

Polycom 2200-65790-001

Polycom RealPresence Trio Expansion Microphones (2200-65790-001) User Manual

Model: 2200-65790-001

1. INTRODUCTION

This manual provides instructions for the proper installation, operation, and maintenance of the Polycom RealPresence Trio Expansion Microphones (Model 2200-65790-001). These microphones are designed to extend the audio pickup range of compatible Polycom RealPresence Trio conference phones, ensuring clear voice capture in larger meeting environments.

The kit includes two expansion microphones, each equipped with a mute button for convenient control during conferences.

2. COMPATIBILITY

The Polycom RealPresence Trio Expansion Microphones are compatible with specific Polycom RealPresence Trio conference phone models. Ensure your main conference unit is one of the following:

- Polycom RealPresence Trio 8800
- Polycom RealPresence Trio 8500
- Polycom RealPresence Trio 8300

Image 2.1: Graphic indicating compatibility with Trio 8800, Trio 8500, and Trio 8300 models.

3. SETUP AND INSTALLATION

Installation of these expansion microphones should be performed by experienced technicians to ensure proper functionality and system integration. These are genuine replacement parts designed for specific Polycom systems.

3.1. Connecting the Microphones

1. Identify the microphone ports on your compatible Polycom RealPresence Trio conference phone. These are typically located on the underside or rear of the main unit.
2. Carefully insert the connector cable from each expansion microphone into the designated microphone ports on the main conference unit. Ensure a secure connection.
3. Position the expansion microphones strategically on the conference table to maximize audio pickup, typically at the ends of a long table or in areas not adequately covered by the main unit's microphones. The microphones are designed to expand pickup up to 20 feet.

Two expansion mics for full room audio, included in kit

Image 3.1: A Polycom Trio conference phone centrally placed on a meeting table, with two expansion microphones connected and positioned to extend audio coverage for participants.

Expand Poly Trio microphone pickup to catch every word up to 20 feet

Image 3.2: A single Polycom expansion microphone positioned on a conference table, demonstrating its ability to capture audio from participants up to 20 feet away.

Image 3.3: A close-up view showing the connection point between the main Polycom Trio unit and an expansion microphone.

4. OPERATING INSTRUCTIONS

4.1. Mute Functionality

Each expansion microphone is equipped with a dedicated mute button for individual control. This allows participants

to quickly mute their microphone without affecting others or the main conference unit.

- To **mute** the microphone, press the button located on the top surface of the expansion microphone. The indicator light will change to red (or off, depending on system configuration) to confirm the mute status.
- To **unmute** the microphone, press the button again. The indicator light will return to green (or on) to indicate that the microphone is active.

Quick and convenient mute buttons on each mic

Image 4.1: A hand pressing the mute button on an expansion microphone, demonstrating the quick and convenient mute function during a meeting.

Image 4.2: A close-up view of the mute button on the expansion microphone, showing the green indicator light when active.

5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Polycom RealPresence Trio Expansion Microphones, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the exterior surfaces. Do not use liquid cleaners, aerosols, or solvents, as these may damage the device.
- **Handling:** Handle the microphones with care. Avoid dropping them or subjecting them to strong impacts.
- **Environment:** Keep the microphones away from excessive moisture, extreme temperatures, and direct sunlight.
- **Storage:** When not in use for extended periods, store the microphones in a clean, dry place.

6. TROUBLESHOOTING

If you encounter issues with your expansion microphones, refer to the following common troubleshooting steps:

- **No Audio Pickup:**
 - Ensure the microphone cables are securely connected to the main Polycom Trio unit.
 - Verify that the microphones are not muted (check the indicator light).
 - Confirm that the main Polycom Trio unit is powered on and functioning correctly.
- **Poor Audio Quality:**
 - Check for any obstructions around the microphones.
 - Ensure the microphones are placed on a stable surface and not vibrating.
 - Verify that the room acoustics are suitable for conferencing.
- **Mute Button Not Responding:**
 - Disconnect and reconnect the microphone cable to reset the unit.
 - If the issue persists, consult with an experienced technician.

For more complex issues, refer to the comprehensive user manual for your specific Polycom RealPresence Trio conference phone model or contact Polycom technical support.

