Artisan Power RB-490926-LW

Artisan Power Replacement Battery User Manual

Model: RB-490926-LW

INTRODUCTION

This manual provides essential information for the safe and effective use of your Artisan Power Replacement Battery for Ascom Myco Phone (Model: RB-490926-LW). Please read this manual thoroughly before use and retain it for future reference.

This high-quality Lithium Ion rechargeable battery pack is designed to fully replace Ascom Myco Phone battery number 490926A, offering a capacity of 1810 mAh for extended performance.

PRODUCT OVERVIEW

Front view of the Artisan Power Replacement Battery (1810 mAh) in a clear protective case, showing its label with specifications and warnings. This image highlights the battery's design and key information.

Back view of the Artisan Power Replacement Battery, showing a smooth white surface with subtle indentations, indicating the reverse side of the battery pack.

The Artisan Power Replacement Battery shown partially inserted into an Ascom Myco Phone, demonstrating how it fits into the device. The phone's screen displays a user interface, indicating compatibility and proper fit.

Key Features:

- Direct replacement for Ascom Myco Phone battery number 490926A.
- Lithium Ion Rechargeable Battery Pack.
- Voltage: 3.7 Volt.
- Capacity: 1810 mAh.
- Cells Made in Japan for superior quality.
- Designed for longer lasting performance, with 19% higher capacity than OEM batteries.

SETUP AND INSTALLATION

Follow these steps to properly install your new Artisan Power battery into your Ascom Myco Phone.

1. **Power Off Device:** Ensure your Ascom Myco Phone is completely powered off before attempting battery replacement.
2. **Remove Old Battery:** Locate the battery compartment on your phone. Open the compartment cover and carefully remove the existing battery.
3. **Insert New Battery:** Align the Artisan Power replacement battery with the contacts in the battery compartment. Gently push the battery into place until it is securely seated.

4. **Close Compartment:** Replace the battery compartment cover, ensuring it clicks firmly into place.
5. **Initial Charge:** It is recommended to fully charge the new battery before its first use. Connect your phone to its charger and allow it to charge until the battery indicator shows full capacity.

OPERATING INSTRUCTIONS

Once installed, the Artisan Power battery operates seamlessly with your Ascom Myco Phone. Here are general operating guidelines:

- **Charging:** Use only the original or certified compatible charger for your Ascom Myco Phone. The battery is designed for optimal charging within a temperature range of 40°F - 105°F (4°C - 40°C).
- **Battery Life:** The 1810 mAh capacity provides extended talk-time and run-time compared to standard OEM batteries. Actual battery life will vary based on device usage, network conditions, and settings.
- **Discharging:** Avoid completely draining the battery frequently, as this can reduce its overall lifespan.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and performance of your Artisan Power battery.

- **Storage:** If storing the battery for an extended period, store it in a cool, dry place at approximately 50% charge. Avoid extreme temperatures.
- **Cleaning:** Keep the battery contacts clean. Use a dry, soft cloth to wipe away any dust or debris. Do not use liquids or abrasive cleaners.
- **Temperature:** Avoid exposing the battery to extreme heat or cold. High temperatures can degrade battery performance and lifespan.
- **Handling:** Do not disassemble, puncture, or drop the battery. Avoid short-circuiting the terminals.

Image illustrating Artisan Power's commitment to quality, showing batteries with gold-plated contacts for excellent conductivity and various certifications (ISO 9001:2015, UN38.3, TAA Compliant, CE), emphasizing reliable power solutions.

TROUBLESHOOTING

If you encounter issues with your Artisan Power battery, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Battery not charging.	Incorrect charger, loose connection, or faulty charging port.	Ensure charger is compatible and properly connected. Try a different charger or charging port if available.
Short battery life.	High usage, background apps, or battery degradation over time.	Reduce screen brightness, close unnecessary apps, or consider replacing the battery if it's very old.

Problem	Possible Cause	Solution
Phone not turning on after battery installation.	Battery not properly seated or completely discharged.	Re-seat the battery, ensuring it's firmly connected. Connect the phone to a charger and allow it to charge for at least 30 minutes before attempting to power on.

If the problem persists after trying these solutions, please contact Artisan Power customer support.

SPECIFICATIONS

Attribute	Detail
Model Number	RB-490926-LW
Battery Type	Lithium Ion Rechargeable Battery Pack
Voltage	3.7 Volt
Capacity	1810 mAh
Replaces OEM Part	Ascom Myco Phone battery 490926A
Cells Origin	Made in Japan
Item Weight	1.41 ounces (approximately 40 grams)
Package Dimensions	4.49 x 2.83 x 1.34 inches
Charging Temperature	40°F - 105°F (4°C - 40°C)

WARRANTY AND SUPPORT

Artisan Power stands behind the quality of its products. For warranty information and customer support, please refer to the official Artisan Power website or contact their customer service directly.
