Griffin iTrip Clip Bluetooth Headphone Adapter User Manual

Model: FBA_GC42924

INTRODUCTION

The Griffin iTrip Clip is a compact Bluetooth wireless audio receiver designed to transform any wired headphones into wireless ones. It allows you to connect your favorite 3.5mm headphones to Bluetooth-enabled devices, providing convenient audio streaming and call control without direct cable connection to your smartphone or tablet.

This manual provides detailed instructions for setting up, operating, and maintaining your iTrip Clip, along with troubleshooting tips and product specifications.

PACKAGE CONTENTS

- Griffin iTrip Clip Bluetooth Headphone Adapter
- Micro-USB Charging Cable
- User Manual (this document)

DEVICE OVERVIEW

Familiarize yourself with the iTrip Clip's components and controls.

Image 1: Front view of the Griffin iTrip Clip, showing the central Play/Pause button, Volume Up (+), Volume Down (-), Previous Track, and Next Track buttons. The Griffin logo is visible at the top.

Image 2: Side view of the Griffin iTrip Clip, highlighting the 3.5mm audio output jack for headphones and the micro-USB charging port.

Image 3: Back view of the Griffin iTrip Clip, showing the integrated clip for attaching the device to clothing or bags.

SETUP

1. Charging the iTrip Clip

Before first use, fully charge your iTrip Clip. A full charge typically provides approximately 6 hours of battery life.

1. Connect the supplied micro-USB charging cable to the micro-USB port on the iTrip Clip.
2. Connect the other end of the cable to a USB power source (e.g., computer USB port, USB wall adapter).
3. The LED indicator will illuminate during charging and change color or turn off when fully charged.

Image 4: The Griffin iTrip Clip connected to its micro-USB charging cable, ready for power input.

2. Pairing with a Bluetooth Device

The iTrip Clip needs to be paired with your smartphone or other Bluetooth audio source to receive audio wirelessly.

1. Ensure the iTrip Clip is turned off.
2. On your smartphone or Bluetooth device, enable Bluetooth and open the Bluetooth settings to search for new devices.
3. Press and hold the central **Play/Pause** button on the iTrip Clip for approximately 7 seconds until the LED indicator flashes rapidly (often blue and red), indicating it is in pairing mode.
4. On your device, select "iTrip Clip" from the list of available Bluetooth devices.
5. Once paired, the LED indicator will typically flash slowly or turn solid blue, and you may hear an audible confirmation.
6. If prompted for a passcode, enter "0000".

Note: The iTrip Clip will automatically attempt to reconnect to the last paired device when powered on.

3. Connecting Wired Headphones

Plug your wired headphones with a standard 3.5mm audio jack into the 3.5mm port on the iTrip Clip.

OPERATING INSTRUCTIONS

iTrip Clip Control Functions

Button/Action	Function
Play/Pause Button (Central)	Press and hold for 3 seconds: Power On/Off Press and hold for 7 seconds (from off): Enter Pairing Mode Single press: Play/Pause audio Single press (during call): Answer/End call Double press: Redial last number Press and hold for 2 seconds (during incoming call): Reject call Press and hold for 2 seconds (when idle): Activate Voice Assistant (Siri, Google Assistant, etc.)
Volume Up (+) Button	Single press: Increase volume
Volume Down (-) Button	Single press: Decrease volume
Next Track Button (Right arrow)	Single press: Skip to next track
Previous Track Button (Left arrow)	Single press: Go to beginning of current track; double press: Go to previous track

The iTrip Clip features an integrated microphone for hands-free calling. When making or receiving calls, the microphone on the iTrip Clip will be active, not the microphone on your connected headphones (if any).

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the iTrip Clip. Do not use liquid cleaners or aerosols.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the device frequently. Charge it regularly, even if not in use for extended periods.
- **Water Exposure:** The iTrip Clip is not waterproof. Avoid exposure to water or excessive moisture.

TROUBLESHOOTING

Device Not Powering On

- Ensure the device is fully charged. Connect it to a power source using the micro-USB cable and allow it to charge for at least 30 minutes before attempting to power on again.
- Verify you are pressing and holding the **Play/Pause** button for approximately 3 seconds to power on.

Cannot Pair with Bluetooth Device

- Ensure the iTrip Clip is in pairing mode (LED flashing rapidly, typically blue and red). If not, turn it off and then press and hold the **Play/Pause** button for 7 seconds.
- Make sure Bluetooth is enabled on your source device (smartphone, tablet, etc.) and it is discoverable.
- Move the iTrip Clip closer to your source device.
- Try turning off Bluetooth on your source device, then turning it back on.
- If the iTrip Clip was previously paired with another device, ensure that device's Bluetooth is turned off or the iTrip Clip is disconnected from it.
- On your source device, try "forgetting" or "unpairing" the iTrip Clip from your Bluetooth device list, then attempt the pairing process again.

No Sound or Poor Sound Quality

- Ensure your wired headphones are securely plugged into the 3.5mm audio jack of the iTrip Clip.
- Check the volume levels on both the iTrip Clip and your connected Bluetooth device. Increase both.
- Verify that the iTrip Clip is successfully paired and connected to your Bluetooth device.
- Test with a different pair of wired headphones to rule out headphone issues.
- Ensure there are no obstructions or excessive distance between the iTrip Clip and your Bluetooth source device.
- If sound quality is muffled or distorted, try disconnecting and reconnecting the Bluetooth connection.

Call Quality Issues / Microphone Not Working

- The iTrip Clip uses its own integrated microphone for calls. Ensure the device is clipped in a position where the microphone is not obstructed and is close to your mouth for optimal clarity.
- Check that your phone's audio output is routed to the iTrip Clip during a call.

SPECIFICATIONS

Feature	Detail
Model Number	FBA_GC42924

Feature	Detail
Connectivity Technology	Bluetooth
Power Source	Battery Powered
Material	Plastic
Product Dimensions	1.32 x 1.47 x 2.94 inches
