SETUP AND FIRST USE

The adidas ZX Flux Split K shoes are designed for easy wear. Follow these steps for initial setup:

- 1. Unboxing:** Carefully remove the shoes from their packaging.
- 2. Inspection:** Before first use, inspect both shoes for any visible defects or damage.
- 3. Lacing:** Ensure the laces are properly threaded through all eyelets. Adjust the laces to achieve a snug, comfortable fit without being too tight.
- 4. Fitting:** Slide your foot into the shoe. The heel should sit comfortably in the heel cup, and there should be a small space (about a thumb's width) between your longest toe and the front of the shoe.

TROUBLESHOOTING COMMON ISSUES

Issue	Possible Cause	Solution
Uncomfortable Fit	Laces too tight or too loose; incorrect size.	Adjust laces for a snug but comfortable fit. Ensure the correct size was purchased by referring to the adidas size guide.
Squeaking Noise	Moisture trapped between the insole and outsole; new shoe material friction.	Remove insoles and allow both insoles and shoes to air dry completely. If new, the noise may subside with wear.
Odor Development	Accumulation of sweat and bacteria.	Ensure shoes are thoroughly air-dried after each use. Use shoe deodorizers or baking soda. Consider wearing moisture-wicking socks.
