MAINTENANCE AND CARE

Proper care ensures the longevity and hygiene of your Everlasting Comfort Lumbar Support Pillow:

1. **Remove Cover:** Unzip the zipper located on the back of the cushion to remove the breathable mesh cover from the

memory foam core.

- 2. **Machine Wash Cover:** The cover is machine washable. Use a gentle cycle with cold water.
- 3. **Drying:** The cover is dryer safe on low heat or can be air-dried.
- 4. **Memory Foam Care: DO NOT PUT THE MEMORY FOAM CORE IN THE WASHER OR DRYER.**Spot clean the memory foam with a damp cloth and mild detergent if necessary, then allow it to air dry completely away from direct sunlight.
- 5. **Reassembly:** Once the cover is dry, carefully place the memory foam core back inside the cover and zip it up.

TROUBLESHOOTING

- **Cushion feels too firm/soft:** Memory foam is heat-responsive. It may feel firmer in cooler temperatures and soften with body heat. Allow some time for the cushion to adapt to your body temperature.
- **Cushion slips down:** Ensure the adjustable straps are tightened securely around the chair back. If using extenders, confirm they are properly attached.
- **Uncomfortable positioning:** Experiment with the height and angle of the cushion on your chair. The pillow can be positioned anywhere along the spine for preferred comfort, whether lower back, middle back, or upper back.
