Jocca 6285U

JOCCA 6285U UV Lamp Instruction Manual

1. PRODUCT OVERVIEW

The JOCCA 6285U UV Lamp is a specialized device designed for curing nail polish and gel, suitable for both manicures and pedicures. It features four UV bulbs to ensure quick and even drying, providing professional results at home.

This image shows the JOCCA 6285U UV Lamp, a white, compact device designed for curing nail polish and gel. It features an opening for hands or feet and houses four UV bulbs.

2. IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all safety instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **Read all instructions:** Familiarize yourself with the operation and safety features before first use.
- **Electrical Safety:** Do not operate the lamp with a damaged cord or plug. Keep the power cord away from heated surfaces. Do not immerse the lamp in water or other liquids.
- **UV Light Exposure:** Avoid direct eye exposure to the UV light. Prolonged exposure to UV light can be harmful to skin and eyes. Use in a well-ventilated area.
- **Children and Pets:** Keep the appliance out of reach of children and pets. This is not a toy.
- **Storage:** Unplug the lamp when not in use and store it in a dry, safe place.
- **Maintenance:** Do not attempt to service or repair the unit yourself. Refer all servicing to qualified personnel.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x JOCCA 6285U UV Lamp Unit
- 4 x UV Bulbs
- 1 x Instruction Manual (this document)

4. SETUP

Follow these steps to set up your UV lamp:

1. **Unpack:** Carefully remove the UV lamp and all components from the packaging.
2. **Insert Bulbs:** Locate the bulb sockets inside the lamp. Gently insert each of the 4 UV bulbs into its designated socket. Ensure they are securely seated and properly aligned.
3. **Placement:** Place the lamp on a stable, flat, and dry surface, away from water sources.
4. **Connect Power:** Plug the power cable into the lamp's power input, then connect the other end to a suitable electrical outlet.

5. OPERATING INSTRUCTIONS

To use your JOCCA UV Lamp for nail curing:

1. **Preparation:** Ensure your nails are prepared and the nail polish or gel has been applied according to the product's instructions.
2. **Positioning:** Carefully place your hand or foot inside the lamp, ensuring that all nails are positioned directly under the UV bulbs for even exposure.
3. **Power On:** Locate the power switch (usually on the top or side of the unit) and turn the lamp ON.
4. **Curing Time:** Allow the nails to cure for the recommended duration specified by your nail polish or gel manufacturer. Curing times can vary significantly between products.
5. **Power Off:** Once the curing process is complete, turn the lamp OFF using the power switch and carefully remove your hand or foot.
6. **Repeat:** Repeat the process for additional coats or the other hand/foot as needed.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your UV lamp.

Cleaning

- Always disconnect the lamp from the power source before cleaning.
- Wipe the exterior of the lamp with a soft, dry, or slightly damp cloth.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the surface.
- Never immerse the unit in water or any other liquid.

Bulb Replacement

If a UV bulb stops working or its effectiveness diminishes:

1. **Disconnect Power:** Ensure the lamp is unplugged from the electrical outlet.
2. **Remove Old Bulb:** Carefully remove the non-functional UV bulb by gently pulling or twisting it out of its socket (depending on the bulb type).

3. **Insert New Bulb:** Insert a new, compatible UV bulb into the empty socket. Ensure it is securely fitted.
4. **Compatibility:** Only use replacement bulbs specified by JOCCA for the 6285U model to ensure proper function and safety.

7. TROUBLESHOOTING

If you encounter issues with your JOCCA UV Lamp, refer to the following common problems and solutions:

- **Lamp does not turn on:**
 - Check if the power cable is securely plugged into both the lamp and a functional electrical outlet.
 - Ensure the power switch is in the 'ON' position.
 - Verify that all UV bulbs are correctly installed and not loose.
- **Nail polish/gel is not curing:**
 - Confirm that you are using a nail polish or gel product that specifically requires UV light for curing.
 - Check if all UV bulbs are working. Replace any non-functional bulbs.
 - Ensure the curing time is sufficient as per the nail product's instructions. Some products require longer exposure.
- **Uneven curing:**
 - Ensure your hand or foot is positioned correctly inside the lamp, allowing all nails to receive even exposure to the UV light.
 - Check for any obstructions blocking the UV light from reaching certain nails.

8. SPECIFICATIONS

Feature	Specification
Model Number	6285U
Brand	JOCCA
Material	Acrylonitrile Butadiene Styrene (ABS)
Power Source	Electric Cable
Components Included	4 UV Bulbs
Dimensions (L x W x H)	23 x 29 x 47.5 cm
