Jam Audio HX-P280

Jam Audio HMDX HX-P280 Bluetooth Speaker User Manual

Model: HX-P280 | Brand: Jam Audio

INTRODUCTION

The Jam Audio HMDX HX-P280 is a portable Bluetooth speaker designed for wireless audio streaming. It features two active drivers and two passive radiators for enhanced bass, providing a rich audio experience. This speaker also includes a speakerphone function for hands-free calls and offers multi-language voice prompts for ease of use. Its compact design makes it highly portable, fitting conveniently into a pocket.

What's in the Box

- Jam Audio HMDX HX-P280 Bluetooth Speaker
- USB Charging Cable
- User Manual (this document)

SETUP

Charging the Speaker

1. Locate the charging port on your HX-P280 speaker.
2. Connect the small end of the provided USB charging cable to the speaker's charging port.
3. Connect the large end of the USB charging cable to a USB power adapter (not included) or a computer's USB port.
4. The charging indicator light will illuminate, typically red, to show that the speaker is charging.
5. Once fully charged, the indicator light will change color or turn off. A full charge provides up to 6 hours of playtime.

Bluetooth Pairing

1. Ensure the speaker is fully charged.
2. Press and hold the Power button on the speaker until you hear an audible prompt indicating it is in pairing mode. The Bluetooth indicator light will typically flash rapidly.
3. On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings menu.
4. Enable Bluetooth if it is not already on.
5. Scan for available devices. You should see "HMDX HX-P280" or a similar name appear in the list.
6. Select "HMDX HX-P280" to initiate the pairing process.
7. Once paired, you will hear an audible confirmation from the speaker, and the Bluetooth indicator light will typically turn solid blue or flash slowly.
8. The speaker can maintain a Bluetooth connection up to 30 feet (9 meters) from your device.

OPERATING INSTRUCTIONS

Power On/Off

- To turn on: Press and hold the Power button until the speaker powers on.
- To turn off: Press and hold the Power button again until the speaker powers off.

Audio Playback

Once paired, audio from your connected device will stream wirelessly to the HX-P280 speaker. Use the controls on your connected device to manage playback (play, pause, skip tracks) and adjust volume. The speaker itself may have basic touch controls for volume adjustment.

Speakerphone Function

When a call comes in while your phone is connected to the speaker:

- **To Answer a Call:** Press the Play/Pause button (or a dedicated call button if present) once.
- **To End a Call:** Press the Play/Pause button (or dedicated call button) once during a call.
- **To Reject a Call:** Press and hold the Play/Pause button (or dedicated call button) for a few seconds.

The speaker's built-in microphone allows for hands-free conversation.

MAINTENANCE

Cleaning

- Use a soft, dry, lint-free cloth to clean the surface of the speaker.
- Do not use abrasive cleaners, waxes, or solvents.
- Avoid getting moisture into any openings.

Battery Care

- The HX-P280 uses a rechargeable Li-Ion battery.
- To prolong battery life, avoid fully discharging the battery frequently.
- Charge the speaker regularly, even if not in use for extended periods, to maintain battery health.
- Store the speaker in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Solution
Speaker won't turn on.	Ensure the speaker is fully charged. Connect it to a power source using the USB cable and allow it to charge for at least 30 minutes before attempting to power on again.
Cannot pair with device.	• Make sure the speaker is in pairing mode (flashing Bluetooth indicator). • Ensure Bluetooth is enabled on your device. • Move the speaker closer to your device (within 30 feet). • Turn off and on both the speaker and your device's Bluetooth. • If previously paired, try "forgetting" or "unpairing" the speaker from your device's Bluetooth list and then re-pairing.
No sound or poor sound quality.	• Check the volume levels on both the speaker and your connected device. • Ensure the speaker is properly paired and connected to your device. • Move the speaker closer to your device to avoid interference. • Try playing audio from a different application or device to rule out source issues. • Ensure no other Bluetooth devices are interfering with the connection.
Speakerphone not working.	• Ensure the speaker is connected to your phone via Bluetooth. • Check your phone's audio output settings during a call to ensure it's routed to the Bluetooth speaker. • Ensure the speaker's microphone is not obstructed.
