TecTake Aluminum Roll-Up Mosquito Screen 90x160 cm Instruction Manual

Brand: tectake | **Model:** 402063-2

1. INTRODUCTION

This instruction manual provides detailed guidance for the installation, operation, and maintenance of your TecTake Aluminum Roll-Up Mosquito Screen, model 402063-2. Designed to keep insects out while allowing fresh air in, this screen features a durable aluminum frame, UV-resistant fiberglass mesh, and an adjustable roll-up mechanism. Follow these instructions carefully for optimal performance and longevity.

The screen can be mounted on either the inside or outside of the window and its width can be adjusted by up to 65 cm. The retraction speed is also adjustable.

2. SAFETY INFORMATION

- Read all instructions carefully before installation and use.
- Keep packaging materials away from children to prevent suffocation hazards.
- Ensure all components are securely fastened to prevent accidents or injury.
- Do not attempt to modify the product as this may void the warranty and pose safety risks.
- Use appropriate safety gear (e.g., gloves, eye protection) during installation.
- If cutting profiles, ensure clean cuts and deburr edges to avoid injury.

3. PACKAGE CONTENTS

Please check that all items are present and undamaged before beginning assembly.

- 1 x Roll-up mosquito screen with housing and guide profiles

- Mounting materials (screws, plugs, etc.)
- Illustrated assembly manual (this document)

DATI TECNICI

Peso ca. 1,2 kg
Materiali alluminio verniciato a polveri, fibra di vetro, plastica
ABS, acciaio

CONTENUTO

Zanzariera avvolgibile
Materiale di montaggio
Istruzioni di montaggio

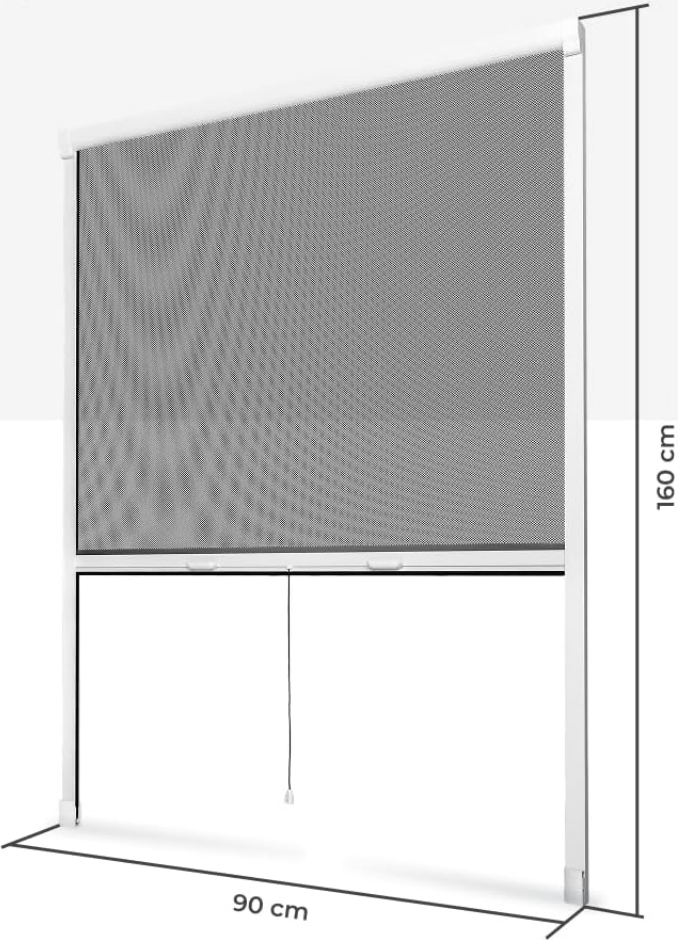

Figure 3: Product details including total dimensions (90x160 cm), weight, materials, and included components.

4. SPECIFICATIONS

Material	Aluminum frame, fiberglass mesh, ABS plastic, steel components
Total Dimensions (LxWxH)	90 x 5 x 160 cm (for this variant)
Minimum Adjustable Width	65 cm
Color	White frame, black mesh

Weight	1.2 kg
Special Features	UV-resistant, weather-resistant, brush seals on guide profiles and bottom, adjustable retraction speed
Mounting Type	Internal or external window mounting

