### Toyota 53737-17010

# Toyota 53737-17010 Fender Apron Seal Instruction Manual

Genuine OEM Part

## 1. INTRODUCTION

This manual provides essential information for the proper installation and maintenance of your Toyota 53737-17010 Fender Apron Seal. This component is a genuine Original Equipment Manufacturer (OEM) part, ensuring optimal fit, function, and durability for your vehicle.

Image 1.1: Toyota 53737-17010 Fender Apron Seal. This is a black rubber seal designed to fit between the fender and the vehicle body, preventing water and debris ingress.

## 2. SAFETY INFORMATION

Always prioritize safety when working on your vehicle. Follow these guidelines:

- Wear appropriate personal protective equipment (PPE), such as gloves and eye protection.

- Ensure the vehicle is parked on a level surface and the parking brake is engaged.
- If lifting the vehicle, use approved jacks and jack stands to secure it properly.
- Refer to your vehicle's service manual for specific procedures and torque specifications.
- Keep children and pets away from the work area.

### 3. INSTALLATION

---

This section outlines the general steps for installing the fender apron seal. Specific vehicle models may have variations. Consult your vehicle's service manual for detailed instructions.

1. **Preparation:** Ensure the area where the seal will be installed is clean, dry, and free of old adhesive or debris.
2. **Remove Old Seal (if applicable):** Carefully remove the old fender apron seal. Note its orientation and attachment points.
3. **Positioning:** Align the new Toyota 53737-17010 Fender Apron Seal with the fender and body panel. Ensure it sits correctly in its designated groove or mounting points.
4. **Attachment:** Secure the seal using the original fasteners, clips, or adhesive as required by your vehicle's design. Ensure a snug fit to prevent water and debris ingress.
5. **Inspection:** After installation, visually inspect the seal to confirm it is properly seated and there are no gaps or misalignments.

### 4. OPERATION (FUNCTION)

---

Once correctly installed, the Toyota 53737-17010 Fender Apron Seal functions to create a protective barrier between the fender and the vehicle's engine bay or interior components. It prevents the entry of water, dirt, road salt, and other debris, thereby protecting sensitive parts from corrosion and damage. It also helps to reduce road noise and vibrations.

### 5. MAINTENANCE

---

Regular inspection of your fender apron seal can extend its lifespan and ensure continued protection.

- **Visual Inspection:** Periodically check the seal for cracks, tears, hardening, or signs of wear. Look for any areas where the seal may have come loose.
- **Cleaning:** Keep the seal clean from dirt and debris. Use a mild soap and water solution and a soft cloth. Avoid harsh chemicals that could degrade the rubber material.
- **Replacement:** If the seal shows significant signs of damage or deterioration, replace it promptly with a genuine Toyota part to maintain optimal protection.

### 6. TROUBLESHOOTING

---

If you experience issues related to the fender apron seal, consider the following:

- **Water or Debris in Engine Bay/Fender Well:** This indicates the seal may be damaged, improperly installed, or has deteriorated. Inspect the seal for gaps, tears, or looseness. Re-seat or replace as necessary.
- **Loose or Detached Seal:** Check the attachment points (clips, fasteners). Re-secure the seal. If clips are broken, replace them.
- **Unusual Noise:** A loose or improperly seated seal might contribute to rattling or wind noise. Ensure the seal is firmly in place along its entire length.

## 7. SPECIFICATIONS

---

Attribute	Detail
Manufacturer	Toyota
Brand	Toyota
Item Model Number	53737-17010
Manufacturer Part Number	53737-17010
OEM Part Number	53737-17010
Item Weight	3.5 pounds
Package Dimensions	10 x 6 x 3 inches
Date First Available	May 9, 2016

## 8. WARRANTY AND SUPPORT

---

As a Genuine OEM Factory Original part, the Toyota 53737-17010 Fender Apron Seal is guaranteed against poor workmanship and material defects. For specific warranty details or technical support, please refer to your vehicle's official Toyota documentation or contact an authorized Toyota service center.
