# RAK Magnetic Wristband Instruction Manual

**MODEL: MW10SM**

Your essential companion for holding small metal items securely during any project.

## Introduction

---

The RAK Magnetic Wristband is designed to provide a convenient "third hand" for holding screws, nails, drill bits, and other small metal fasteners. Crafted from durable 1680 ballistic nylon with a breathable mesh inner layer, it features 10 extra-strong magnets embedded throughout, ensuring your items stay securely in place. This versatile tool is ideal for home improvement, construction, carpentry, auto repair, and various DIY projects, enhancing efficiency and reducing the risk of losing small parts.

## Setup and Wearing Instructions

---

The RAK Magnetic Wristband features an adjustable strap designed for a one-size-fits-most comfortable fit.

1. Unfasten the hook-and-loop (Velcro) strap.
2. Wrap the wristband around your wrist, ensuring the breathable mesh side is against your skin for comfort.
3. Secure the strap firmly but comfortably using the hook-and-loop closure. Adjust as needed to prevent

slipping during use.

4. Position the magnetic sections on the wristband to best suit your working angle, allowing easy access to the attached metal items.

## Operating the Magnetic Wristband

---

The wristband is equipped with 10 strong magnets strategically placed to maximize holding power.

- **Attaching Items:** Simply place screws, nails, drill bits, bolts, washers, or other small ferrous metal items directly onto the magnetic surface of the wristband. The strong magnets will hold them securely.
- **Accessing Items:** When needed, easily pick off individual items from the wristband. The design allows for quick retrieval without fumbling.
- **Versatile Placement:** The wristband can be worn on either wrist. For specific tasks, it can also be attached to a belt or hung near your workbench for convenient access to tools and fasteners.

**NO MORE GOING TO THE TOOLBOX  
OR SEARCHING YOUR POCKETS**

## NEVER LOSE SMALL PARTS AND PIECES AGAIN

Keep nuts, bolts, and screws exactly where you need them, especially useful in tight spaces like engine compartments.

**RAK**

USE IT AS A  
LIGHTWEIGHT  
**COMPACT  
TOOL BELT**

Never lose small parts and pieces again, as the wristband keeps them organized and secure.

## Care and Maintenance

---

- **Cleaning:** Wipe the wristband with a damp cloth to remove dust or debris. For tougher grime, a mild soap solution can be used. Ensure it is completely dry before storage.
- **Storage:** Store the wristband in a dry place away from direct sunlight. Avoid prolonged exposure to extreme temperatures.
- **Magnetic Sensitivity:** Keep the wristband away from sensitive electronic devices, credit cards, pacemakers, and other items that could be affected by strong magnetic fields.
- **Material:** The wristband is made of 100% Nylon, known for its durability and tear-resistance.

## HOLD NUTS, BOLTS, AND SCREWS WHERE YOU NEED THEM

The wristband features an extra-tough outer layer made of 1680 ballistic nylon for durability.

### Troubleshooting

Issue	Possible Cause	Solution
Items not sticking securely	Items are non-ferrous (e.g., stainless steel, aluminum) or too heavy.	Ensure items are made of magnetic materials. For heavier items, distribute them across multiple magnetic sections or use fewer items.
Wristband feels hot or causes sweating	Prolonged use in hot environments.	The breathable mesh helps, but in extreme heat, remove the wristband periodically to allow your skin to breathe. Consider using it for shorter tasks in very hot conditions.

Issue	Possible Cause	Solution
Wristband slips during use	Strap is not tight enough or wristband is overloaded.	Adjust the hook-and-loop strap for a snug fit. Reduce the number or weight of items attached if slipping persists.

Product Specifications

Feature	Detail
Color	Black
Brand	RAK
Material	Nylon
Product Dimensions	3.5"L x 5"W x 0.5"H
Item Weight	0.22 Pounds
Number Of Pockets	1
Closure Type	Magnetic
Manufacturer	RAK
Model Number	MW10SM
Special Features	Adjustable