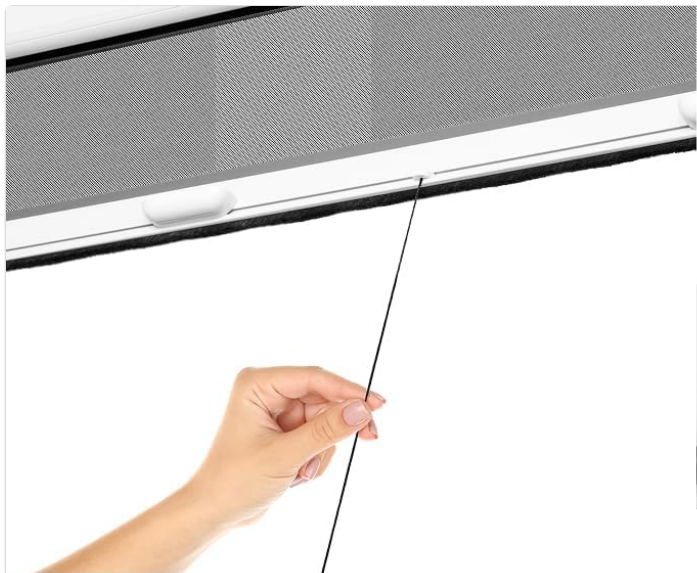

5. SETUP AND INSTALLATION

Careful installation ensures proper function and longevity of your mosquito screen. Please follow these steps and refer to the video for a visual guide.

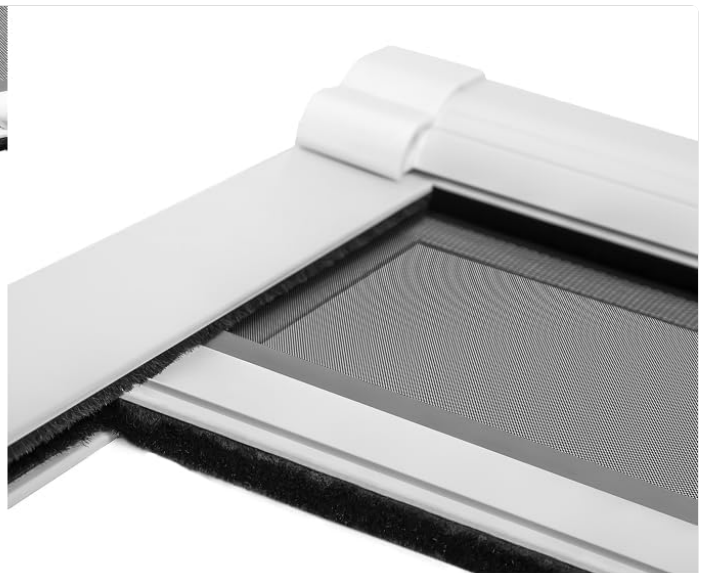

1. **Preparation:** Unpack all components and verify against the package contents list. Ensure your window opening is clean and clear of obstructions.
2. **Measure and Adjust:** Measure the exact width and height of your window opening. If necessary, the aluminum profiles can be cut to size (up to a maximum reduction of 65 cm in width). Use appropriate tools for precise and clean cuts.
3. **Mount the Headrail:** Position the top housing (headrail) of the mosquito screen within or on the window frame. Secure it using the provided screws. Ensure it is level and firmly attached.
4. **Install Side Guide Rails:** Attach the side guide rails vertically to the window frame, aligning them with the headrail. These rails guide the screen and contain brush seals for optimal insect protection.
5. **Secure Components:** Ensure all screws are tightened and components are securely in place. Check that the screen can move freely within the guide rails.
6. **Test Operation:** Gently pull the screen down and allow it to retract. Verify smooth operation and that the screen latches correctly at the bottom. Adjust the retraction speed if needed (refer to specific instructions in the included manual for speed adjustment).

Video 1: Step-by-step guide on how to install the TecTake Roll-Up Mosquito Screen. This video demonstrates the process of mounting the headrail and side guides, and securing the screen for proper function.

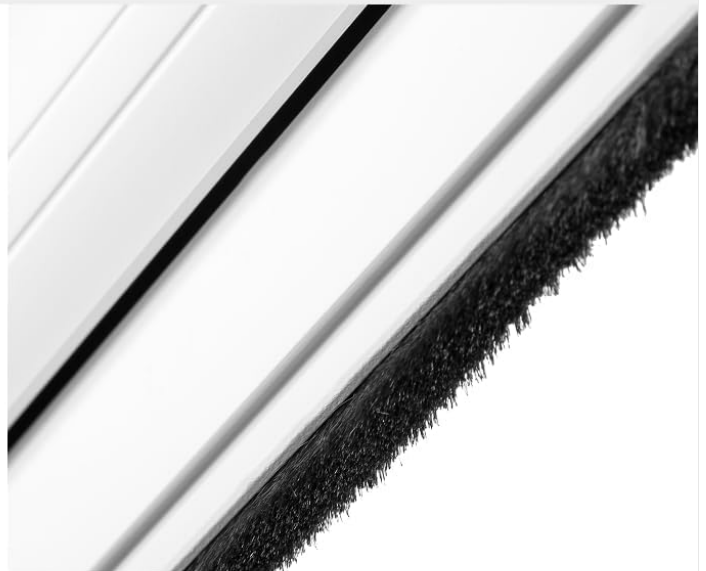

Le **2 pratiche maniglie** e il **lungo cordino** consentono di aprire la zanzariera alla lunghezza desiderata.

