Timex T499909J

Timex Expedition Rugged Metal Watch User Manual

Model: T499909J

INTRODUCTION

This manual provides instructions for the Timex Expedition Rugged Metal Watch, Model T499909J. This watch is designed for durability and functionality, featuring a robust metal case, a clear analog display, and the Indiglo night-light for low-light visibility. It is water-resistant up to 50 meters, making it suitable for recreational swimming.

Front view of the Timex Expedition Rugged Metal Watch with a brown leather strap and cream dial.

SETUP

Setting Time and Date

1. **Pull the Crown:** Gently pull the crown (the knob on the side of the watch) out to position 2 for setting the date, or position 3 for setting the time.
2. **Set the Date:** In position 2, turn the crown clockwise or counter-clockwise to adjust the date. Push the crown back to position 1 when finished.
3. **Set the Time:** In position 3, turn the crown to move the hands clockwise. Continue turning past 12 o'clock to ensure the AM/PM is correctly set for the date change. Push the crown back to position 1 to start the watch.

For detailed instructions, please refer to the official [User Manual \(PDF\)](#).

OPERATING THE WATCH

Indiglo Night-Light

The Indiglo night-light illuminates the watch dial for easy reading in low-light conditions. To activate, simply press and hold the crown (in position 1).

Water Resistance

This watch is water-resistant to 50 meters (165 feet). This rating means it is suitable for short periods of recreational swimming. It is **not** suitable for diving or snorkeling. Ensure the crown is fully pushed in before exposing the watch to water.

Battery Replacement

The watch uses 1 Lithium Metal battery (included). When the watch stops or the Indiglo light dims significantly, the battery may need replacement. It is recommended to have battery replacement performed by a qualified watch technician to ensure water resistance is maintained.

Strap Care

The watch features a genuine leather strap. To prolong its life, avoid prolonged exposure to water, direct sunlight, and harsh chemicals. Clean with a soft, dry cloth. Leather straps may show wear over time, which is normal.

Rear view of the watch, showing the brown leather strap and buckle.

TROUBLESHOOTING

- **Watch Not Running:** Ensure the crown is fully pushed in. If it still does not run, the battery may need replacement.
- **Incorrect Time/Date:** Follow the "Setting Time and Date" instructions in the Setup section.
- **Indiglo Not Working:** Check if the battery is low. If the battery is new and the Indiglo still doesn't work, contact customer support.

For further assistance, consult the official [User Manual \(PDF\)](#) or contact Timex customer support.

SPECIFICATIONS

Model Name	Expedition Rugged Metal Field
Model Number	T499909J
Case Material	Brass
Case Diameter	45 millimeters