7. SPECIFICATIONS

Feature	Specification
Model Number	2200-65790-001
Brand	Polycom
Audio Sensitivity	54 Decibels
Impedance	2200 Ohm
Microphone Form Factor	Tri-Capsule Array

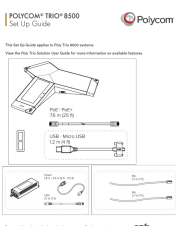

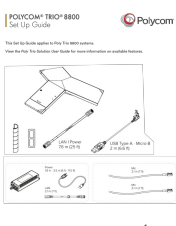

Feature	Specification
Item Dimensions (L x W x H)	0.01 x 0.01 x 0.01 inches <i>(Note: These dimensions appear to be placeholder values and may not reflect actual product size.)</i>
Power Source	Corded Electric
Material	Polycom <i>(Note: This likely refers to the brand's material standards, not a specific material type.)</i>
Signal-to-Noise Ratio	65 dB
Number of Channels	1
Frequency Response	15000 Hz
Item Weight	1.01 pounds
Connectivity Technology	XLR <i>(Note: The product images show a smaller, proprietary connector, not a standard XLR. This specification might be inaccurate or refer to internal components.)</i>
Connector Type	XLR <i>(See note above)</i>
Polar Pattern	Omnidirectional
Included Components	Microphone (pair)

8. WARRANTY AND SUPPORT

Polycom provides a 1-year EU Spare Part Availability Duration for this product. For specific warranty terms and conditions, please refer to the documentation included with your original Polycom RealPresence Trio conference phone or visit the official Polycom support website.

For technical assistance, product inquiries, or to report issues, please contact Polycom customer support through their official channels. Ensure you have your product model number (2200-65790-001) and purchase information available when seeking support.

DATA SHEET

Polycom Trio™ 8500

The new standard in conference collaboration for Skype for Business environments

Polycom Trio™ 8500 takes the ordinary conference call experience to the next level. Setting conference calls started inside the rich, building-in-room conferencing. The sleek and sophisticated design of the Trio™ 8500 means navigation is easier than ever. So, you can talk with them, every time, with the same ease and clarity as you already can on your Skype for Business desktop. And, with Polycom's legendary voice quality, you can be sure every syllable is crystal clear with Polycom's HD voice technology.

Legendary Voice Quality

Polycom Trio 8500 is equipped with the industry's most advanced sound quality including HD voice and Polycom's Acoustic Clear™ technology which combines industry leading far-field, echo cancellation, and noise reduction with advanced voice processing. With HDX, the full range of audio for the richest conference calls.

To ensure you experience an unrivaled level of clarity, Polycom's patented Headset technology will automatically detect non-speech noise and make the microphone for you. They will automatically cancel when speech is detected, allowing your conference to keep moving seamlessly.

Future-proof for video and content sharing

Polycom Trio 8500 is flexible, adaptable, and easy to use. It can be a conference phone or simply a video phone. This video and optional HD camera, and suddenly you have a cost-effective business class video conferencing and content sharing solution for the mobile room.

You can also use your personal device – wired or wireless – via USB or Bluetooth for full, rich sound when using your conferencing or video solution.

Skype for Business Office 365 certified

Working together with Microsoft, we have designed the Polycom Trio 8500 to maximize the power of Skype for Business and Office 365. Only Polycom Trio conference phone can claim the Skype for Business certification. So, the simplicity of Skype for Business from the desktop to the conference room – making it a seamless experience and ensuring broad user adoption.

DATA SHEET

Polycom Trio™ 8500

The new standard in conference collaboration for Skype for Business environments

Polycom Trio™ 8500 takes the ordinary conference call experience to the next level. Setting conference calls started inside the rich, building-in-room conferencing. The sleek and sophisticated design of the Trio™ 8500 means navigation is easier than ever. So, you can talk with them, every time, with the same ease and clarity as you already can on your Skype for Business desktop. SMART CONFERENCE PHONE FOR MID-SIZE MEETING ROOMS

POLY TRIO 8500

With your mid-size conference room, you have a lot of productive collaboration with one simple addition: Poly Trio 8500. Our super smart conference room phone has a great sense of space. With its 4.2 sq ft of glass, legendary voice quality and handsfree technology, it finds room for the flow of ideas to be uninterrupted.

Meetings are launched with a single touch. And video conferencing and content sharing can be easily added, ensuring future-proof flexibility. Wi-Fi, USB and Bluetooth® are built in so you don't need to.

FEATURES

- Poly's legendary voice quality (8x the room with HD voice & 4x HD audio and 4.2 sq ft of glass)
- Easy-to-use audio connectivity from your preferred mobile device (iOS, Android & Windows)
- Start a meeting in seconds with one-touch 3-to-join
- Make decisions faster with rich video and content sharing options

With Poly, the Trio, meet mid-size, big problems.

- Convertible, no-assembly platform
- Versatile, modular architecture
- Poly Handset
- Supports a range of 3rd-party Poly-certified expansion

ТЕХНИЧЕСКОЕ ОПИСАНИЕ

Polycom® RealPresence Trio™ 8800

Первый интеллектуальный центр для групповой совместной работы

Решение RealPresence Trio™ 8800 – это новый инновационный шаг в развитии гибридных видеоконференций. Благодаря своей универсальности, гибкости и масштабируемости, RealPresence Trio™ 8800 позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы. RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы.

