SOUND OFF STV-N14-12P MC313D-W

SOUND OFF STV-N14-12P MC313D-W TV/DVD Navigation Control Kit User Manual

Brand: SOUND OFF | **Model:** STV-N14-12P MC313D-W

1. Product Overview

The SOUND OFF STV-N14-12P MC313D-W is a specialized connector kit designed to enhance your in-car entertainment and navigation experience. This kit enables the viewing of TV and DVD content while the vehicle is in motion, and allows for the operation of the navigation system during driving. It utilizes genuine connectors for a straightforward, wiring-free installation process. A key feature is that the vehicle's position on the navigation map remains accurate, even with the kit installed, ensuring continuous navigation functionality.

Note: DVD playback functionality is dependent on the navigation unit having a built-in DVD playback feature.

2. Safety Information

- Always ensure the vehicle is parked safely before attempting any installation or adjustments.
- Disconnect the vehicle's battery before beginning installation to prevent electrical shorts or damage.
- Ensure all connections are secure and properly insulated to avoid electrical hazards.
- Do not obstruct the driver's view or interfere with vehicle controls during installation or operation.
- This product is not water resistant. Avoid exposure to moisture.

3. Package Contents

- STV-N14-12P MC313D-W Connector Kit (1 unit)

4. Setup and Installation

This connector kit is designed for a straightforward installation using genuine vehicle connectors, eliminating the need for complex wiring procedures. Follow these steps carefully:

1. **Prepare the Vehicle:** Ensure the vehicle is turned off and the battery is disconnected. Access the rear of your car's navigation unit.
2. **Identify Connectors:** Locate the existing connectors behind your navigation unit. The kit is designed to connect to a connector of the same shape as the one provided in the kit.
3. **Connect the Kit:** Disconnect the genuine vehicle-side connector from the navigation unit. Connect the STV-N14-12P MC313D-W kit in-line, ensuring a secure "one-touch connection" between the navigation unit and the vehicle's original wiring harness.

4. **Ground Wire Connection:** Secure the ground wire ( ) from the kit to a suitable screw or metal point on the side of the navigation unit or vehicle chassis. This ensures proper electrical grounding.

