# Jada Toys Fast & Furious RC 1995 Toyota Supra Vehicle Instruction Manual

Model: 97582 | Brand: Jada

## INTRODUCTION

Welcome to the world of high-speed remote control action with your new Jada Toys Fast & Furious RC 1995 Toyota Supra Vehicle. This 1:16 scale replica is designed to provide an authentic and exciting driving experience, featuring styling cues directly from the iconic movie franchise. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your RC vehicle to ensure optimal performance and enjoyment.

## SAFETY INFORMATION

Read all instructions before operating the vehicle. Failure to follow these instructions may result in injury or damage.

- **Age Recommendation:** This product is suitable for children ages 6 and up. Adult supervision is recommended for younger users.
- **Battery Safety:** Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries. Remove batteries if the product is not used for a long period.
- **Operating Environment:** Operate the vehicle on flat, dry surfaces. Avoid water, sand, and excessive dust. Do not operate near people, pets, or obstacles that could cause damage or injury.
- **California Proposition 65 Warning:** This product may be subject to Prop 65 rules and regulations. For more information, please visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## SETUP

### 1. Controller Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Open the battery cover.
3. Insert the two (2) AA batteries (included) into the compartment, ensuring correct polarity (+/-).

4. Close the battery cover securely.

Image: A close-up of hands holding the remote control, illustrating the grip and button placement.

## 2. Vehicle Charging

The RC vehicle features a built-in USB charging system for convenience.

1. Locate the USB charging cable integrated into the vehicle or its battery compartment.
2. Connect the USB plug to a standard USB power source (e.g., computer USB port, USB wall adapter).
3. The charging indicator light (if present) will illuminate during charging and turn off or change color when fully charged.
4. Charging typically takes approximately 1-2 hours for a full charge.

## OPERATING INSTRUCTIONS

### 1. Pairing the Remote Control

Your RC vehicle and remote control operate on a 2.4 GHz frequency, allowing for multiple players (up to 16+) to operate vehicles within a 100-foot range without interference.

1. Ensure both the vehicle and the remote control are powered off.
2. Turn on the RC vehicle.
3. Turn on the remote control. The indicator light on the remote will flash.
4. Wait a few seconds for the remote and vehicle to automatically pair. The indicator light on the remote will become solid once pairing is successful.

### 2. Driving the Vehicle

Use the joysticks and buttons on the remote control to maneuver your RC vehicle:

- **Left Joystick (Forward/Backward):** Push forward to move the car forward, pull backward to move the car in reverse.
- **Right Joystick (Left/Right):** Push left to turn the car left, push right to turn the car right.
- **Turbo Boost Button (if applicable):** Press for a temporary burst of speed.

## MAINTENANCE

- Cleaning:** Use a soft, dry cloth to wipe down the vehicle and remote control. Do not use harsh chemicals or immerse in water.
- Storage:** Store the vehicle and remote in a cool, dry place away from direct sunlight when not in use. Remove batteries from the remote control if storing for extended periods.
- Battery Care:** Always fully charge the vehicle's battery before storage to prolong its lifespan.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not respond to remote.	Low battery in vehicle or remote; Not paired; Out of range.	Charge vehicle battery; Replace remote batteries; Re-pair vehicle and remote; Operate within 100 ft range.
Vehicle moves slowly or erratically.	Low vehicle battery; Obstruction in wheels.	Fully charge vehicle battery; Check and clear any debris from wheels.
Remote control indicator light not on.	Remote batteries are dead or incorrectly installed.	Replace AA batteries; Check polarity.

## SPECIFICATIONS
