Brady 139662

Brady 139662 Plastic "Muster Point 1" Sign Instruction Manual

Model: 139662

PRODUCT OVERVIEW

The Brady 139662 Plastic "Muster Point 1" Sign is designed to clearly identify designated muster points for emergency assembly. Constructed from durable plastic, this sign features white text on a green background, ensuring high visibility and compliance with safety standards. It is suitable for various indoor and outdoor applications where a clear indication of an assembly point is required.

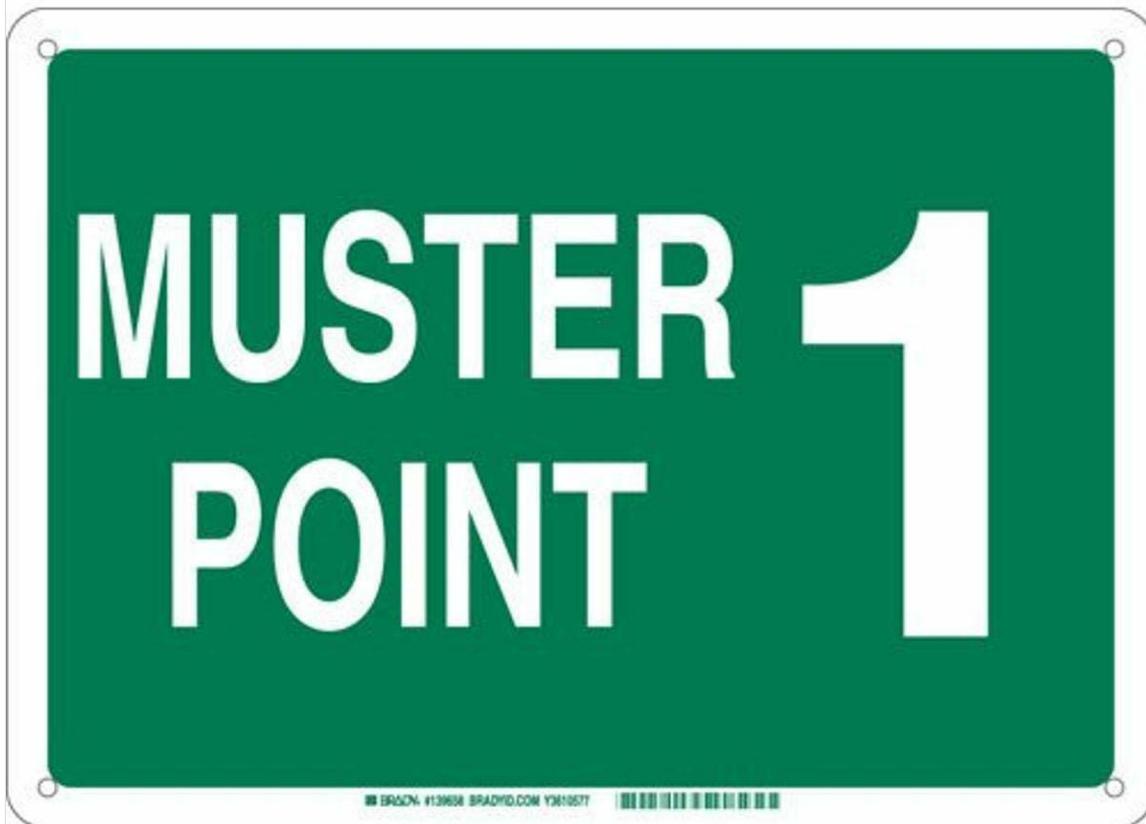

Image: The Brady 139662 Plastic "Muster Point 1" Sign, featuring "MUSTER POINT" and a large "1" in white text on a green rectangular background. The sign has pre-drilled holes in each corner for mounting.

INSTALLATION

The Brady 139662 sign is designed for surface mounting, typically on a wall or other flat vertical surface. Follow these general guidelines for proper installation:

- Location Selection:** Choose a prominent and easily visible location for the muster point sign, ensuring it is clearly identifiable from all approach directions to the designated assembly area.
- Surface Preparation:** Ensure the mounting surface is clean, dry, and free from dust or debris.
- Mounting Method:** The sign features pre-drilled holes in each corner. Use appropriate fasteners (screws, bolts, or anchors, not included) suitable for your specific wall material (e.g., drywall, concrete, wood).
- Secure Fastening:** Securely fasten the sign to the surface using all four mounting holes to prevent movement or detachment. Ensure the sign is level.
- Visibility Check:** After installation, step back and verify that the sign is clearly visible and legible from a distance, and that no obstructions block its view.

CARE AND CLEANING

To maintain the legibility and appearance of your Brady sign, follow these simple care and cleaning instructions:

- **Regular Cleaning:** Periodically wipe the sign surface with a soft, damp cloth to remove dust and light dirt.
- **Mild Detergent:** For more stubborn dirt, use a mild soap or detergent solution with water. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the plastic material and printed graphics.
- **Rinsing:** After cleaning with soap, rinse the sign thoroughly with clean water to remove any soap residue.
- **Drying:** Allow the sign to air dry or wipe it dry with a clean, soft cloth.
- **Inspection:** Regularly inspect the sign for any signs of damage, fading, or wear that might impair its visibility or effectiveness. Replace the sign if it becomes significantly damaged or illegible.

SPECIFICATIONS

Attribute	Detail
Model Number	139662
Brand	Brady
Material	Plastic
Color	White on Green
Dimensions	14" H x 20" W (14 x 20 x 0.39 inches)
