## 4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembling your 3D Crystal Puzzle requires patience and attention to detail. The pieces interlock to form a three-dimensional structure. While specific piece-by-piece instructions are not typically provided to encourage problem-solving, the following general steps will guide you.

### 4.1 Unpacking and Sorting

1. Carefully remove all puzzle pieces from the packaging.
2. Sort the pieces by shape and size. Some pieces may appear similar, so observe their unique interlocking patterns.
3. Identify the base pieces and any distinct structural components, such as the windmill tower sections and blade components.

#### 4.2 Base and Structure Assembly

4. Begin by assembling the base of the windmill, which often includes the green grassy hill and the small building structure.
5. Proceed to build the main tower of the windmill. Look for pieces that form vertical layers, interlocking them securely.
6. Refer to the product image or box art for visual guidance on the overall shape and structure.

#### 4.3 Windmill Blades and Final Touches

7. Assemble the individual windmill blades. These typically consist of several pieces that form each blade.
8. Attach the assembled blades to the central hub mechanism. Ensure they can rotate freely if designed to do so.
9. Carefully connect the blade assembly to the top of the windmill tower.
10. Insert any small accessory pieces, such as the miniature cow, into their designated spots on the

base.

**Tip:** If you encounter difficulty, BePuzzled often provides online step-by-step solutions on their official website. Searching for "BePuzzled Windmill 3D Crystal Puzzle solutions" may provide additional visual aids.

## 5. OPERATING INSTRUCTIONS

Once assembled, the BePuzzled Windmill Deluxe 3D Crystal Puzzle is primarily a display item. The windmill blades are designed to spin, adding an interactive element to the finished model. Gently rotate the blades by hand to observe their movement.

## 6. MAINTENANCE

- **Cleaning:** To clean your assembled puzzle, gently wipe it with a soft, dry cloth. Avoid using abrasive cleaners or excessive moisture, which could damage the plastic or leave streaks.
- **Storage:** Store the puzzle in a stable location away from direct sunlight to prevent potential discoloration over time.
- **Handling:** Handle the assembled puzzle with care to avoid dislodging pieces.

## 7. TROUBLESHOOTING

- **Difficulty Assembling:** If you find assembly challenging, try sorting pieces more thoroughly. Sometimes, pieces that look similar have subtle differences. Refer to the product image for clues on piece placement.
- **Loose Pieces:** Ensure each piece is firmly interlocked. Some 3D crystal puzzles may benefit from a small amount of clear plastic glue (not included) for permanent display, though this is generally not required for stability.
- **Missing Pieces:** Double-check the packaging and your work area. If a piece is genuinely missing, contact BePuzzled customer support.
- **Online Solutions:** As mentioned, BePuzzled often provides online solutions. Visit the official BePuzzled website and search for your specific model (30969) for detailed assembly guides.
