1. INTRODUCTION

The SmartGames Dinosaurs: Mystic Islands is a captivating single-player puzzle game designed to challenge and develop cognitive skills. Players must strategically move islands to separate the plant-eating green dinosaurs from the carnivorous red T-Rex. This game offers 80 challenges, ranging from easy to expert, providing hours of engaging gameplay for ages 8 and up. This manual provides comprehensive instructions for setting up, playing, and maintaining your game, ensuring a fun and educational experience.

2. COMPONENTS

The SmartGames Dinosaurs: Mystic Islands game set includes the following components:

- 1 Game Board
- 6 Puzzle Pieces with Red and Green Dinosaurs
- 1 Booklet containing 80 Challenges and Solutions

3. SETUP

Follow these steps to set up your SmartGames Dinosaurs: Mystic Islands for play:

1. **Select a Challenge:** Open the challenge booklet and choose one of the 80 challenges. The challenges are ordered by difficulty, from Starter to Master.
2. **Place Initial Pieces:** Refer to the chosen challenge in the booklet. Place the specified puzzle pieces onto the game board exactly as shown in the diagram. Ensure the red and green dinosaurs are on their designated islands.
3. **Identify Remaining Pieces:** The challenge diagram will indicate which puzzle pieces are to be used for that specific challenge. Set aside any pieces not required for the current challenge.

Image: A child's hands carefully placing a puzzle piece onto the blue game board, demonstrating the setup process.

4. GAMEPLAY

The objective of Dinosaurs: Mystic Islands is to arrange all the puzzle pieces on the game board so that the red T-Rex dinosaurs are separated from the green plant-eating dinosaurs. Each type of dinosaur must be on its own island, meaning no red dinosaur can share an island with a green dinosaur, and vice versa.

How to Play:

1. **Place Remaining Pieces:** After placing the initial pieces as per the challenge, strategically place the remaining puzzle pieces onto the game board.
2. **Form Islands:** The puzzle pieces must fit together to form distinct islands. The goal is to create islands where only red dinosaurs reside on some, and only green dinosaurs reside on others.
3. **No Mixed Islands:** A solution is achieved when all puzzle pieces are placed, and every island formed contains either only red dinosaurs or only green dinosaurs. No island should contain both.
4. **Check Your Solution:** Once you believe you have solved the challenge, you can check the solution provided at the back of

the challenge booklet.

Tips for Success:

- Start with easier challenges to understand the mechanics.
- Visualize how the islands will form as you place pieces.
- Consider the shapes of the puzzle pieces and how they connect.
- Don't be afraid to try different arrangements.

5. MAINTENANCE

To ensure the longevity of your SmartGames Dinosaurus: Mystic Islands, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the game board and puzzle pieces with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure all components are completely dry before storage.
- **Storage:** Store all game components in their original box or a suitable container to prevent loss or damage. Keep the game in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle puzzle pieces and the game board with care to avoid bending, breaking, or scratching.

6. TROUBLESHOOTING

If you encounter any issues while playing SmartGames Dinosaurs: Mystic Islands, consider the following common solutions:

Problem	Solution
Cannot solve a challenge.	Double-check the initial setup against the challenge diagram. Ensure all required pieces are used and placed correctly. If still stuck, refer to the solution at the back of the booklet, but try to solve it yourself first!
Pieces do not fit on the board.	Ensure you are using the correct puzzle pieces for the selected challenge. Verify that pieces are oriented correctly and not forced into place.
Dinosaurs are on mixed islands.	This indicates the solution is incorrect. Re-evaluate the placement of your puzzle pieces to ensure all red dinosaurs are isolated from green dinosaurs on separate islands.

7. SPECIFICATIONS

- Product Dimensions:** 9.06 x 9.06 x 1.97 inches
- Item Weight:** 1.1 pounds
- Model Number:** SG 282
- Manufacturer Recommended Age:** 8 years and up
- Material:** Plastic
- Release Date:** December 1, 2017
- Language:** English
- Manufacturer:** SmartGames
