XIAOKOA N-80

XIAOKOA 2.4G Wireless Microphone Headset User Manual

Model: N-80 | Brand: XIAOKOA

INTRODUCTION

Thank you for choosing the XIAOKOA 2.4G Wireless Microphone Headset. This manual provides detailed instructions for setting up, operating, and maintaining your wireless microphone system to ensure optimal performance. This system is designed for use with PA equipment that has a MIC input jack, such as voice amplifiers, large power speakers, portable PA systems, mixers, and karaoke microphone speaker systems.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x Wireless Microphone Transmitter (Headset)
- 1 x Wireless Receiver
- 1 x Dual Micro USB Charging Cable
- 1 x 3.5mm to 6.35mm Adapter
- 1 x User Manual

SETUP INSTRUCTIONS

1. Charging the Devices

Before first use, fully charge both the wireless transmitter (headset) and the receiver. Use the provided dual Micro USB cable to charge both units simultaneously. A full charge typically takes about 2-3 hours and provides over 6 hours of working time.

Dual charging cable

working time: **5h**

charge time: **1.5h**

Image: The dual Micro USB cable connected to both the headset transmitter and the receiver for simultaneous charging.

2. Connecting to Audio Equipment

The receiver is compatible with PA equipment that has a MIC input jack. It supports both 3.5mm and 6.35mm input jacks. Use the included 3.5mm to 6.35mm adapter if your equipment requires a 6.35mm connection.

Important Note:

- This microphone system does **not** support mobile phones, Macbooks, or computers.
- It does **not** support Aux or digital audio systems.
- It does **not** have Bluetooth capability.

Notice:
Not compatible with Macbook/Laptop
And don't have bluetooth capability

3. Pairing the Receiver and Transmitter (Plug & Play)

The receiver and transmitter are designed for easy pairing:

1. Turn on the receiver and short press its signal button.
2. Power on the wireless microphone (transmitter) and long press its signal button.
3. The devices will connect automatically. A blue indicator light on both units confirms a successful connection.

OPERATING INSTRUCTIONS

Using the Microphone

Once paired, the microphone is ready for use. The headset design allows for hands-free operation, ideal for presentations, teaching, fitness instruction, and more. The microphone can also be used as a handheld device by detaching it from the headset frame.

MAINTENANCE

Cleaning

Wipe the microphone and receiver with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure the microphone foam cover is clean and free of debris for optimal sound quality.

Battery Care

To prolong battery life, avoid completely draining the battery frequently. Recharge the devices when the low battery indicator appears. Store the devices in a cool, dry place when not in use for extended periods.

Storage

When not in use, store the microphone system in a protective case or a clean, dry environment to prevent damage from dust, moisture, or physical impact.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No Sound / Low Volume	Microphone or receiver not powered on; low battery; incorrect connection; volume too low on PA system.	Ensure both units are powered on and charged. Check all cable connections. Increase volume on your PA system.
Intermittent Connection / Static	Out of range; interference; loose connection.	Move closer to the receiver. Avoid obstacles. Ensure the receiver is securely plugged into the audio input. Re-pair the devices if necessary.
Echo or Feedback	Microphone too close to speaker; volume too high.	Move the microphone further from the speaker. Reduce the microphone volume on your PA system.
Cannot connect to computer/phone	Incompatible device.	This microphone system is designed for PA equipment with MIC input jacks only and is not compatible with mobile phones, Macbooks, or computers.

SPECIFICATIONS

Feature	Specification
Model Number	N-80
Connectivity Technology	2.4G Wireless
Microphone Form Factor	Headset
Audio Sensitivity	106 dB
Signal-to-Noise Ratio	65 dB
Frequency Response	2400 MHz
Power Source	Battery Powered (1 Lithium Metal battery included)
Working Time	More than 6 hours (on a full charge)
Charging Time	Approx. 2-3 hours
Transmission Distance	Up to 165 feet (50 meters)
Material	Plastic
Item Weight	4.6 ounces
Package Dimensions	6.97 x 5.59 x 1.54 inches
