

CLEANRTH CIN009

CLEANRTH CIN009 Industrial Electronic Pest Repelling System User Manual

Brand: CLEANRTH | **Model:** CIN009

1. INTRODUCTION AND OVERVIEW

The CLEANRTH CIN009 Industrial Electronic Pest Repelling System is designed to deter various pests from your property. This powerful unit offers up to 9,000 square feet of coverage in open areas and incorporates multiple advanced technologies to create an environment hostile to pests, encouraging them to leave.

The system utilizes high-intensity ultrasonic pest repelling technology, digitally processed electromagnetic inner wall pest repelling, and a turbulent storm ultrasonic repulsive technique. It also features specific targeting and confusion switches to adapt to different pest types and prevent them from acclimating to the repelling sounds.

This is it! Industrial Power!

Cleanrth's most powerful pest repelling system!

9,000 sq. ft. of coverage!

Targets:

Bugs

Bats

Rodents

And Many Many More!!

Figure 1: CLEANRTH CIN009 unit highlighting its industrial power and targeted pests.

2. PRODUCT FEATURES

- **Powerful Coverage:** Repels pests in up to 9,000 square feet of open area.
- **High-Intensity Ultrasonic Technology:** Emits ultrasonic waves to deter pests.
- **Electromagnetic Inner Wall Repelling:** Utilizes existing wiring to create a repelling field within walls.
- **Pest Targeting Switch:** Allows selection between 'Bat & Insect' or 'Rodent' specific frequencies.
- **Pest Confusion Switch:** Offers 'Fixed' or 'Wide Variable' modes to prevent pest acclimation.
- **Turbulent Storm Ultrasonic Technique:** Keeps pests disoriented and unable to adapt.
- **Pet Safe:** Designed to be safe for household pets.

Pest Confusion Switch

3. SETUP

To set up your CLEANRTH CIN009 unit, simply plug it into a standard 110V 2-prong outlet in the area where pest control is needed. Ensure the unit is not obstructed by furniture, curtains, or other objects that could block the ultrasonic waves.

For optimal performance, place the unit in an open area. Walls and solid objects can reduce the effectiveness of ultrasonic waves. In areas with severe pest issues or multiple rooms, consider using multiple units for comprehensive coverage.

Figure 2: Proper placement of the unit in a wall outlet.

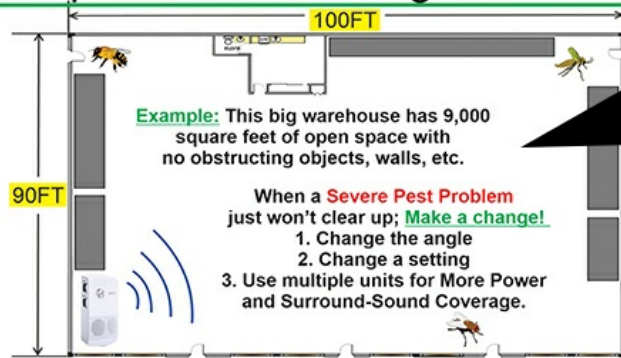

Example #1: Open Area Coverage

This is an example of the **Industrial Electronic Pest Repelling System** in an open area Warehouse. The unit is rated up to **9,000 sq. ft.** of **open area** coverage.

What does **open area coverage** mean? It means an area **without** walls, doors or any other obstacles that can get in the way of the ultrasonic sounds. The more obstacles/things the high-intensity ultrasonic sounds encounter, the less intense the pest-repelling sounds become.

Hints:

When you **run into a Tough / Severe pest Issue**, the best thing you can do to resolve the problem is to **Bring in more Units for More Repelling Power** then Blast the pests from every angle.

Example #2: Indoor Rodent Issue

In this next example (right) there is **Rodent Activity** seen within two rooms of this house. For best coverage, we placed one unit within each room (because walls, doors and obstructing objects reduce the repelling power).

You do have one of the most powerful pest repellers we sell, so it is easily possible to repel the whole house with one Industrial Model, but just remember that more Repelling Power = Best Results!

WE CARE ABOUT YOUR RESULTS

In most cases, repelling pests with the unit eliminates the bat / insect / rodent problem within a 16-20 day period.

If this does not happen, then it's Time to Let Us Help You. Most of the time, we are just One Step Away from Solving the Pest Issue

Figure 3: Examples of effective unit placement for different coverage needs.

4. OPERATING INSTRUCTIONS

The CLEANRTH CIN009 features several switches and indicators for customized pest control. Refer to the diagram below for component identification.

