OPERATING INSTRUCTIONS (GAMEPLAY)

Objective

The primary objective is to create a continuous path from Little Red Riding Hood to the house using the provided path puzzle pieces. In challenges that include the wolf, a separate, distinct path must also be created from the wolf to the house. Both paths must be complete and cannot intersect or share segments.

Playing the Game

1. After setting up the gameboard according to the challenge, take the remaining path puzzle pieces.
2. Strategically place these path pieces onto the empty spaces on the gameboard.
3. Ensure that Little Red Riding Hood has a clear, unbroken path leading directly to the house.
4. If the wolf is part of the challenge, ensure it also has its own clear, unbroken path to the house.
5. All path pieces must fit perfectly within the grid, and no empty spaces should remain within the designated puzzle area.
6. Each challenge has only one correct solution, which can be found at the back of the challenge booklet.
