

TASER 22029

TASER X2 Professional Series Personal and Home Defense Kit User Manual

Model: 22029 | Brand: TASER

1. INTRODUCTION

The TASER X2 is an advanced conducted energy weapon designed for personal and home defense. It features dual cartridges for independent control, a dual laser sight, and an LED flashlight for enhanced accuracy. The Central Information Display (CID) provides real-time data on power level, cartridge status, and self-diagnosis. Its Pulse Calibration System ensures effective electrical charge delivery, adapting almost 20 times per second for optimal incapacitation. This technology offers a 40% safety improvement over previous conducted electronic weapon designs. The Performance Power Magazine (PPM) supports up to 500 firings, and the IPX2 weather resistance ensures reliable performance.

2. SAFETY INFORMATION

WARNING: This device delivers a high-voltage electrical discharge. Misuse can result in serious injury or death. Read and understand all instructions and warnings before use.

- Always treat the device as if it is loaded.
- Keep out of reach of children.
- Do not aim at the head, neck, or chest area unless absolutely necessary in a life-threatening situation.
- Ensure proper training before carrying or using the device for self-defense.
- Check local laws and regulations regarding the ownership and use of conducted energy weapons.
- Avoid contact with water or extreme temperatures unless specified by the IPX2 rating.

3. PACKAGE CONTENTS

The TASER X2 Professional Series Personal and Home Defense Kit includes the following components:

- (1) TASER X2 Device
- (1) Rugged Case
- (1) Replaceable Performance Power Magazine (PPM) Battery
- (2) Replaceable Cartridges (15 ft. range)
- (1) Conductive Practice Target
- User Manual and Quick Start Guide
- TASER Decal

Image: Contents of the TASER X2 kit, showing the device, two cartridges, and a practice target.

Image: The TASER X2 device and cartridges neatly arranged within its rugged carrying case.

4. PRODUCT OVERVIEW

The TASER X2 is engineered for intuitive and effective operation. Key components include:

- **Two Smart Cartridges:** Allows for a double-shot feature without manual reload.
- **LED Flashlight:** Illuminates targets in low-light conditions.
- **Dual Targeting Lasers:** Provides precise aiming by showing where both probes will land.
- **Warning Arc Switch:** Generates an audible warning arc to deter threats without firing probes.
- **Performance Power Magazine (PPM):** Houses the battery and provides power.
- **Safety Switch:** Engages or disengages the device for safe handling.
- **Central Information Display (CID):** Digital screen displaying battery level, cartridge status, and other diagnostics.

Image: Diagram highlighting the key features of the TASER X2 device, including smart cartridges, LED flashlight, dual targeting lasers, warning arc switch, safety switch, and Performance Power Magazine.

Image: A side view of the black TASER X2 device with yellow cartridges inserted, showcasing its ergonomic design.

5. SETUP

1. **Unpacking:** Carefully remove all components from the rugged case.
2. **Battery Installation:** Insert the Performance Power Magazine (PPM) battery into the device's handle. Ensure it clicks securely into place.
3. **Cartridge Loading:** With the safety switch in the "SAFE" position, insert the cartridges into the front of the device until they click. The X2 accommodates two cartridges.
4. **Initial Check:** Verify the Central Information Display (CID) shows a full battery charge and indicates cartridges are loaded.

6. OPERATING INSTRUCTIONS

6.1. General Operation

1. **Safety Off:** Move the safety switch to the "ARMED" position. The CID will illuminate, and the lasers will activate.
2. **Aiming:** Use the dual lasers to aim at the target. The lasers indicate the spread of the probes.
3. **Warning Arc (Optional):** To deter a threat without firing, press the warning arc switch. An electrical arc will display across the front of the device.

4. **Firing:** To deploy probes, firmly press the trigger. The device will discharge an electrical pulse for 5 seconds. If the first shot misses or is ineffective, a second cartridge can be deployed immediately by pressing the trigger again.
5. **Safety On:** After use, immediately return the safety switch to the "SAFE" position.

