfort 35 (Series I) wireless headphones are engineered to deliver world-class noise cancellation, making quiet moments even quieter and enhancing your music listening experience. These headphones offer the freedom of wireless connectivity through Bluetooth and NFC pairing, ensuring easy connection to your devices. The Volume-optimized EQ provides balanced audio performance across all volume levels, while a noise-rejecting dual-microphone system ensures clear calls, even in challenging environments. Voice prompts and intuitive controls simplify communication and music management. Designed for extended use, the premium materials ensure a lightweight and comfortable fit for all-day listening.

WHAT'S IN THE BOX

Your Bose QuietComfort 35 (Series I) headphones package includes the following items:

- QuietComfort 35 wireless headphones
- USB charging cable
- Backup audio cable (for wired mode)
- Airline adapter
- Carry case

Figure 2: Included accessories with the Bose QuietComfort 35 headphones. This image displays the headphones, a USB charging cable, an audio cable, and the protective carry case.

SETUP

1. Charging the Headphones

Before initial use, fully charge your headphones. Connect the small end of the USB charging cable to the micro-USB port on the right earcup and the other end to a USB wall charger or computer. A full charge takes approximately 2.25 hours and provides up to 20 hours of wireless playtime or up to 40 hours in wired mode with noise cancellation enabled.

2. Powering On/Off

To power on the headphones, slide the Power/Bluetooth switch on the right earcup to the 'On' position. To power off, slide the switch to the 'Off' position.

3. Bluetooth Pairing

1. With the headphones powered on, slide the Power/Bluetooth switch to the Bluetooth symbol (**Bluetooth icon**) and hold until you hear "Ready to pair" and the Bluetooth indicator light blinks blue.
2. On your device, enable Bluetooth and select "Bose QC35" from the list of available devices.
3. Once connected, you will hear "Connected to [Device Name]" and the indicator light will glow solid white.

4. NFC Pairing (Near Field Communication)

1. Ensure NFC is enabled on your mobile device.
2. Tap the NFC touchpoint on your device to the NFC logo on the right earcup. Your device may prompt you to confirm pairing.
3. Once connected, you will hear "Connected to [Device Name]" and the indicator light will glow solid white.

OPERATING THE HEADPHONES

1. Controls

The main controls are located on the right earcup:

- **Multi-function button:** Press to play/pause music, answer/end calls. Double-press for next track, triple-press for previous track.
- **Volume Up/Down buttons:** Adjust the listening volume.

- **Power/Bluetooth switch:** Powers the headphones on/off and initiates Bluetooth pairing.

2. Voice Prompts

The headphones provide helpful voice prompts for battery level, connection status, and incoming calls. These can be customized or disabled via the Bose Connect app.

3. Bose Connect App

For a more personalized experience and advanced features, download the Bose Connect app from your device's app store. The app allows you to:

- Manage Bluetooth connections (connect up to two devices simultaneously, save more for quick switching).
- Update headphone software.
- Customize voice prompt language and settings.
- Access product tips and support.

MAINTENANCE

Proper care ensures the longevity and performance of your Bose QuietComfort 35 (Series I) headphones:

- **Cleaning:** Wipe the surfaces of the headphones with a soft, dry cloth. Do not use any sprays near the headphones or allow liquids to spill into any openings.
- **Storage:** When not in use, store the headphones in their included hard carry case to protect them from damage.
- **Battery Care:** Avoid exposing the headphones to extreme temperatures. For long-term storage, ensure the battery is partially charged (around 50%) to maintain battery health.

TROUBLESHOOTING

If you encounter issues with your headphones, refer to the following common solutions:

Problem	Solution
Headphones do not power on.	Ensure the battery is charged. Connect the USB charging cable and allow it to charge for at least 15 minutes.
Cannot pair with a device.	Ensure Bluetooth is enabled on your device. Place the headphones in pairing mode (slide and hold the Power/Bluetooth switch). Clear the Bluetooth device list on your device and try pairing again.
No sound or intermittent sound.	Check the volume levels on both the headphones and your connected device. Ensure the headphones are within Bluetooth range (up to 10 meters). Try disconnecting and reconnecting the Bluetooth connection.
Poor noise cancellation.	Ensure the earcups form a tight seal around your ears. Adjust the headband for a secure fit. Check for any obstructions around the microphones.
