CalExotics SE-0856-03-3

CalExotics Optimum Ultimate Power Stroker

Model: SE-0856-03-3

Introduction

The CalExotics Optimum Ultimate Power Stroker is designed to provide an enhanced experience through a combination of stroking and vibration functions. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your device to ensure optimal performance and longevity.

Safety Information

Please read all safety instructions before using this product. Failure to follow these instructions may result in injury or damage to the product.

- This product is intended for adult use only.
- Keep out of reach of children.
- Do not use if the product appears damaged or defective.
- Discontinue use immediately if any discomfort or irritation occurs.

- Statements regarding this product have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Product Features

The Optimum Ultimate Power Stroker incorporates several design elements for an enhanced user experience:

- Self-contained design with a snap-on storage lid for discreet and easy storage.
- Features 4 rows of internal stroking beads for varied sensation.
- Offers 7 distinct functions of intense vibration, pulsation, and escalation.
- Includes 3 speeds of independent stroking action.
- Equipped with a removable, textured, and super-stretchy sleeve for easy cleaning.
- User-friendly push-button controls for intuitive operation.
- Designed with an easy-grip handle for comfortable use.

Setup

Battery Installation

The device requires 4 AA batteries (not included) for operation. Follow these steps to install the batteries:

1. Locate the battery compartment cover, typically at the base of the unit.
2. Twist or slide the cover to open it according to the markings (e.g., "OPEN" / "CLOSE").
3. Insert 4 AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment. Incorrect battery insertion may cause the device to malfunction or be difficult to turn off.
4. Securely close the battery compartment cover.

Figure 3: Rear view displaying the battery compartment and control buttons.

Operation

The Optimum Ultimate Power Stroker features independent controls for vibration and stroking actions.

- **Power On/Off:** Press and hold the power button (usually marked 'S' or 'V' or a general power symbol) for a few seconds to turn the device on or off.
- **Stroking Function:** Use the button marked 'S' to cycle through the 3 speeds of the stroking action. Each press will advance to the next speed.
- **Vibration Function:** Use the button marked 'V' to cycle through the 7 functions of vibration, pulsation, and

escalation. Each press will change the vibration pattern.

- Experiment with different combinations of stroking speeds and vibration patterns to find your preferred setting.

Maintenance and Cleaning

Proper maintenance ensures hygiene and extends the life of your product.

- **Disassembly:** The internal sleeve is removable for thorough cleaning. Carefully pull the sleeve out from the main unit.
- **Cleaning:** Wash the removable sleeve with warm water and a mild soap or a specialized toy cleaner. Rinse thoroughly.
- **Main Unit:** Wipe the main unit with a damp cloth. Do not submerge the main unit in water, as it contains electronic components.
- **Drying:** Allow all components to air dry completely before reassembly or storage.
- **Reassembly:** Once dry, carefully reinsert the sleeve into the main unit, ensuring it is properly seated.

Storage

Store the CalExotics Optimum Ultimate Power Stroker in a clean, dry place away from direct sunlight and extreme temperatures. The self-contained design with its snap-on lid provides a convenient and discreet storage solution.

Troubleshooting

Problem	Possible Cause	Solution
Device does not turn on or operates weakly.	Low or dead batteries; incorrect battery insertion.	Replace with fresh AA batteries. Ensure batteries are inserted with correct polarity.
Device turns on but is difficult to turn off.	Incorrect battery insertion.	Remove and reinsert batteries, ensuring correct polarity.
Stroking or vibration functions are inconsistent.	Low battery power; internal obstruction.	Replace batteries. Ensure the internal sleeve is clean and free of debris.