6.2. Cartridge Replacement

To replace spent cartridges:

1. Ensure the safety switch is in the "SAFE" position.
2. Press the cartridge release buttons on the sides of the device.
3. Remove the spent cartridges.
4. Insert new cartridges as described in "Setup" section.

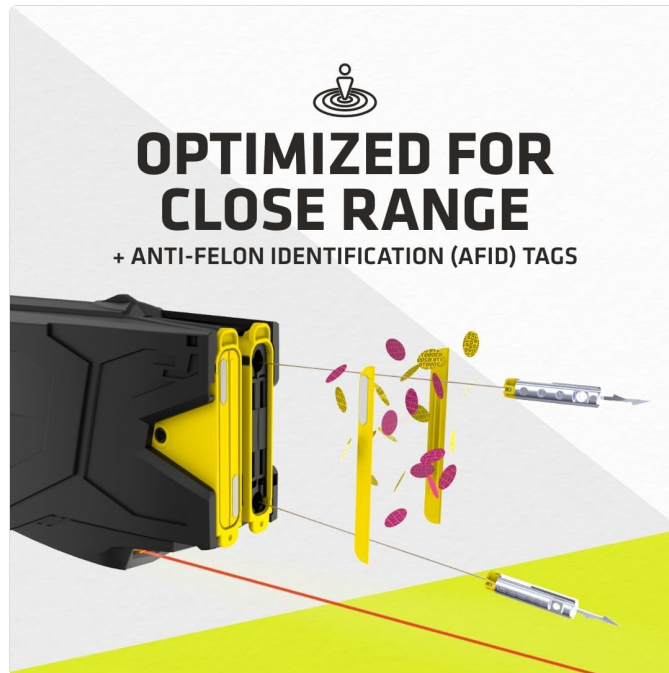

Image: A diagram illustrating the deployment of probes from the TASER X2, showing the dual laser targeting and the spread of the probes, optimized for close-range effectiveness.

Image: A person demonstrating how the TASER X2 can be carried securely in a holster on their belt, highlighting its portability for personal defense.

Image: A person holding the TASER X2 device, demonstrating its compact size and ease of handling.

7. MAINTENANCE

- **Cleaning:** Wipe the device with a dry, soft cloth. Do not use abrasive cleaners or solvents.
- **Battery Check:** Regularly check the CID for battery level. Replace the PPM when indicated.
- **Storage:** Store the device in its rugged case in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the safety switch is in the "SAFE" position during storage.
- **Cartridge Expiration:** Check the expiration date on cartridges and replace them as needed.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low or dead battery (PPM).	Replace the Performance Power Magazine (PPM) battery.
Cartridges do not fire.	Cartridges not properly seated or expired.	Ensure cartridges are fully inserted and clicked into place. Check expiration date and replace if expired.
Lasers/Flashlight not working.	Device not armed or battery low.	Move safety switch to "ARMED". Check CID for battery level.
CID displays an error code.	Internal device issue.	Refer to the detailed user manual for specific error codes or contact customer support.

9. SPECIFICATIONS

Feature	Detail
Model Name	Self-Defense Tools/X2
Manufacturer	Axon Enterprises, Inc.

Feature	Detail
Dimensions (L x W x H)	7.8" L x 1.7" W x 4.2" H
Weight (without PPM and cartridges)	0.6 lbs
Immobilization Cycle	5 Seconds
Range	15 ft. (4.6m)
Power Source	Performance Power Magazine (PPM) - up to 500 firings
Weather Resistance	IPX2
Operating/Storing Temperature	-4 °F [-20 °C] to 122 °F [50 °C]
Included Components	X2 Device, Cartridges
Color	Black
Material	Metal
UPC	796430220292, 689407963738

10. WARRANTY AND SUPPORT

The TASER X2 comes with a **1-year warranty** from the manufacturer, Axon Enterprises, Inc.

For technical support, warranty claims, or further assistance, please refer to the contact information provided in the full user manual included with your product or visit the official TASER website.
