1. INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Samsonite Tread Lite Hardside Luggage 2-Piece Set. Designed for durability and ease of travel, this luggage set features a textured finish to minimize scratching and a lightweight ABS/PC construction.

Image 1.1: Front view of the Samsonite Tread Lite Hardside Luggage 2-Piece Set in black, showing both the carry-on and larger checked suitcase.

2. SETUP

2.1 Initial Inspection

Upon receiving your luggage set, inspect both pieces for any signs of damage during transit. Ensure all zippers, handles, and wheels are functioning correctly.

2.2 Setting the TSA Combination Lock (Larger Piece Only)

The larger suitcase is equipped with a side-mounted TSA combination lock. Follow these steps to set your personal combination:

1. The lock is preset to 0-0-0.
2. Locate the small reset button (usually recessed) next to the dials. Use a pen or a pointed object to press and hold this button.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set.
5. Test the lock by scrambling the dials and then entering your new combination to open it.

Note: Only TSA agents have a special key to open this lock without knowing the combination, ensuring your belongings remain secure during inspections.

3. OPERATING INSTRUCTIONS

3.1 Packing Your Luggage

- **Main Compartment:** Utilize the fully lined interior with elastic cross straps to secure your clothing and prevent shifting during travel.
- **Zippered Mesh Pocket:** Store smaller items, toiletries, or accessories in the zippered mesh pocket for easy organization and visibility.
- **Expansion Feature:** For additional packing capacity, unzip the expansion zipper located around the perimeter of the suitcase. This provides extra space when needed.

Image 3.2: Detail of the zipper pull for the expansion feature, allowing for increased packing volume.

3.2 Using the Telescopic Handle and Spinner Wheels

Your Samsonite Tread Lite luggage is equipped with a telescopic extendable handle and four spinner wheels for effortless maneuverability.

- **Extend the Handle:** Press the button on the top of the handle and pull upwards to extend it to your desired height. Ensure it clicks securely into place.
- **Retract the Handle:** Press the button again and push the handle downwards until it fully retracts into the luggage body.
- **Maneuvering:** The 360-degree spinner wheels allow the luggage to roll smoothly alongside you in any direction, reducing strain.

Image 3.4: Detail of the multi-directional spinner wheels, designed for smooth and easy movement.

4. MAINTENANCE

4.1 Cleaning Instructions

- **Exterior:** Wipe the hardside exterior with a soft cloth dampened with mild soap and water. Avoid abrasive cleaners or solvents.
- **Interior:** The interior lining can be spot cleaned with a damp cloth and mild detergent. Allow to air dry completely before closing.
- **Wheels:** Periodically check the wheels for debris and clean as necessary to ensure smooth rolling.

4.2 Storage

Store your luggage in a cool, dry place away from direct sunlight when not in use. Ensure the luggage is clean and dry before storage to prevent mold or mildew.

5. TROUBLESHOOTING

- **Stuck Telescopic Handle:** If the handle is difficult to extend or retract, ensure no items inside the

luggage are obstructing the handle mechanism. Apply a small amount of silicone lubricant to the handle rails if needed.

- **Wheels Not Rolling Smoothly:** Check for hair, lint, or other debris caught in the wheel axles. Carefully remove any obstructions. If the wheels are damaged, contact Samsonite customer support.
- **Combination Lock Issues:** If you forget your combination, there is no master reset for the user. You will need to contact Samsonite customer service or a locksmith. Ensure you write down your combination in a secure place.
- **Zipper Malfunction:** If a zipper is stuck, try gently moving the slider back and forth. Ensure no fabric is caught in the zipper teeth.

6. SPECIFICATIONS

Feature	Description