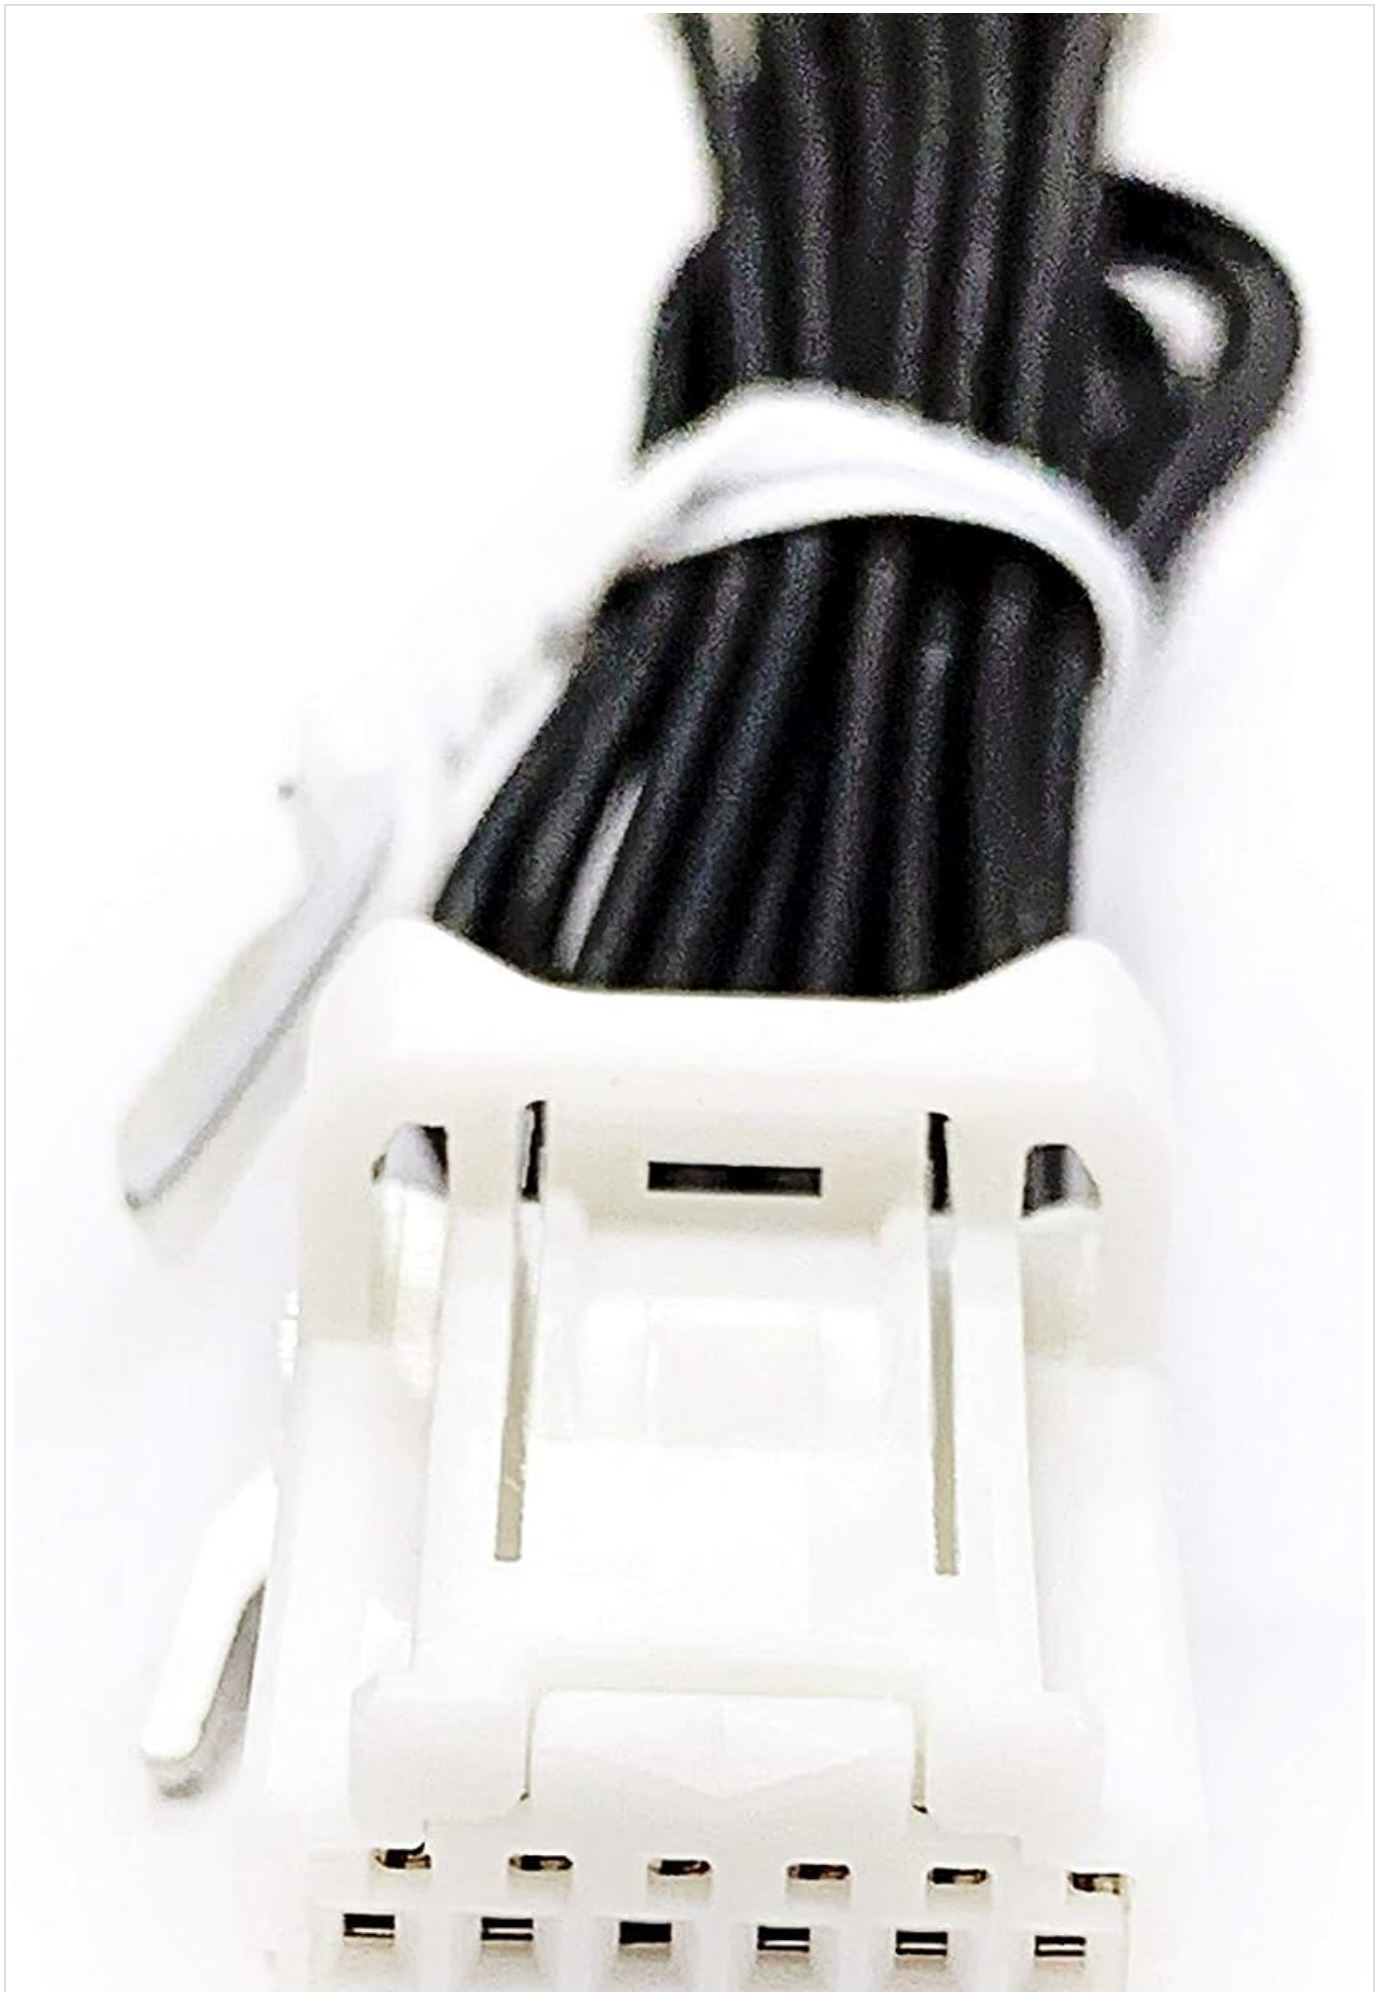