Il **robusto telaio in alluminio leggero e inossidabile** è durevole e resistente alle intemperie.

La **rete a maglie strette in tessuto di fibra di vetro** resiste agli strappi e protegge dai raggi UV.

Grazie alle **guarnizioni con setole** anche le aperture più piccole vengono chiuse ermeticamente.

Figure 4: Detailed view of the screen's components, including handles, cord, durable aluminum frame, UV-resistant fiberglass mesh, and effective brush seals.

6. OPERATING INSTRUCTIONS

The TecTake Roll-Up Mosquito Screen is designed for simple and convenient operation.

- **To Lower the Screen:** Gently pull down on the handles or the integrated cord. Guide the screen smoothly until it reaches the desired position or fully closes at the bottom. The screen will latch into place.
- **To Retract the Screen:** Slightly pull down on the handles or cord to release the latch. The screen will then automatically retract into its top housing. The retraction speed can be adjusted to your preference.
- **Adjusting Retraction Speed:** Refer to the detailed instructions in the included assembly manual for specific steps on how to adjust the spring tension and retraction speed.

PRATICITÀ E design

Grazie al pratico meccanismo avvolgibile, questa zanzariera può essere aperta e chiusa agevolmente e senza fatica.

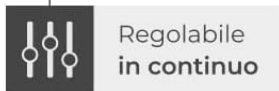

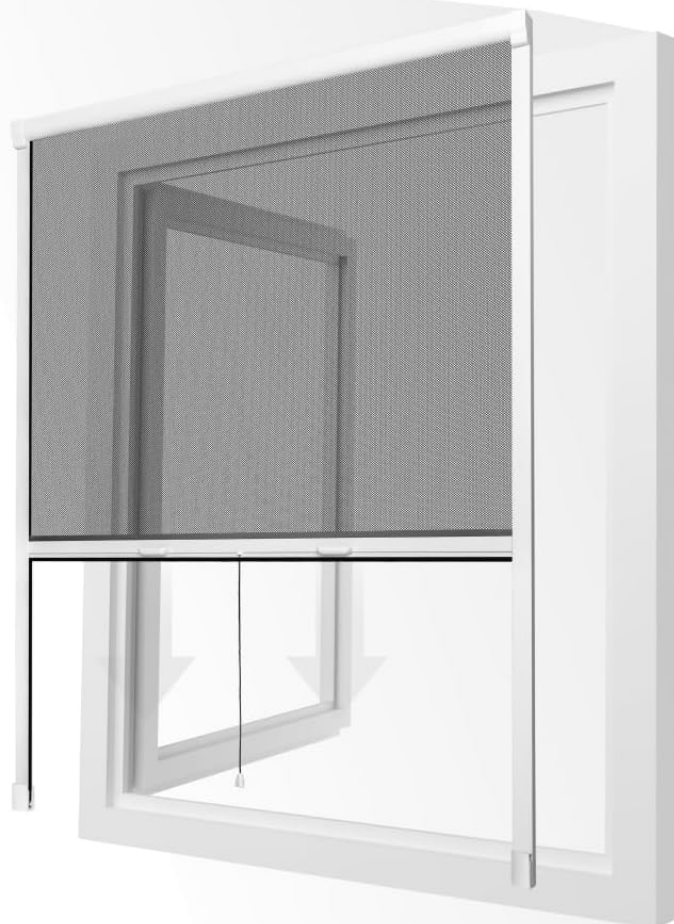

Figure 5: Demonstrates the practical roll-up mechanism, allowing the screen to be opened and closed effortlessly.

7. MAINTENANCE

Regular maintenance will help prolong the life of your mosquito screen.

- **Cleaning the Mesh:** The fiberglass mesh is UV and weather-resistant. For cleaning, use a soft, damp cloth to gently wipe away dust and debris. *Spot clean only.* Avoid harsh chemicals or abrasive cleaners.
- **Cleaning the Frame:** Wipe the aluminum frame with a damp cloth.
- **Inspecting Components:** Periodically check the guide rails, brush seals, and retraction mechanism for any signs of wear or damage. Ensure the screen moves smoothly without obstruction.
- **Lubrication:** If the screen's movement becomes stiff, a silicone-based lubricant can be applied sparingly to the guide rails (avoiding the mesh) to improve smoothness.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Screen does not retract smoothly.	Guide rails are dirty or obstructed; spring tension is too low.	Clean guide rails. Adjust spring tension (refer to manual).
Screen does not stay down when closed.	Latching mechanism is obstructed or misaligned.	Check for debris in the latching area. Ensure guide rails are properly aligned.
Gaps between screen and window frame.	Improper installation; damaged brush seals.	Re-check installation for proper alignment. Inspect and replace damaged brush seals if necessary.

9. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to your purchase documentation or contact the seller directly. Keep your proof of purchase for any warranty claims.
