Skywalker Trampolines 12' Trampoline Double Basketball Hoop Accessory Instruction Manual

Brand: Skywalker Trampolines | Model: SWBB1200

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Skywalker Trampolines 12' Double Basketball Hoop Accessory. Please read all instructions carefully before installation and use to ensure safe and proper functionality. This accessory is designed to enhance your trampoline experience by adding a fun, interactive basketball element.

Safety Information

Your safety is paramount. Adhere to the following guidelines:

- Ensure the accessory is securely attached to the trampoline enclosure poles as per installation instructions.
- The basketball hoops feature a unique hook-and-loop breakaway attachment. This design allows the hoops to detach when sufficient force is applied, reducing the risk of injury during play.
- Only use the included foam basketballs with this accessory. Do not use hard or heavy balls.
- Supervise children during play.
- Do not hang or swing from the basketball hoops or frame.
- Regularly inspect all components for wear or damage. Replace worn or damaged parts immediately.

SETUP AND INSTALLATION

This accessory is designed to fit 12' round Skywalker Trampolines models. Ensure your trampoline is compatible before proceeding.

1. **Prepare Trampoline:** Ensure your trampoline is fully assembled and stable. The accessory attaches to the enclosure poles.
2. **Attach Frame:** Position the basketball hoop frame at the desired location on the trampoline enclosure. Align the attachment points on the accessory frame with the top of the trampoline enclosure poles.
3. **Secure Frame:** Use the provided mounting hardware (bolts, nuts, washers) to securely fasten the accessory frame to the enclosure poles. Tighten all connections firmly, but do not overtighten.
4. **Install Hoops:** Attach the two soft basketball hoops to the designated areas on the frame using their hook-and-loop fasteners. Ensure they are securely fastened but can still break away with sufficient force.
5. **Final Check:** Before use, double-check all connections to ensure they are tight and the accessory is stable.

Easy Setup and Storage

OPERATING INSTRUCTIONS

The Double Basketball Hoop Accessory offers versatile play options:

- **Inside Play:** Turn the basketball hoops towards the inside of the trampoline enclosure. This allows jumpers to shoot baskets while on the trampoline.
- **Outside Play:** Turn the basketball hoops towards the outside of the trampoline enclosure. This enables players outside the trampoline to participate, allowing for family fun.
- **Dunking:** The breakaway rim design allows for safe dunking. The hoop will detach if excessive force is applied, preventing damage and injury. Simply reattach the hoop after it breaks away.

Can Be Used
Inside or Outside
the Trampoline

MAINTENANCE

Proper maintenance will extend the life of your accessory:

- **Cleaning:** Wipe down the frame and hoops with a damp cloth as needed. Do not use harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check all bolts and fasteners to ensure they remain tight. Inspect the hoops and netting for any tears or excessive wear.
- **Storage:** For prolonged periods of non-use or during severe weather, it is recommended to remove the accessory and store it indoors in a dry place. The design allows for easy setup and storage.

TROUBLESHOOTING

Refer to this section for common issues and their resolutions.

Problem	Possible Cause	Solution
Accessory does not fit trampoline.	Incorrect trampoline size or model.	This accessory is designed for 12' round Skywalker Trampolines. Verify your trampoline's size and brand. Contact customer support if unsure.
Hoops frequently detach during normal play.	Hook-and-loop fasteners are worn or not fully engaged.	Ensure the hook-and-loop fasteners are clean and fully pressed together. If worn, contact customer support for replacement parts.
Frame feels wobbly after installation.	Mounting hardware is loose.	Retighten all bolts and nuts securing the frame to the trampoline enclosure poles. Do not overtighten.
