

## Waterdrop WD-FC-01

# Waterdrop WD-FC-01 Faucet Water Filter Instruction Manual

Model: WD-FC-01 | Brand: Waterdrop

## 1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- This filter is designed for use with standard faucets only. It is not compatible with pull-out, hand-held, spray-style faucets, or faucets with sensors.
- Ensure proper installation to prevent leaks.
- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- The operating temperature range is 41°F (5°C) to 122°F (50°C). Do not use with hot water exceeding this limit.
- A high Total Dissolved Solids (TDS) reading is not an indication of a poor filter. This system retains healthy minerals in water, which may result in a higher TDS reading. This is normal and expected. If you require a reduction in TDS, a Reverse Osmosis (RO) system is recommended.

## 2. PRODUCT OVERVIEW

The Waterdrop WD-FC-01 Faucet Water Filter is designed to provide cleaner, better-tasting water directly from your kitchen faucet. It is NSF certified against NSF/ANSI standard 42 for the reduction of chlorine, taste, and odor, and to NSF/ANSI 372 for lead-free material.

## 3. PACKAGE CONTENTS

Verify that all items are included in your package:

- Waterdrop WD-FC-01 Faucet Water Filter Unit
- Filter Cartridge (1 included)
- Various Faucet Adapters (for compatibility with different faucet types)
- Plumbing Tape

## 4. FAUCET COMPATIBILITY

The Waterdrop WD-FC-01 is designed to fit standard faucets. Please check your faucet type before installation.

## Before Purchasing: Check Faucet Compatibility

### Fits the following faucets

 For round faucet with male threads, <b>&gt;0.72" &amp; &lt;0.86"</b>	 For round faucet with female threads, <b>&gt;0.8" &amp; &lt;0.94"</b>		
 <b>2-Handle High Arch</b>	 <b>Single Handle</b>	 <b>Single Handle</b>	 <b>Round Neck</b>

### Not fit the following faucets

 <b>Pull Down Sprayer</b>	 <b>Pull Out Spring</b>	 <b>Spray Head</b>	 <b>Pull Down Sprayer</b>
--	--	--	--

\* If not listed, check with customer service for unique faucet compatibility.

Image: Visual guide for faucet compatibility, illustrating suitable and unsuitable faucet designs.

#### Compatible Faucets:

- Round faucets with male threads (0.72" < diameter < 0.86")
- Round faucets with female threads (0.8" < diameter < 0.94")
- Common types include 2-Handle High Arch, Single Handle, and Round Neck faucets.

#### Incompatible Faucets:

- Pull Down Sprayer faucets
- Pull Out Spring faucets
- Spray Head faucets
- Faucets with sensors

If you are unsure about your faucet's compatibility, please contact customer support with a photo of your faucet.

## 5. INSTALLATION GUIDE

Follow these steps to install your Waterdrop faucet filter:

1. **Remove Original Aerator:** Unscrew the aerator from your faucet. If necessary, use a wrench.

2. **Determine Faucet Thread Type:** Check if your faucet has male (threads on the outside) or female (threads on the inside) threads.
3. **Select Correct Adapter:** Refer to the included adapters and the compatibility chart to choose the appropriate adapter for your faucet. Use plumbing tape on the threads for a secure, leak-free seal if needed.
4. **Attach Adapter to Faucet:** Screw the selected adapter onto your faucet. Hand-tighten first, then use a wrench if necessary, but do not overtighten.
5. **Attach Filter Unit:** Screw the Waterdrop filter unit onto the installed adapter. Ensure it is securely attached.
6. **Flush Filter:** Turn on the cold water and let it run through the filter for 5 minutes to flush out any carbon fines and activate the filter.

Image: Illustration of female and male threaded faucets with various adapters (A3, A4, A5, A6, B3, B4) for proper installation.

## 6. OPERATION

The Waterdrop WD-FC-01 features a simple switch to select between filtered and unfiltered water.

- **Filtered Water:** Move the lever to the position indicated for filtered water. Water will flow through the filter cartridge.
- **Unfiltered Water:** Move the lever to the position indicated for unfiltered water. Water will bypass the filter, suitable for washing dishes or hands.

The filter provides a fast and stable water flow of approximately 0.5 gallons per minute, allowing you to fill four 16.9 oz water bottles in about 1 minute.

# Lasting Quality, More Enjoyment

320 gallons

3 months

\*The actual lifespan may vary based on your local water conditions.

Image: The faucet filter demonstrating fast and stable water flow, indicating efficient water dispensing.

## 7. MAINTENANCE

### Filter Replacement:

Each filter cartridge has a life of approximately 320 gallons or 3 months of typical use, whichever comes first. Regular replacement ensures optimal filtration performance.

Image: Visual representation of the filter's lifespan, indicating 320 gallons or 3 months of use.

Replacement filters can be purchased by searching for model "WD-FF-01A".

### Cleaning:

Periodically wipe the exterior of the filter unit with a clean, damp cloth. Do not use abrasive cleaners.

## 8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Low water flow from filter	Clogged filter cartridge; Low water pressure in household.	Replace the filter cartridge. Check household water pressure.
Water tastes unusual	New filter not flushed sufficiently; Filter cartridge needs replacement.	Flush the filter for 5 minutes. Replace the filter cartridge.
Leaks at connection points	Loose connection; Incorrect adapter; Missing or improperly applied plumbing tape.	Ensure all connections are tight. Verify correct adapter is used. Reapply plumbing tape if necessary.
Filter does not fit faucet	Incompatible faucet type.	Refer to the Faucet Compatibility section. Contact customer support if unsure.

## 9. SPECIFICATIONS

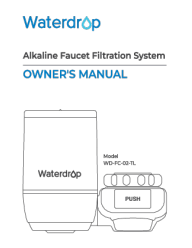

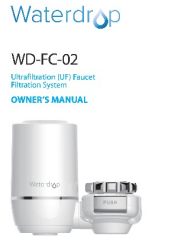

Feature	Specification
Brand	Waterdrop
Model Name	WD-FC-01 Faucet Filtration System
Product Dimensions	8.06"L x 7.1"W x 2.9"H
Item Weight	14.8 ounces
Installation Type	Countertop (Faucet Mount)
Maximum Flow Rate	0.5 Gallons Per Minute
Lower Temperature Rating	41 Degrees Fahrenheit (5°C)
Upper Temperature Rating	122 Degrees Fahrenheit (50°C)
Supported Water TDS Level Maximum	500 PPM
Filter Life	320 Gallons or 3 Months
Certifications	NSF/ANSI 42 (Chlorine, Taste, Odor Reduction), NSF/ANSI 372 (Lead-Free Material)
UPC	840814134399
