Coleman Cable 09021

Coleman Cable 09021 Locking Adapter Instruction Manual

1. Introduction

Thank you for choosing the Coleman Cable 09021 Locking Adapter. This manual provides essential information for the safe and effective use of your new adapter. Please read these instructions carefully before installation and operation, and retain them for future reference.

2. Safety Information

WARNING: To reduce the risk of electric shock, fire, or personal injury, always follow basic safety precautions when using electrical products.

- Do not use this adapter if it appears damaged in any way.
- Ensure the adapter's voltage and current ratings are compatible with your device and power source. This adapter is rated for 125 Volts.
- Do not overload the adapter or the circuit it is connected to.
- Keep the adapter away from water, moisture, and extreme temperatures.
- Do not attempt to modify or disassemble the adapter.
- Always disconnect power before making or breaking connections.

Proposition 65 Warning: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

3. Product Overview

The Coleman Cable 09021 Locking Adapter is designed to provide a secure and reliable electrical connection. It converts a standard electrical outlet into a locking type connection, preventing accidental disconnections. This male-to-female adapter is suitable for various applications requiring a stable 125V power supply.

This image displays the Coleman Cable 09021 Locking Adapter, highlighting its male plug and female receptacle, designed for secure electrical connections.

4. Setup

1. **Power Off:** Ensure the power source to the outlet is turned off before connecting or disconnecting the adapter.
2. **Connect to Outlet:** Insert the male end of the Coleman Cable 09021 Locking Adapter into a compatible 125V electrical outlet.
3. **Lock Connection (if applicable):** If the outlet features a locking mechanism, twist the adapter's male end clockwise until it is securely locked into place.
4. **Connect Device:** Plug your device's power cord into the female receptacle of the adapter.
5. **Verify Connections:** Double-check that all connections are firm and secure.
6. **Restore Power:** Once all connections are secure, you may restore power to the outlet.

5. Operating Instructions

Once properly set up, the Coleman Cable 09021 Locking Adapter provides a stable and secure electrical connection for your equipment. Always ensure that the voltage and current requirements of your connected device do not exceed the adapter's specifications or the capacity of the power source.

6. Maintenance

- **Regular Inspection:** Periodically inspect the adapter for any signs of wear, damage, or overheating, such as frayed wires, cracks, discoloration, or melted plastic.
- **Replacement:** If any damage is observed, discontinue use immediately and replace the adapter.
- **Cleaning:** Keep the adapter clean and free from dust and debris. Use a dry cloth for cleaning. Do not use

liquids or abrasive cleaners.

- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and moisture when not in use.

7. Troubleshooting

- **No Power to Device:**
  - Check if the adapter is fully and securely plugged into both the wall outlet and the device.
  - Verify that the wall outlet is active by testing it with another known working device.
  - Ensure the circuit breaker for the outlet has not tripped.
- **Loose Connection:**
  - If the connection feels loose, disconnect the adapter, inspect the prongs and receptacle for damage, and reconnect firmly. Ensure any locking mechanism is fully engaged.
- **Adapter Overheating:**
  - Immediately disconnect the adapter from the power source and the device.
  - Overheating can indicate an overload or an internal fault. Do not use the adapter again. Consult a qualified electrician or replace the adapter.

8. Specifications

Feature	Specification
Brand	Coleman Cable
Model Number	09021
Connector Gender	Male-to-Female
Voltage Rating	125 Volts
Plug Format	Type B
Plug Type	Type B
Gauge	12.0
Case Material Type	Vinyl
UL Listed	Yes
Item Weight	15.04 ounces
Unit Count	2.0 Count
UPC	029892090210
Manufacturer	Coleman Company

9. Warranty and Support

For specific warranty information, technical support, or customer service inquiries regarding your Coleman Cable

09021 Locking Adapter, please refer to the manufacturer's official website or contact their customer service department directly. It is recommended to keep your purchase receipt as proof of purchase for any warranty claims.