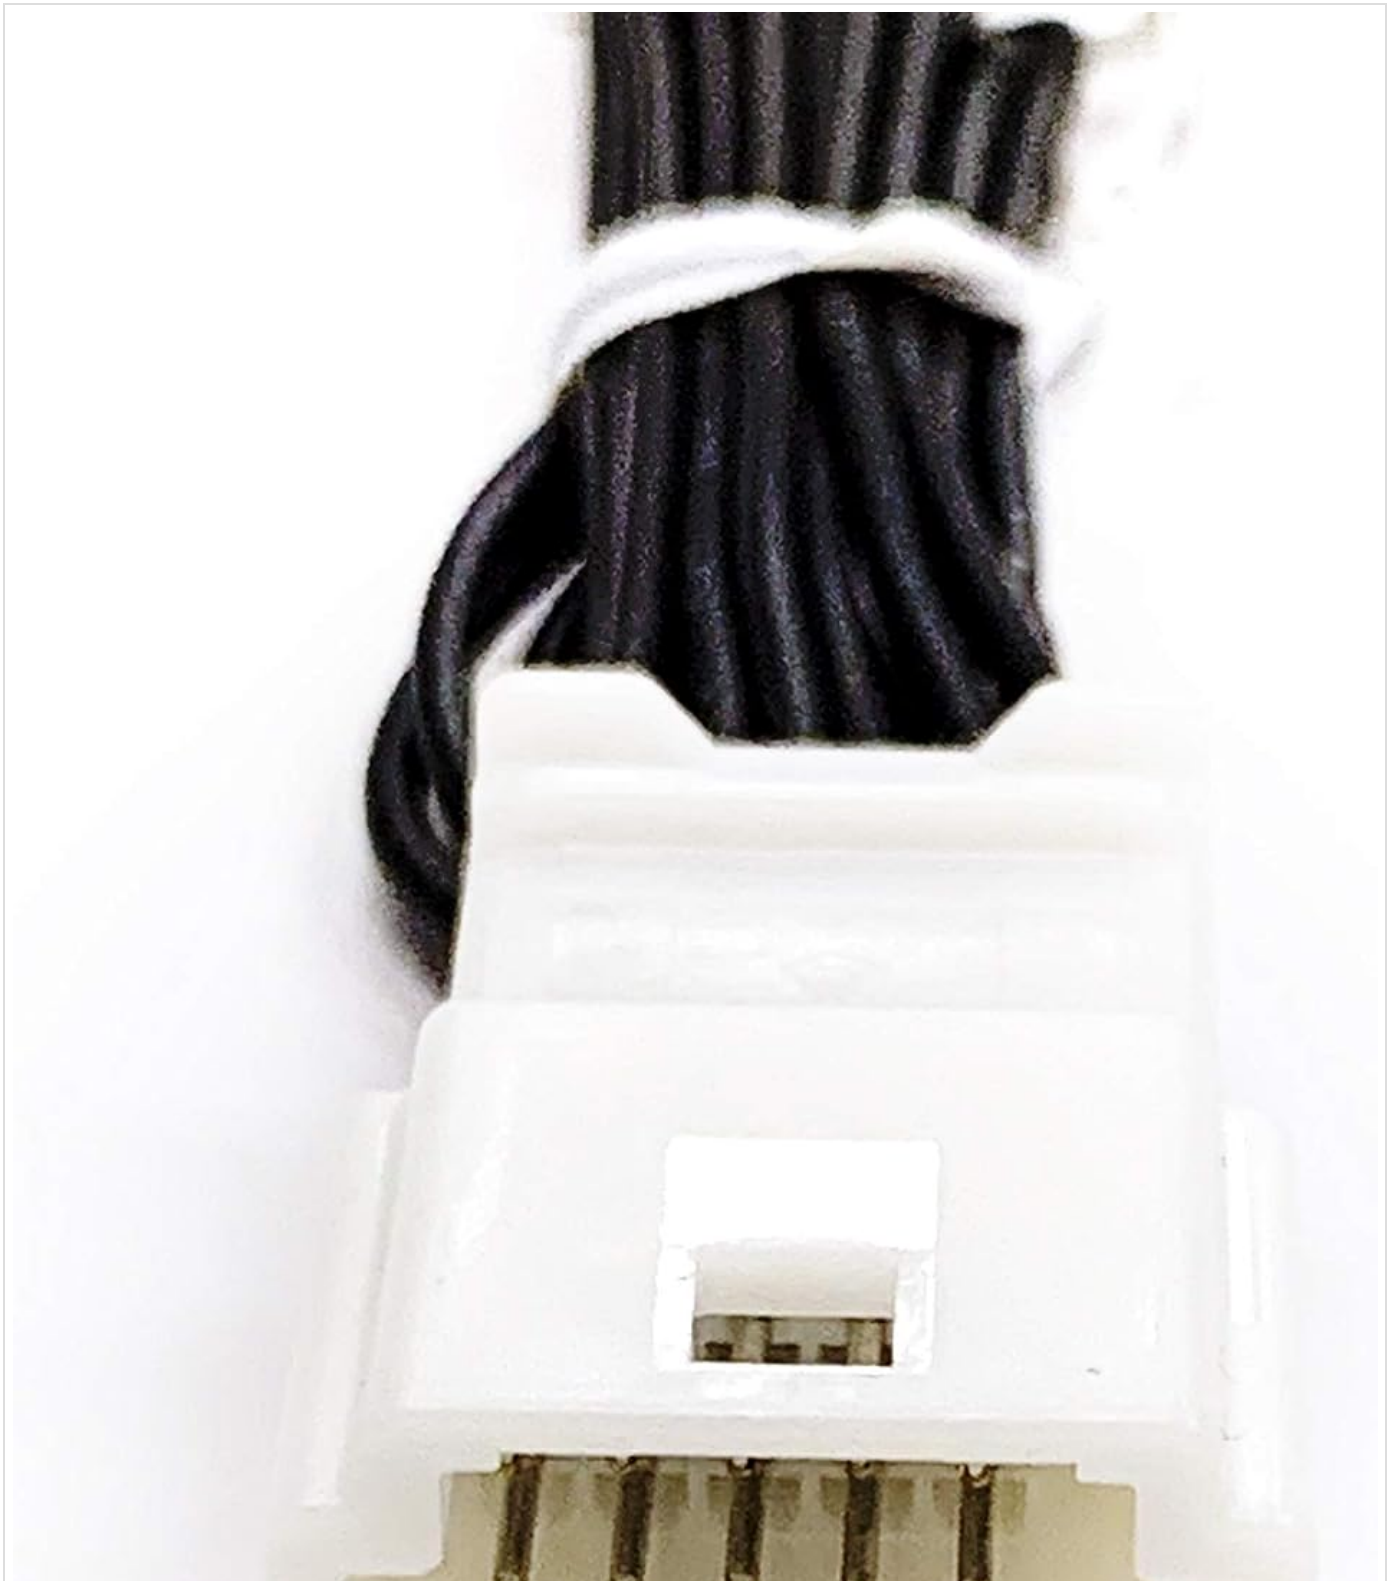

Figure 4.1: One end of the STV-N14-12P MC313D-W connector kit, showing multiple pins for connection.

