BRITAX RÖMER EVOLVA 1-2-3 Car Seat

User Manual

PRODUCT OVERVIEW

The BRITAX RÖMER EVOLVA 1-2-3 is a versatile combination car seat designed for children weighing from 9 to 36 kg, covering Group 1/2/3, suitable for approximately 9 months to 12 years old. It features padded side wings, performance chest pads, and an adjustable headrest and harness system to ensure comfort and safety as your child grows.

Key features include:

- Suitable for use from 9 – 36 kg ($\approx$ 9 months – 12 years)
- Flexible installation in most cars with a 3-point seat belt
- Comfort for longer journeys with recline position and integrated drink holders
- Approved according to regulation ECE R44.04

SETUP AND INSTALLATION

Proper installation is crucial for your child's safety. Always refer to the detailed instructions in the physical user guide provided with your car seat for specific vehicle compatibility and installation steps.

1. Car Seat Dimensions

Before installation, ensure the car seat dimensions are compatible with your vehicle's seating area.

Figure 2: Car seat dimensions, showing a width of 49 cm and adjustable height from 61-86 cm.

2. Adjusting Headrest and Harness

The headrest and harness can be adjusted simultaneously to accommodate your child's height. Ensure the shoulder straps are at or just above your child's shoulders when forward-facing.

Figure 3: Comparison of the car seat with the headrest in its lowest and highest adjustable positions.

Figure 4: Detailed view of the headrest and harness adjustment area, highlighting the mechanism for height changes.

3. Seat Belt Installation

The EVOLVA 1-2-3 car seat is installed using your vehicle's 3-point seat belt. Follow the belt routing guides on the car seat carefully to ensure a secure fit. The belt should be taut and free of twists.

For detailed visual instructions on installation, please refer to the official Britax Römer website or the user guide included in the box. While no videos are embedded here, official installation videos are often available from the manufacturer.

OPERATING THE CAR SEAT

1. Securing Your Child

Place your child in the seat and fasten the 5-point harness. Ensure the harness straps are snug against your child's body, with no slack. The chest clip should be positioned at armpit level.

2. Recline Position

The car seat offers a recline position for increased comfort during longer journeys. This adjustment typically needs to be made before installation or when the seat is not occupied. Consult your user manual for the exact procedure.

Figure 5: Side profile of the car seat, illustrating the slight recline position for child comfort.

3. Integrated Drink Holder and Snack Tray

The car seat includes a convenient pull-out drink holder and snack tray. These are designed to keep your child's refreshments accessible during travel.

Figure 6: The car seat with its integrated pull-out drink holder, shown with a bottle and a small container.

MAINTENANCE

Regular maintenance ensures the longevity and hygiene of your car seat.

- **Cover:** The car seat cover is machine washable. Refer to the care label on the cover for specific washing instructions (e.g., temperature, cycle).
- **Seat Shell:** The hard plastic seat shell can be wiped clean with a damp cloth and mild soap. Avoid abrasive cleaners.
- **Harness:** Inspect the harness straps regularly for any signs of wear or damage. Clean with a damp cloth; do not machine wash or tumble dry harness straps as this can weaken them.

TROUBLESHOOTING

This section addresses common issues you might encounter. For more complex problems, please contact customer

support or refer to the full user manual.

• **Car Seat Feels Loose After Installation:**

Ensure the vehicle's 3-point seat belt is routed correctly through all designated guides and pulled as tightly as possible. Push down firmly on the car seat while tightening the belt. Check for any twists in the belt. If the issue persists, re-read the installation section of your user manual carefully.

• **Harness Straps Are Difficult to Tighten/Loosen:**

Check for any twists in the harness straps. Ensure the harness adjuster button/lever is fully depressed when attempting to loosen. If the straps are stiff, ensure they are clean and free of debris. Do not apply lubricants.

• **Child's Head Falls Forward When Sleeping:**

Ensure the car seat is installed in the correct recline position for your child's age and weight group. While the EVOLVA 1-2-3 offers a recline, it may not be as deep as infant carriers. Ensure the headrest is adjusted to the correct height for your child.

SPECIFICATIONS

Feature	Detail
Model Number	2000024691
Product Dimensions (L x W x H)	48 x 49 x 86 cm
Item Weight	8 kg
