# Kenneth Cole REACTION Men's Slim Fit Suit Instruction Manual

Model: 20312011

## PRODUCT OVERVIEW

---

This manual provides essential information for the Kenneth Cole REACTION Men's Slim Fit Suit. This suit is designed for a modern, tailored look, suitable for various formal and semi-formal occasions.

## KEY FEATURES

---

- **Jacket:** Two-button front closure with notched lapel and side vents for a comfortable fit and classic style.
- **Trousers:** Slim fit with a tapered leg, flat front, and hook-and-eye closure. Trousers feature an unfinished hem, requiring tailoring for a personalized length.

## WEARING AND FIT GUIDE

---

The Kenneth Cole REACTION Slim Fit Suit is designed to offer a contemporary, close-to-the-body silhouette. For optimal appearance and comfort, ensure the suit is properly fitted.

### Jacket Fit

The jacket should fit snugly across the shoulders without pulling or bunching. The sleeves should end at the wrist bone, allowing about a quarter to a half-inch of your shirt cuff to show. The jacket length should cover your seat.

## **Trouser Fit**

The trousers are slim-fit with a tapered leg. They should sit comfortably at your waist. As the hem is unfinished, professional tailoring is required to achieve the correct length. The ideal length allows the trouser cuff to lightly touch the top of your shoe, with a slight break or no break, depending on personal preference.

## CARE AND MAINTENANCE

---

- **Cleaning:** This suit is **Dry Clean Only**. Do not machine wash, tumble dry, or bleach.
- **Storage:** Hang the suit on a wide, padded hanger to maintain its shape. Store in a breathable garment bag to protect it from dust and moths.
- **Wrinkles:** Minor wrinkles can often be removed by hanging the suit in a steamy bathroom or using a garment steamer. Avoid direct ironing with high heat, as this can damage the fabric.

# PRODUCT SPECIFICATIONS

---

Feature	Detail

## TROUBLESHOOTING COMMON ISSUES

---

### Wrinkles

If your suit develops wrinkles, try hanging it in a steamy bathroom for 15-20 minutes. For more stubborn wrinkles, use a garment steamer. Avoid direct high-heat ironing to prevent damage to the fabric.

### Fit Issues

If the suit does not fit as expected, especially the trousers with their unfinished hem, professional tailoring is recommended. A tailor can adjust the length of the trousers and make minor alterations to the jacket for a perfect fit.

### Stains

For any stains, it is best to take the suit to a professional dry cleaner as soon as possible. Do not attempt to spot

clean with water or harsh chemicals, as this may set the stain or damage the fabric.

## WARRANTY AND SUPPORT