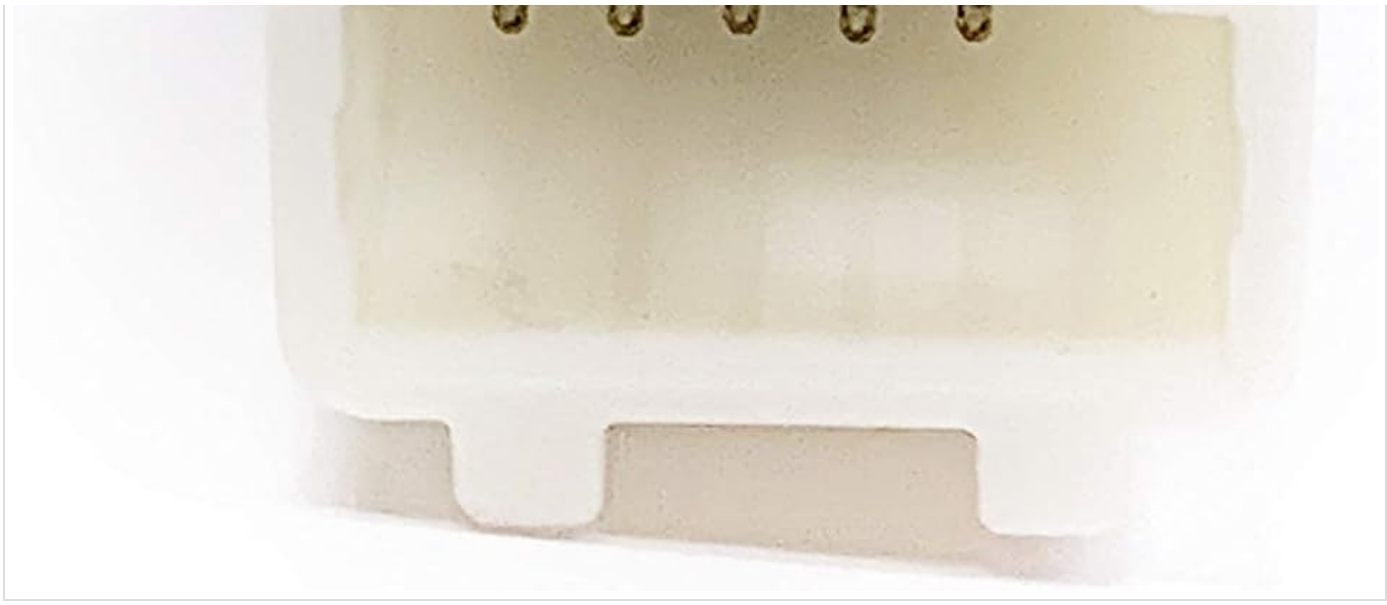

Figure 4.2: The other end of the STV-N14-12P MC313D-W connector kit, designed to connect to the vehicle's harness.

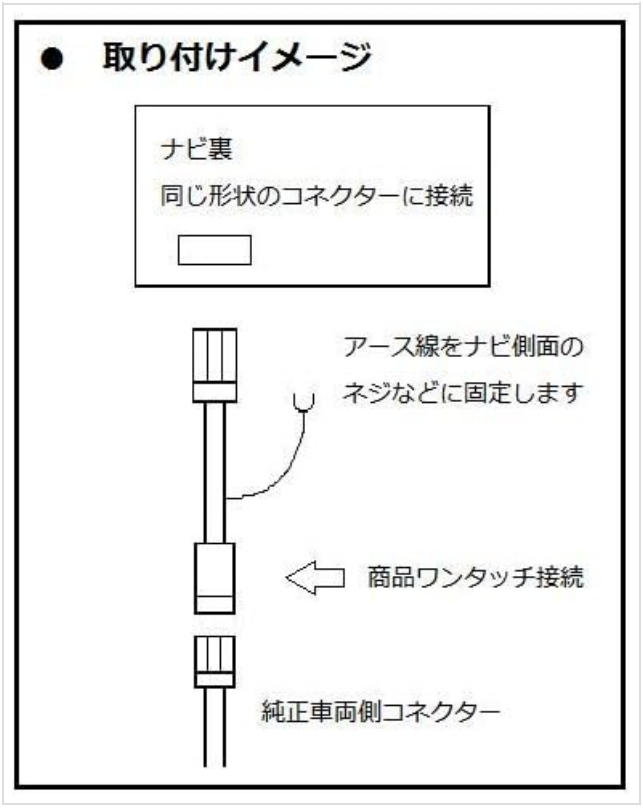

Figure 4.3: Installation diagram illustrating the connection points: behind the navigation unit, securing the ground wire, and the one-touch connection to the genuine vehicle connector.

After installation, reconnect the vehicle battery and test the functionality.

Important: This kit cannot be installed on NV100 Clipper or NV100 Clipper Rio models.

5. Operating Instructions

Once the STV-N14-12P MC313D-W kit is correctly installed, the following functionalities become available:

- **TV/DVD Viewing:** You can now view television and DVD content on your navigation screen while the vehicle is in motion.
- **Navigation Operation:** The navigation system remains fully operational, allowing you to input destinations and interact with its features even while driving. The vehicle's current location on the map will continue to update accurately.

No additional user input or activation is typically required after installation; the kit functions automatically to enable these features.

6. Maintenance

The STV-N14-12P MC313D-W connector kit requires minimal maintenance. Follow these general guidelines:

- Periodically check connections to ensure they remain secure.
- Keep the area around the navigation unit and connectors free from dust and debris.
- Avoid exposing the kit to extreme temperatures or direct moisture.
- Do not attempt to modify or disassemble the kit, as this may void the warranty and cause damage.

7. Troubleshooting

Issue: Parking Alarm (Alert) Function Operates

If your navigation system's parking alarm or alert function activates unexpectedly after installing the kit, it may be due to the navigation unit's internal settings.

Solution: Turn off the parking alarm (alert) setting within your navigation system's menu. Refer to your specific navigation unit's instruction manual for detailed steps on how to access and adjust these settings.

8. Specifications

Brand	SOUND OFF
Model Name	STV-N14-12P
Model Number	A5-HLFS-MHSI
Model Series	STV-N14
Supported Media Type	TV, DVD (via navigation unit)
Built-In Media	Connector Kit
