

## VIPERTEK VTS-989

# VIPERTEK VTS-989 Rechargeable Stun Gun with LED Flashlight User Manual

Model: VTS-989

## 1. INTRODUCTION

Thank you for choosing the VIPERTEK VTS-989 Rechargeable Stun Gun with LED Flashlight. This device is designed for personal defense and features a powerful stun function along with a convenient LED flashlight. Please read this manual thoroughly to understand the proper operation, safety precautions, and maintenance procedures for your device.

## 2. IMPORTANT SAFETY WARNINGS

- **Legal Restrictions:** Ensure that the possession and use of this device are legal in your local jurisdiction. Laws regarding stun guns vary by state and locality.
- **Adult Use Only:** This product is intended for use by persons 18 years of age or older. Keep out of reach of children.
- **Avoid Prolonged Discharge:** Do not discharge the stun gun into the air for more than 1 second at a time. Prolonged discharge can damage the unit and void the warranty.
- **Target Areas:** For effective use, target large muscle groups such as the shoulder, hip, or thigh. Avoid the head, neck, chest, and groin areas.
- **Water Exposure:** Do not expose the device to water or extreme moisture.
- **Storage:** Store the device in a safe, dry place away from extreme temperatures.
- **Accidental Discharge:** Always ensure the safety switch is in the 'OFF' position when not in use to prevent accidental discharge.

## 3. PACKAGE CONTENTS

The VIPERTEK VTS-989 package includes the following items:

- VIPERTEK VTS-989 Stun Gun with LED Flashlight
- Charging Cable
- Nylon Holster with Belt Loop

## 4. PRODUCT OVERVIEW

Familiarize yourself with the components of your VIPERTEK VTS-989 stun gun:

**Figure 1:** Front view of the VIPERTEK VTS-989 Stun Gun, showing the stun probes and LED flashlight.

- **Stun Probes:** Two metal prongs at the top of the device that deliver the electrical discharge.
- **LED Flashlight:** Integrated light source for illumination.
- **Safety Switch:** A three-position slide switch (OFF / Flashlight / Stun) to control the device's functions.
- **Activation Button:** A red button, typically located on the side, used to activate the stun function when the safety switch is in the 'Stun' position.
- **Charging Port:** Located at the bottom of the device for connecting the charging cable.
- **Wrist Strap:** For secure handling and to prevent accidental dropping.
- **Ergonomic Grip:** Designed for comfortable and secure holding.

## 5. SETUP AND INITIAL CHARGING

Before first use, fully charge your VIPERTEK VTS-989 stun gun.

1. Ensure the safety switch is in the 'OFF' (middle) position.
2. Connect the provided charging cable to the charging port at the bottom of the stun gun.

3. Plug the other end of the charging cable into a standard 110V AC wall outlet.
4. The charging indicator light (usually red) will illuminate to show the device is charging.
5. Charge the device for approximately 6-8 hours for the initial charge. Subsequent charges typically take less time. Do not overcharge.

## 6. OPERATING INSTRUCTIONS

### 6.1. Using the LED Flashlight

1. Move the safety switch to the middle position (indicated by a light bulb icon or similar).

2. The LED flashlight will activate.
3. To turn off the flashlight, slide the switch back to the 'OFF' (center) position.

## 6.2. Activating the Stun Gun

1. Move the safety switch to the top position (indicated by a lightning bolt icon or similar). A red indicator light will illuminate, signifying that the stun function is armed.
2. Press the red activation button on the side of the device to discharge the stun gun.
3. To deactivate the stun function, slide the switch back to the 'OFF' (center) position.

**Video 2:** A quick review demonstrating the functionality of the ViperTek Rechargeable Stun Gun.

## 7. MAINTENANCE

---

- **Regular Charging:** To maintain optimal battery performance, it is recommended to charge your stun gun for 6-8 hours once a month, even if it has not been used.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the device. Do not use abrasive cleaners or immerse the device in liquids.
- **Storage:** When not in use, store the stun gun in its provided nylon holster to protect it from damage and keep it readily accessible.

## 8. TROUBLESHOOTING

If your VIPERTEK VTS-989 is not functioning as expected, consider the following:

- **No Spark/Light:** Ensure the device is fully charged and the safety switch is in the correct position for the desired function (flashlight or stun).
- **Weak Spark:** This may indicate a low battery. Recharge the device fully.
- **Charging Indicator Not On:** Verify that the charging cable is securely connected to both the stun gun and the power outlet.

If issues persist, please contact customer support.
