DECORAPORT D204-6028

DECORAPORT D204-6028 LED Bathroom Mirror Instruction Manual

Model: D204-6028

INTRODUCTION

Thank you for choosing the DECORAPORT D204-6028 LED Bathroom Mirror. This manual provides essential information for the safe installation, operation, and maintenance of your new mirror. Please read these instructions thoroughly before installation and retain them for future reference.

SAFETY INFORMATION

To reduce the risk of electric shock, fire, or injury, please observe the following safety precautions:

- Always disconnect power at the circuit breaker before installation or servicing.
- This product must be installed by a qualified electrician in accordance with all applicable local and national electrical codes.
- Do not install this mirror in direct contact with water. Ensure the installation area is dry and well-ventilated.
- Handle the mirror with care. Glass edges can be sharp. Wear protective gloves during installation.
- Ensure the wall structure can support the weight of the mirror (approximately 43.2 pounds).
- Do not attempt to modify or disassemble the mirror's electrical components.
- Keep children away from the installation area.

PRODUCT FEATURES

The DECORAPORT D204-6028 LED Bathroom Mirror is designed with user convenience and modern aesthetics in mind. Key features include:

- **Dimmable LED Lighting:** Integrated LED lights provide bright, natural, and soft illumination, adjustable from 10% to 100% brightness.
- **Anti-Fog Function:** A built-in defogger ensures a clear reflection, especially after hot showers. The anti-fog function operates independently and automatically shuts off after one hour.
- **Touch Button Controls:** Intuitive touch sensors on the mirror surface control lighting and anti-fog functions.

- **Horizontal or Vertical Mounting:** The mirror can be installed in either orientation to suit your bathroom design.
- **High-Definition, Copper-Free Silver Mirror:** Provides superior clarity and reflection, resistant to corrosion.

Anti-fog Funtion

Just touch the anti-fog button then it will eliminate the fog on the mirror and give you a clear image experience. The function is separately controlled from the light.

INSTALLATION INSTRUCTIONS

This mirror is designed for wall-mounted, hardwired installation. Professional installation is recommended.

Before You Begin:

- Inspect the mirror for any damage before installation. Do not install if damaged.
- Ensure all necessary tools are available (e.g., drill, level, measuring tape, screwdriver, wire strippers).
- Turn off the main power supply at the circuit breaker.
- Determine the desired mounting orientation (horizontal or vertical) and location.

Mounting Steps:

1. Measure and mark the desired position for the mirror on the wall.
2. Using the provided mounting template (if applicable) or by measuring the keyhole slots on the back of the mirror, mark the drilling points for the mounting brackets.
3. Drill holes at the marked points and insert appropriate wall anchors (suitable for your wall type).
4. Secure the mounting brackets to the wall using screws. Ensure they are level and securely fastened.
5. Carefully lift the mirror and hang it onto the mounting brackets. Ensure it is stable and flush against the wall.

Electrical Wiring:

1. With the power still off at the circuit breaker, connect the mirror's electrical wires to your household wiring.
2. Connect the live (black) wire from the mirror to the live (black) wire from the wall.
3. Connect the neutral (white) wire from the mirror to the neutral (white) wire from the wall.
4. Connect the ground (green or bare copper) wire from the mirror to the ground wire from the wall.
5. Secure all connections with wire nuts and electrical tape.
6. Carefully tuck the wires into the junction box.
7. Restore power at the circuit breaker and test the mirror's functions.

OPERATING INSTRUCTIONS

Your DECORAPORT LED Bathroom Mirror features intuitive touch controls for easy operation.

Light Control:

- **Power On/Off:** Briefly touch the light icon on the mirror surface to turn the LED lights on or off.
- **Dimming Function:** When the lights are on, press and hold the light icon to adjust the brightness. The light will cycle through its dimming range (10% to 100%). Release your finger when the desired brightness is reached. The mirror retains the last brightness setting (brightness memory).

Anti-Fog Control:

- **Activate/Deactivate:** Briefly touch the anti-fog icon (often depicted as steam waves) on the mirror surface to turn the defogger on or off.
- The anti-fog function is designed to automatically shut off after one hour of continuous use to conserve energy.

MAINTENANCE AND CARE

Proper care will ensure the longevity and optimal performance of your DECORAPORT LED Bathroom Mirror.

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the electrical components. Wipe gently.
- **Cleaning the Frame:** Wipe the aluminum frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **LED Care:** The integrated LED lights are designed for long-term use (50,000+ hours lifespan) and do not require replacement under normal conditions. If issues arise, consult the troubleshooting section or contact customer support.
- **Avoid Excessive Moisture:** While the mirror has an IP54 waterproof rating, avoid direct water spray on electrical components.

TROUBLESHOOTING

If you encounter issues with your mirror, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED lights do not turn on.	No power supply; loose wiring; faulty touch sensor.	Check circuit breaker. Verify electrical connections. Contact customer support if wiring is correct.
Anti-fog function is not working.	Anti-fog function not activated; power issue.	Ensure the anti-fog button is pressed. Check if the main power to the mirror is on.
Lights are too dim or too bright.	Brightness setting needs adjustment.	Press and hold the light icon to adjust brightness to your preference.
