4. SETUP AND INSTALLATION

This vanity unit is designed for wall-mount installation. Professional installation is recommended to ensure proper and secure mounting.

Tools and Materials (Not Included):

- Drill
- Level
- Measuring tape
- Stud finder (recommended for secure mounting)
- Appropriate wall anchors/screws for your wall type (if not using provided hardware)
- Plumbing tools for faucet and drain connection

Installation Steps:

1. **Prepare the Wall:** Identify the desired mounting location. Use a stud finder to locate wall studs for secure attachment. Mark the desired height for the top of the vanity unit, ensuring it is level.
2. **Mark Mounting Points:** Refer to the vanity unit's pre-drilled mounting holes. Transfer these measurements to the

wall, ensuring they are level and correctly spaced.

3. **Drill Pilot Holes:** Drill pilot holes at the marked locations on the wall. Use a drill bit appropriate for your wall type and mounting hardware.
4. **Install Wall Anchors (if necessary):** If mounting into drywall without studs, install appropriate heavy-duty wall anchors.
5. **Mount the Vanity Unit:** Carefully lift the vanity unit and align its mounting holes with the pilot holes/anchors on the wall. Secure the unit to the wall using the provided hardware or suitable heavy-duty screws. Ensure the unit is level and firmly attached.
6. **Connect Plumbing:** Install the faucet (if not pre-installed) and connect the water supply lines and drain according to local plumbing codes. Test for leaks.
7. **Final Checks:** Verify that the drawer opens and closes smoothly and that the unit is stable.

5. OPERATING INSTRUCTIONS

The Duravit L-Cube vanity unit features a single drawer for storage.

Drawer Use:

- To open the drawer, gently pull the handle or the top edge of the drawer front.
- To close the drawer, push it back into the unit until it is fully seated.
- Avoid overloading the drawer. The maximum weight capacity for the unit is 50 pounds. Distribute weight evenly to prevent damage to the drawer slides or the unit structure.

6. MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your Duravit L-Cube vanity unit.

Cleaning the Cabinet (Black High Gloss Finish):

- Use a soft, damp cloth with mild soap and water.
- Wipe dry immediately with a clean, soft cloth to prevent water spots or streaks.
- Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the high-gloss finish.

Cleaning the Ceramic Basin:

- Clean with non-abrasive bathroom cleaners and a soft sponge or cloth.
- Rinse thoroughly after cleaning.
- Do not use harsh acids or strong alkaline cleaners, as they can damage the ceramic glaze.

General Care:

- Wipe up spills immediately to prevent staining or water damage.
- Periodically check all mounting hardware and plumbing connections for tightness.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your vanity unit.

Problem	Possible Cause	Solution
Drawer does not open/close smoothly.	Obstruction in the drawer slide; drawer overloaded; misaligned slides.	Remove any obstructions. Reduce drawer contents. Check if the unit is level and securely mounted. If issues persist, contact customer support.
Water leaks from plumbing connections.	Loose connections; damaged seals.	Tighten all plumbing connections. Inspect seals and replace if damaged. If leaks continue, consult a plumber.
Vanity unit feels unstable.	Improper wall mounting; loose mounting hardware.	Ensure the unit is securely fastened to the wall studs or appropriate anchors. Tighten all mounting screws. If unsure, consult a professional installer.
