## Fit System 80920

# Fit System 80920 Snap & Zap Towing Mirror Pair Instruction Manual

Model: 80920 | Brand: Fit System

## 1. INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your Fit System 80920 Snap & Zap Towing Mirror Pair. These custom-fit towing mirrors are designed to enhance visibility when towing, specifically for 2015 and up Chevrolet Suburban, Tahoe, and GMC Yukon models. They feature a clip-on design that requires no tools or additional hardware for installation, blending seamlessly with your vehicle's design.

## 2. PACKAGE CONTENTS

---

Please verify that all components are present before proceeding with installation:

- One (1) Driver Side Towing Mirror Extension
- One (1) Passenger Side Towing Mirror Extension
- One (1) Storage Bag

## 3. SETUP AND INSTALLATION

---

The Fit System 80920 towing mirrors are designed for a quick and easy clip-on installation. No tools are required.

### Installation Steps

1. **Prepare the Mirror:** Ensure your vehicle's original side mirrors are clean and free of debris.
2. **Align the Extension:** Take one towing mirror extension and align it with your vehicle's existing side mirror. The extension is designed to fit snugly over the original mirror housing.
3. **Secure the Clips:** Carefully position the top clips of the towing mirror extension over the top edge of

the original mirror housing.

4. **Engage Bottom Clips:** Gently push the extension downwards until the bottom clips securely engage with the lower edge of the original mirror. Ensure all clips are firmly attached to prevent any movement or vibration during operation.
5. **Repeat for Other Side:** Repeat the process for the other side mirror.

*Image 2: Front view of the towing mirror extension, showing the clip design for easy installation.*

The extension is engineered not to interfere with the original equipment (OE) mirror glass, allowing full functionality of your vehicle's existing mirror.

For a visual guide, you may refer to the official installation manual available as a [PDFFit System 80920 Installation Manual \(PDF\)](#).

## 4. OPERATING INSTRUCTIONS

---

### Mirror Adjustment

The mirror glass on the towing extensions is adjusted manually. Carefully move the mirror surface to achieve the desired viewing angle for optimal visibility while towing.

### Folding Mirrors

The towing mirror extensions are designed to allow the vehicle's original mirrors to be folded without needing to remove the extensions, providing convenience when parking or navigating tight spaces.

### Mirror Type

The towing mirror extensions feature a convex lens. This type of lens provides a wider field of view, which is beneficial for towing. Please note that objects viewed in convex mirrors are closer than they appear.

## 5. MAINTENANCE

---

### Cleaning

To clean the towing mirrors, use a soft cloth and a mild automotive glass cleaner. Avoid abrasive cleaners,

harsh chemicals, or materials that could scratch the mirror surface or the textured black housing.

## Storage

When the towing mirrors are not in use, it is recommended to remove them from your vehicle and store them in the provided storage bag. This will protect them from scratches, dust, and potential damage, prolonging their lifespan.

## 6. TROUBLESHOOTING

---

### Mirror Instability or Vibration

If the towing mirrors appear loose or vibrate excessively during driving, ensure all clips are securely fastened to the vehicle's original mirrors. Re-attach the extensions if necessary, ensuring a firm fit. Check for any obstructions that might prevent proper seating.

### Limited Visibility

Adjust the mirror glass manually to optimize your field of view. Remember that convex mirrors make objects appear farther away than they actually are. If visibility remains insufficient for your specific towing setup, consider consulting a professional for alternative solutions or ensuring your trailer is properly aligned.

### General Issues

For any other concerns or issues not covered in this manual, please contact Fit System customer support for assistance.

## 7. SPECIFICATIONS

---

Feature	Detail
Model Number	80920
Brand	Fit System
Auto Part Position	Right and Left (Pair)
Color	Black
Mounting Type	Clip-on Door Mount