Бескомпромиссное решение для совместной работы

RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы. RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы.

Универсальный интерфейс – только лучше

RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы. RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы.

Возможность проведения встреч в любой среде

RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы. RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы.

Удобство управления для администраторов

RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы. RealPresence Trio™ 8800 – это решение для совместной работы, которое позволяет легко интегрировать существующие системы и оборудование, а также обеспечивает высокую производительность и надежность работы.

- Высокая производительность и надежность работы
- Универсальный интерфейс – только лучше
- Возможность проведения встреч в любой среде

DATA SHEET

Polycom Trio™ 8500

The new standard in conference collaboration for Skype for Business environments

Benefits

- Best production calls with the world's clearest and richest audio experience—used for the richest conference room
- Encourage user engagement with a simple to use interface and on-touch per camera integration
- Future proof solution with option to add video conferencing and content sharing
- Maximize investment—rapid integration allows for endpoint expansion on multiple platforms
- Easy provision and manage using Polycom RealPresence® Resource Manager software
- Configurable expansion make customizing the interface easy, accommodating your organization's usability and security needs

Legendary Voice Quality

Polycom Trio 8500 is equipped with the industry's most advanced sound quality including HD Voice and Polycom® Acoustic Clear™ technologies which combine industry leading full duplex, echo cancellation, and noise reduction with advanced voice processing. With HDX 3m of talk up, it is ideal for the richest conference room.

To ensure you experience an unrivaled flow of ideas, Polycom's patented NoiseBlock™ technology will automatically detect non-speech noise and make the microphone for you. They will automatically silence when speech is detected, allowing your conference to keep moving seamlessly.

Polycom Trio 8500 is available adaptability allows you to use it as a conference phone or simply as the Polycom Trio Visual unit (optional USB camera), and suddenly you have a cost-effective business class video conferencing and content sharing solution ideal for mobile rooms.

Use your personal device—wired or wireless—via USB or Bluetooth for full, rich sound when using cloud conferencing or to place calls using your personal contacts list.

Stay for BusinessOffice 365 certified

Working together with Microsoft, we have designed the Polycom Trio 8500 to maximize the power of Skype for Business and Office 365. Only Polycom Trio conference phone can claim the Skype for Business certified distinction. Indeed the simplicity of Skype for Business from the desktop to the conference room—making it a consistent experience and ensuring instant user adoption.

DATA SHEET

Polycom Trio™ 8500

The new standard in conference collaboration for small and mid-sized rooms for open SIP environments

Benefits

- Best production calls with the world's clearest and richest audio experience—used for the richest conference room
- Encourage user engagement with a simple to use interface and on-touch per camera integration
- Connect mobile devices via Bluetooth or USB
- Maximize investment—rapid integration allows for endpoint expansion on multiple platforms
- Easy provision and manage using Polycom RealPresence® Resource Manager software
- Configurable expansion make customizing the interface easy, accommodating your organization's usability and security needs

Legendary voice quality

Polycom Trio 8500 is equipped with the industry's most advanced sound quality including HD Voice and Polycom® Acoustic Clear™ technologies which combine industry leading full duplex, echo cancellation, and noise reduction with advanced voice processing. With HDX 3m of talk up, it is ideal for the richest conference room.

To ensure you experience an unrivaled flow of ideas, Polycom's patented NoiseBlock™ technology will automatically detect non-speech noise and make the microphone for you. They will automatically silence when speech is detected, allowing your conference to keep moving seamlessly.

Polycom Trio 8500 is available adaptability allows you to use it as a conference phone or simply as the Polycom Trio Visual unit (optional USB camera), and suddenly you have a cost-effective business class video conferencing and content sharing solution ideal for mobile rooms.

Use your personal device—wired or wireless—via USB or Bluetooth for full, rich sound when using cloud conferencing services or to place calls using your personal contacts list.

Modern intuitive interface

The Polycom Trio 8500 has a sleek and sophisticated design. A 5-inch color touch screen and intuitive navigation make it simple for everyone to use, resulting in fewer mistakes, but easier for every meeting and instant training requirements. Convenient, illuminated touch buttons on each leg adjust everyone in the room can manage the meeting.

Use your personal device—wired or wireless—via USB or Bluetooth for full, rich sound when using cloud conferencing services or to place calls using your personal contacts list.

Broadest interoperability

In an industry where many vendors are built on proprietary standards, Polycom ensures open standards, ensuring that neither the device, platform or calling experience will be a barrier. Early trial calls on trial, every time with the same interface and meeting, use your Skype for Business environment and use Polycom's legendary voice quality, you can be sure every update is crystal clear with Polycom's HDX™ technology.

Polycom Trio 8500 gives you the solution you need today and the investment protection you need for the future.
