Jura J80

Jura J80 Automatic Coffee Center Instruction Manual

INTRODUCTION

Welcome to the Jura J80 Automatic Coffee Center. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new coffee machine. Please read all instructions carefully before using the appliance for the first time and keep this manual for future reference.

Image: The Jura J80 Automatic Coffee Center, a sleek black machine, is shown from an angled perspective, actively brewing a layered latte into a clear glass. The control panel and spouts are visible.

SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage, observe the following safety precautions:

- Read all instructions thoroughly before operating the appliance.
- This appliance is intended for household use only.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Ensure the voltage indicated on the appliance matches your local power supply before connecting.
- Avoid contact with hot surfaces. Use handles or knobs.
- Keep the appliance out of reach of children.
- Unplug the appliance from the outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.

SETUP

Follow these steps for the initial setup of your Jura J80:

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for potential future transport.
2. **Placement:** Position the coffee machine on a stable, level, and heat-resistant surface, away from direct sunlight and heat sources. Ensure adequate ventilation around the appliance.
3. **Water Tank:** Remove the water tank, rinse it, and fill it with fresh, cold tap water up to the 'Max' mark. Reinsert the tank securely.
4. **Bean Container:** Open the aroma preservation cover and fill the bean container with fresh coffee beans. Close the cover firmly.
5. **Power Connection:** Connect the power cord to the machine and then plug it into a grounded electrical outlet.
6. **Initial Rinse:** The machine will prompt you to perform an initial rinse cycle. Follow the on-screen instructions to complete this process. This primes the system and ensures optimal coffee quality.

OPERATING

Your Jura J80 is designed for intuitive operation. Here's how to brew your favorite beverages:

1. **Power On:** Press the power button to turn on the machine. The display will show the readiness status.
2. **Beverage Selection:** Use the display and navigation buttons to scroll through and select your desired beverage, such as Cappuccino, Espresso, Latte Macchiato, Coffee, or Hot Water.
3. **Adjusting Settings:** Before brewing, you can often adjust settings like coffee strength and water volume. Follow the on-screen prompts to customize your drink.
4. **Brewing:** Place a cup or glass under the coffee and/or milk spouts. Press the start button for the selected beverage. The machine will automatically grind the beans, brew, and dispense your drink.
5. **Power Off:** To turn off the machine, press the power button. The machine will perform an automatic rinse before shutting down.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Jura J80. The machine will prompt you for necessary cleaning cycles.

- **Daily Milk System Cleaning:** After preparing milk-based beverages, it is crucial to clean the milk system daily. Failure to do so can lead to blockages and malfunction of the frother. Rinse the frother system with water after each use, and perform a full cleaning with Jura milk system cleaner as prompted by the machine.
- **Drip Tray and Coffee Grounds Container:** Empty and clean the drip tray and coffee grounds container regularly, typically when prompted by the machine. Rinse with warm water.
- **Integrated Cleaning Program:** The machine will periodically request a cleaning program. Use Jura cleaning tablets and follow the on-screen instructions. This is typically a monthly cleaning process.
- **Descaling:** The J80 features an intelligent descaling program. When prompted, use Jura descaling tablets and follow the step-by-step instructions on the display.
- **Water Filter Replacement:** If you are using a CLARIS water filter, replace it when indicated by the machine to ensure optimal water quality and reduce the frequency of descaling.

TROUBLESHOOTING

If you encounter issues with your Jura J80, consult the following common troubleshooting tips:

- **No Coffee Dispensed:**
 - Check if the water tank is filled and correctly inserted.
 - Ensure the bean container has enough coffee beans.
 - Verify that the brewing unit is not blocked.
- **Milk Frother Not Working / Poor Foam Quality:**

- This is often due to insufficient cleaning. Perform a thorough cleaning of the milk system using Jura milk system cleaner. Disassemble the frother components and soak them if necessary.
- Ensure the milk is fresh and cold.

- **Machine Not Turning On:**

- Check if the power cord is securely plugged into both the machine and a functional electrical outlet.
- Test the outlet with another appliance.

- **Error Messages on Display:**

- Note the specific error code or message. Consult the Jura support website or your full user manual for detailed explanations and solutions.

If the problem persists after attempting these solutions, please contact Jura customer support.

SPECIFICATIONS

Brand	Jura
Model	J80
Product Dimensions	17 x 11.2 x 13.3 inches
Item Weight	31.9 pounds
Capacity	14 ounces
Material	Glass (for certain components)
Special Feature	Programmable
Coffee Maker Type	Espresso Machine
Human Interface Input	Buttons
UPC	794151411197
ASIN	B01F96ITWK
