TROUBLESHOOTING

Common Issues and Solutions:

- **Sheet Slipping Off:** Ensure the sheet is properly fitted over all four corners and tucked securely under the mattress. The all-around elastic is designed to prevent slipping. If your mattress is thicker than 16 inches, the sheet may not fit optimally.
- **Excessive Wrinkling:** Microfiber sheets are generally wrinkle-resistant. To minimize wrinkles, remove the sheet from the dryer immediately after the cycle completes and fold or place it on the bed. Avoid overloading the washing machine or dryer.

- **Pilling:** Mellanni sheets are designed to be pill-resistant. If pilling occurs, ensure you are washing the sheet separately from items with zippers, hooks, or rough textures that could cause friction. Always wash on a gentle cycle.
- **Stains:** Treat stains promptly. For best results, pre-treat the stained area with a gentle stain remover before machine washing.
