Spartan SparClean Pot & Pan Detergent 7656-1 User Manual

Model: 7656-1 | Brand: **SPARTAN**

1. PRODUCT OVERVIEW

The Spartan SparClean Pot & Pan Detergent (Model 7656-1) is a highly effective, concentrated cleaning solution specifically formulated for the manual washing of excessively soiled kitchen items. Its advanced formula is designed to quickly and efficiently penetrate and emulsify baked-on grease and food residues, ensuring thorough cleaning.

This detergent is versatile and can be utilized in both single-sink and traditional three-sink systems, making it suitable for various commercial kitchen setups. For ease of identification and proper application, the product is color and number coded.

Key Features:

- **Powerful Cleaning:** Specifically designed to tackle baked-on grease and food.
- **Versatile Application:** Compatible with both single-sink and three-sink washing systems.
- **Concentrated Formula:** Ensures superior foam retention even at lean dilutions, providing economical use.
- **Easy Identification:** Color and number coded for simplified product management.
- **pH Level:** Maintains a pH range of 7.5 - 8.0.

2. SAFETY INFORMATION

Before using Spartan SparClean Pot & Pan Detergent, it is imperative to read and understand all safety information provided on the product label and the Safety Data Sheet (SDS). This product is a concentrated cleaning chemical and should be handled with care.

General Precautions:

- **Personal Protective Equipment (PPE):** Always wear appropriate PPE, such as chemical-

resistant gloves and eye protection, when handling the concentrated product or diluted solutions.

- **Ventilation:** Use in a well-ventilated area to avoid inhalation of vapors.
- **Storage:** Store the product in its original container, tightly closed, in a cool, dry, well-ventilated area, away from incompatible materials and direct sunlight. Keep out of reach of children and unauthorized personnel.
- **First Aid:** In case of contact with skin or eyes, rinse immediately with plenty of water. If swallowed, do not induce vomiting; seek immediate medical attention. Refer to the SDS for detailed first aid measures.
- **Disposal:** Dispose of contents and container in accordance with local, regional, national, and international regulations.

Note: Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition. This product is a cleaning agent, not a dietary supplement.

3. SETUP AND PREPARATION

Proper setup and preparation are crucial for effective cleaning and safety. Ensure your washing area is clear and ready for use.

Dilution Guidelines:

As a concentrated formula, SparClean Pot & Pan Detergent requires dilution before use. The exact dilution ratio may vary based on the level of soil and water hardness. Always refer to the product label for specific dilution instructions. A common starting point for manual washing is typically 1-2 ounces per gallon of water, but adjust as needed for optimal performance.

System Compatibility:

- **Single Sink System:** Add the diluted solution directly to the wash sink.
 - **Three-Sink System:** Use the diluted solution in the first sink (wash sink) of a three-compartment sink system. The subsequent sinks are typically for rinsing and sanitizing.
-

4. OPERATING INSTRUCTIONS

Follow these steps for effective manual washing of pots, pans, and other kitchen items using Spartan SparClean Pot & Pan Detergent.

1. **Pre-Scrape:** Remove large food particles and debris from pots and pans before washing.
2. **Prepare Solution:** Fill the wash sink with warm water and add the appropriate amount of SparClean Pot & Pan Detergent according to the dilution guidelines (refer to Section 3). Agitate the water to create a rich foam.
3. **Wash Items:** Submerge soiled items into the detergent solution. Use a brush, sponge, or scouring pad to scrub away baked-on grease and food residues. The detergent's formula is designed to penetrate and emulsify tough soils.
4. **Rinse:** After washing, thoroughly rinse all items under clean, running water (or in the rinse sink

of a three-sink system) to remove all detergent residue.

5. **Sanitize (if applicable):** For commercial settings, follow with a sanitizing step as per local health codes.
6. **Air Dry:** Allow items to air dry completely before stacking or storing to prevent bacterial growth.

The concentrated formula ensures superior foam retention, allowing for extended cleaning power even with heavily soiled items.

5. STORAGE AND HANDLING (MAINTENANCE)

Proper storage and handling of Spartan SparClean Pot & Pan Detergent are essential to maintain product efficacy and ensure safety.

- **Storage Conditions:** Store in a cool, dry, well-ventilated area. Avoid extreme temperatures and direct sunlight.
- **Container Integrity:** Keep the container tightly closed when not in use to prevent contamination and evaporation.
- **Segregation:** Store away from food products, feed, and incompatible materials as specified in the Safety Data Sheet (SDS).
- **Spill Management:** In case of a spill, contain the liquid and absorb with an inert material. Dispose of contaminated material according to local regulations.
- **Shelf Life:** For best results, use the product within its recommended shelf life. Refer to the product packaging for specific dates.

6. TROUBLESHOOTING

If you encounter issues while using Spartan SparClean Pot & Pan Detergent, consider the following:

- **Poor Cleaning Performance:**
 - Ensure correct dilution ratio. Insufficient detergent can lead to poor cleaning.
 - Check water temperature. Warm water generally improves cleaning efficacy.
 - Verify proper pre-scraping of heavy food soils.
- **Lack of Foam:**
 - Confirm correct dilution. Over-dilution can reduce foam.
 - Ensure water is not excessively hard, which can sometimes affect foaming.
 - Check if the product has been stored correctly and is within its shelf life.
- **Skin Irritation:**
 - Always wear appropriate personal protective equipment (PPE), especially gloves, when handling cleaning chemicals.
 - Rinse affected area thoroughly with water. If irritation persists, seek medical attention.

For persistent issues or concerns not addressed here, please contact Spartan Chemical customer support.

7. SPECIFICATIONS

Attribute	Detail
Product Name	SparClean Pot & Pan Detergent
Model Number	7656-1
Brand	SPARTAN
Item Form	Liquid, Foam
Scent	Unscented
pH Range	7.5 - 8.0
Specific Uses	Sink (Manual Pot & Pan Washing)
Material Feature	Concentrated
Manufacturer	Spartan Chemical
Package Dimensions (approx.)	12 x 12 x 12 inches (for 4-pack)
Package Weight (approx.)	36.47 Pounds (for 4-pack)

8. WARRANTY AND SUPPORT

For detailed information regarding the product warranty, please refer to the official documentation provided by Spartan Chemical or visit their official website. Warranty terms and conditions may vary.

If you require technical assistance, have questions about product application, or need to report an issue, please contact Spartan Chemical customer support directly. Contact information can typically be found on the product label or the manufacturer's website.