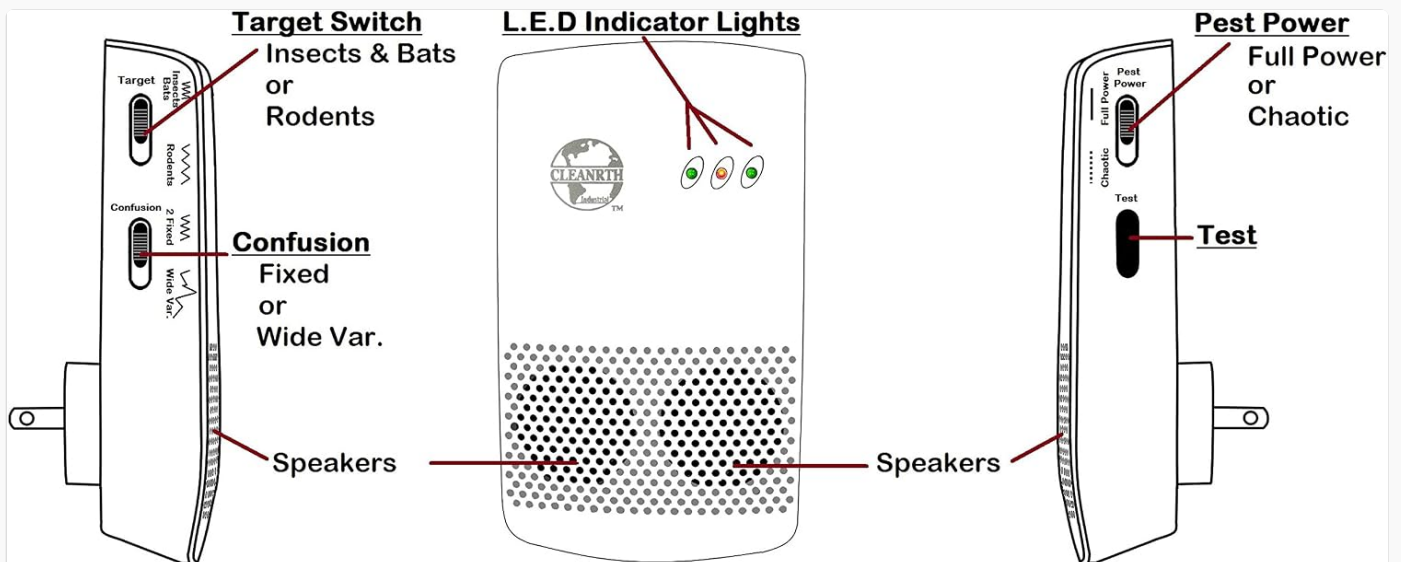

Figure 4: Component diagram of the CLEANRTH CIN009.

4.1. Target Switch

This switch allows you to select the primary pest group you wish to target:

- **Insects & Bats:** For deterring flying and crawling insects, as well as bats.
- **Rodents:** For deterring mice, rats, and similar rodents.

Figure 5: The Target switch on the side of the unit.

4.2. Confusion Switch

This switch alters the ultrasonic frequency pattern to prevent pests from becoming accustomed to the sounds:

- **Fixed:** Emits a consistent ultrasonic frequency.
- **Wide Var. (Variable):** Emits a constantly changing ultrasonic frequency to maximize confusion.

Figure 6: The Confusion switch on the side of the unit.

4.3. Pest Power Switch

This switch controls the intensity and pattern of the repelling output:

- **Full Power:** Provides continuous, high-intensity repelling.
- **Chaotic:** Cycles through various intense patterns to prevent pests from adapting.

Figure 7: The Pest Power switch on the side of the unit.

4.4. Test Button

Press the 'Test' button to hear an audible sound, confirming the ultrasonic function is active. This sound is typically within the human hearing range and is for testing purposes only.

4.5. Night Light

The unit may include a night light feature. Use the designated switch to turn the night light ON or OFF as desired.

5. MAINTENANCE

The CLEANRTH CIN009 requires minimal maintenance. Ensure the unit's vents are kept clear of dust and debris to maintain proper airflow and function. Wipe the exterior with a dry, soft cloth as needed. Do not use harsh chemicals or abrasive cleaners.

6. TROUBLESHOOTING

- **No Power/Lights:** Ensure the unit is securely plugged into a working 110V outlet. Check the power outlet with another device.
- **Reduced Effectiveness:**
 - Verify that the 'Target' switch is set correctly for the pests you are trying to repel.
 - Adjust the 'Confusion' switch between 'Fixed' and 'Wide Var.' modes. Pests can sometimes adapt to constant frequencies, so changing the pattern can improve effectiveness.

- Ensure the unit is not obstructed by furniture, curtains, or thick carpets, which can absorb ultrasonic waves.
- For severe infestations, it may take 30-45 days to see full results as pests are gradually driven away. Consistent use is key.
- Consider adding additional units for larger areas or areas with many obstructions.
- **Audible Sound (not during test):** If you hear a continuous audible sound (other than when pressing the 'Test' button), ensure the 'Pest Power' switch is not set to a mode that produces audible frequencies for humans.

7. SPECIFICATIONS

Specification	Detail
Product Dimensions	2.5 x 3.5 x 6.25 inches
Item Weight	8 ounces
Manufacturer	Cleanrth Products
Item Model Number	CIN009
ASIN	B01E6DHFPE

8. SAFETY INFORMATION

The CLEANRTH CIN009 is designed to be 100% safe for household pets such as dogs and cats, as well as children. It operates without the use of harmful chemicals or traps, making it a humane pest control solution.

100% Pet Safe

Figure 8: The CLEANRTH CIN009 is safe for pets.

Important: This device is for indoor use only. To reduce the risk of fire or electric shock, do not expose it to water or moisture. Do not attempt to open or modify the unit.

9. PRODUCT DEMONSTRATIONS

The following videos provide demonstrations of electronic pest repelling technology. Please note that some videos may feature different models or brands, but illustrate the general concept and effectiveness of such devices.

9.1. High Power Ultrasonic Bionic Mouse Repellent Demonstration

Video 1: A demonstration of a high-power ultrasonic bionic mouse repellent. This video shows mice reacting to ultrasonic frequencies, illustrating the general principle of pest repulsion. (Note: This video features a different product model.)

9.2. Mouse Blocker Demonstration Video

Video 2: A demonstration of a mouse blocker device. This time-lapse video shows mice actively avoiding a 'loud zone' created by the repeller, moving to a 'quiet zone'. (Note: This video features a different product model.)

9.3. Pest Offense Product Overview

Video 3: An overview of a similar plug-in pest repeller. This video shows the unit being plugged into an outlet and discusses its effectiveness. (Note: This video features a different product model.)

10. WARRANTY AND SUPPORT

CLEANRTH Products LLC offers a 30-day return policy for this product. For any questions, troubleshooting assistance, or support, please contact Cleanrth Products LLC directly. Customer service is highly rated for its helpfulness and quality.
