SETUP

Before beginning assembly, ensure you have a clean, flat, and sufficiently large surface to work on. The finished puzzle measures 38.2 x 13.4 inches, so a workspace larger than this is recommended to allow for sorting pieces. Consider using a puzzle mat or a large piece of cardboard for easier movement and storage of the puzzle in progress.

Unpacking the Puzzle

1. Carefully open the puzzle box.
2. Remove the bag containing the puzzle pieces.
3. Empty the puzzle pieces onto your prepared workspace.

ASSEMBLY INSTRUCTIONS

Assembling a jigsaw puzzle involves several steps to ensure a smooth and enjoyable experience. The following guidelines can help you effectively put together your 1000-piece Trefl puzzle.

Step-by-Step Guide

1. **Sort the Pieces:** Begin by separating all edge pieces from the center pieces. Edge pieces typically have one flat side.
2. **Build the Frame:** Assemble the border of the puzzle first. This provides a clear outline and helps define the puzzle's dimensions.
3. **Sort by Color and Pattern:** Group the remaining pieces by color, pattern, or distinct features. This makes it easier to locate specific pieces as you work on different sections of the image.
4. **Work in Sections:** Focus on one section of the image at a time. Refer to the image on the puzzle box for guidance.
5. **Connect Pieces:** Look for pieces that fit together by shape and image detail. If you are having difficulty finding a piece, try changing your perspective or focusing on a different area.
