## 1. INTRODUCTION

This manual provides instructions for the safe and effective use of your CCLIFE TX Torx Screwdriver Set. This high-quality set includes 11 magnetic Torx screwdrivers, covering common sizes from T6 to T40, with specific sizes featuring a security hole for tamper-resistant fasteners. Each screwdriver is designed with a two-component ergonomic handle for comfortable and efficient use.

## 2. PACKAGE CONTENTS AND SETUP

---

### 2.1 Package Contents

Your CCLIFE TX Torx Screwdriver Set includes the following 11 screwdrivers:

- **With Security Hole:** T8, T9, T10, T15, T20, T25, T27, T30, T40
- **Without Security Hole:** T6, T7

### 2.2 Unpacking and Inspection

Carefully remove all screwdrivers from their packaging. Inspect each tool for any signs of damage. If any items are damaged or missing, please contact customer support.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 Selecting the Correct Screwdriver

Always select the correct Torx size (T6-T40) that precisely fits the fastener head. Using an incorrect size can damage both the fastener and the screwdriver tip. For tamper-resistant Torx screws, use the screwdrivers with a security hole (T8-T40).

### 3.2 Using the Screwdriver

1. **Insert the Tip:** Place the screwdriver tip firmly into the Torx fastener head. Ensure a snug fit.
2. **Apply Pressure:** Apply steady, downward pressure to the handle to keep the tip engaged with the fastener.
3. **Turn:** Rotate the handle clockwise to tighten or counter-clockwise to loosen the fastener. The magnetic tip assists in holding the screw in place during insertion and removal.
4. **Ergonomic Handle:** The two-component handle with anti-slip grip zones is designed for comfort and to reduce hand fatigue during prolonged use.

**CHROME  
VANADIUM**

**STRONG  
MAGNETIC**

**SLIP  
RUBBER  
HANDLE**

Ergonomics handle with  
anti slip design, feel more  
comfortable to work.

## Chrome Vanadium Steel Rod

The rod of the screwdriver is  
made of chrome vanadium steel,  
strong and durable.

## 4. MAINTENANCE

Proper maintenance ensures the longevity and performance of your screwdriver set.

- **Cleaning:** After each use, wipe the screwdrivers clean with a dry cloth to remove dirt, grease, or debris.
- **Storage:** Store the screwdrivers in a dry place to prevent rust. Utilize the hanging hole on the handle for organized storage.
- **Inspection:** Periodically inspect the tips for wear or damage. Replace any severely worn or damaged screwdrivers to maintain optimal performance and prevent damage to fasteners.
- **Magnetism:** The magnetic tips are designed to be durable. If magnetism weakens over time, it can often be restored using a magnetizer/demagnetizer tool.

## 5. TROUBLESHOOTING

If you encounter issues while using your screwdriver set, consider the following:

- **Screwdriver slips from fastener:**

- Ensure you are using the correct Torx size.
  - Apply sufficient downward pressure while turning.
  - Check if the fastener head is stripped or damaged.
- **Difficulty loosening a tight fastener:**
    - Ensure the tip is fully seated in the fastener.
    - Apply steady, firm pressure and a slow, controlled turn.
    - Avoid excessive force that could damage the tool or fastener.
- **Screwdriver tip appears worn:**
    - Tips can wear over time with heavy use. Replace the screwdriver if the tip is significantly worn to prevent damage to fasteners.

## 6. SPECIFICATIONS

Feature	Detail
Brand	CCLIFE
Model Number	5016
Product Dimensions	28 x 25 x 4 cm
Weight	580 g
Material	Metal (Chrome Vanadium Steel)
Head Style	Torx
Number of Items	11
Sizes Included	T6, T7, T8, T9, T10, T15, T20, T25, T27, T30, T40
