Imperii Electronics TE.03.0104.01

Imperii Electronics TE.03.0104.01 Fitness Tracker User Manual

Model: TE.03.0104.01

1. Introduction

This manual provides essential instructions for the proper use and maintenance of your Imperii Electronics TE.03.0104.01 Fitness Tracker. Please read this manual thoroughly before operating the device to ensure optimal performance and longevity.

1.1. Package Contents

Upon opening the package, verify that all the following items are present:

- Imperii Electronics TE.03.0104.01 Fitness Tracker
- Adjustable Wrist Strap
- Keychain/Pendant Accessory
- USB Charging Cable

2. Setup

2.1. Charging the Device

Before initial use, fully charge your fitness tracker. The device features a built-in USB charging port.

1. Carefully remove the tracker module from its strap or keychain accessory.
2. Locate the USB charging port on the tracker module.

3. Connect the provided USB charging cable to the tracker's port.
4. Plug the other end of the USB cable into a standard USB power source (e.g., computer USB port, USB wall adapter).
5. The display will indicate charging status. A full charge typically takes approximately 1-2 hours.

2.2. Pairing with a Smartphone

To utilize all features, pair your fitness tracker with a compatible smartphone via Bluetooth.

1. Ensure your smartphone's Bluetooth is enabled.
2. Download and install the dedicated companion application for your Imperii Electronics Fitness Tracker from your smartphone's app store. (Refer to the packaging or product information for the specific app name).
3. Open the companion app and follow the on-screen instructions to search for and connect to your TE.03.0104.01 device.
4. Confirm the pairing request on both your smartphone and the fitness tracker if prompted.

3. Operating Instructions

The Imperii Electronics TE.03.0104.01 Fitness Tracker features a touch-sensitive display for navigation.

3.1. Basic Navigation

Lightly touch the screen to cycle through different functions and displays.

3.2. Key Functions

- **Time and Date:** Displays the current time and date, synchronized with your paired smartphone.
- **Pedometer:** Tracks your daily step count.
- **Distance:** Estimates the distance covered based on your step count.
- **Calories:** Calculates estimated calories burned.

- **Alarm:** Set alarms via the companion app to vibrate on your wrist.
- **Sleep Monitoring:** Automatically monitors your sleep patterns when worn during sleep. Data is viewable in the companion app.
- **Sedentary Alert:** Reminds you to move after periods of inactivity (configurable in the app).
- **Call and Message Alerts:** (*Note: This function may not be available for iOS devices*) Receive notifications for incoming calls and messages directly on your tracker's display when paired with an Android smartphone.

4. Maintenance

4.1. Cleaning

To maintain hygiene and appearance, clean your fitness tracker regularly.

- Wipe the device and strap with a soft, damp cloth.
- Do not use harsh chemicals, abrasive cleaners, or solvents.
- Ensure the charging port is dry before connecting the charging cable.

4.2. Battery Care

- Avoid fully discharging the battery frequently.
- Charge the device when the battery indicator is low.
- If storing the device for an extended period, charge it to approximately 50% and store in a cool, dry place.

5. Troubleshooting

5.1. Device Not Powering On

- Ensure the device is fully charged. Connect it to the charging cable and a power source for at least 30 minutes.
- If the issue persists, contact customer support.

5.2. Unable to Pair with Smartphone

- Confirm Bluetooth is enabled on your smartphone.
- Ensure the fitness tracker is sufficiently charged.
- Restart both your smartphone and the fitness tracker.
- Try unpairing and re-pairing the device through the companion app.
- Ensure the companion app is up to date.

5.3. Inaccurate Data (Steps, Calories)

- Ensure the tracker is worn correctly on your wrist.
- Verify your personal information (height, weight, stride length) is accurately entered in the companion app.
- Movement of your arm not associated with walking (e.g., typing, driving) may sometimes be registered as steps.

6. Specifications
