Mcage Model 10071 Extra Large 4-Level Wrought Iron Pet Cage Instruction Manual

For Ferrets, Chinchillas, Sugar Gliders, and Birds

1. INTRODUCTION

This manual provides essential information for the safe and proper assembly, operation, and maintenance of your Mcage Model 10071 Extra Large 4-Level Wrought Iron Pet Cage. This spacious habitat is designed to provide a secure and comfortable environment for various small animals, including ferrets, chinchillas, sugar gliders, and birds.

Please read all instructions carefully before assembly and use to ensure the safety and well-being of your pet.

2. SAFETY INFORMATION

- Always supervise pets, especially during initial introduction to the cage.
- Ensure all doors and latches are securely closed to prevent escapes.
- Regularly inspect the cage for any damaged or loose parts, such as broken welds or bent wires, which could pose a hazard.
- Keep small children and other household pets away from the cage during assembly and cleaning.
- Place the cage on a stable, level surface.
- Do not hang heavy items from the cage bars that could cause instability.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Wrought Iron Cage Panels (various sizes for sides, top, bottom, doors)
- Detachable Rolling Stand with Storage Shelf
- Heavy Duty Casters (Wheels)
- 1/2-inch Cross Metal Wire Ramps (Ladders)

- 1/2-inch Cross Metal Wire Platforms (Shelves)
- Bottom Pull-Out Metal Grate
- Bottom Pull-Out Plastic Tray
- Double Plastic Feeder Cups
- Wooden Stand Perches (for birds/gliders)
- Assembly Hardware (screws, clips, etc.)

4. SETUP AND ASSEMBLY

Assembly is generally straightforward, though instructions are not always included. Refer to the diagrams provided and follow these general steps:

1. **Assemble the Rolling Stand:** Attach the heavy-duty casters to the base of the rolling stand. Secure the storage shelf to the stand.
2. **Construct the Cage Base:** Place the bottom cage panel onto the assembled rolling stand. Ensure it is securely seated.
3. **Attach Side Panels:** Connect the side panels to the bottom panel and to each other using the provided clips or hardware.
4. **Install Platforms and Ramps:** Position the 1/2-inch cross metal wire platforms at desired levels within the cage. Attach the corresponding ramps to allow pets to move between levels. Ensure they are securely fastened to prevent movement.
5. **Install Doors:** Attach the large front doors and any smaller access doors. Verify that the improved metal safety lock hinged doors operate smoothly and securely.
6. **Insert Trays and Grate:** Slide the bottom pull-out metal grate and plastic tray into their designated slots at the bottom of the cage.
7. **Add Accessories:** Attach the double plastic feeder cups and wooden stand perches as needed for your pet.

Figure 4: Close-up view of the cross metal wire platforms and ladders, designed to be paw-safe for small animals.

5. OPERATING INSTRUCTIONS

The Mcage Model 10071 cage is designed for ease of use and pet comfort.

- **Access Doors:** The cage features multiple large front doors and smaller access doors for convenient interaction with your pet, feeding, and cleaning. Ensure all doors are securely latched after use.
- **Mobility:** The detachable rolling stand with heavy-duty casters allows for easy relocation of the cage within your home. Lock the casters when the cage is in its desired position to prevent accidental movement.
- **Multi-Level Living:** Utilize the platforms and ramps to create a dynamic and stimulating environment for your pet, encouraging climbing and exploration.

Cross Metal Wire Platforms and Ladders PAW SAFE

Figure 5: Double plastic feeder cups for food and water, designed to attach securely to the cage bars.

6. MAINTENANCE AND CLEANING

Regular cleaning is crucial for maintaining a hygienic environment for your pet.

- **Daily Cleaning:** Remove and clean the double plastic feeder cups daily. Wipe down any soiled surfaces within the cage.

- **Tray and Grate Cleaning:** The bottom pull-out metal grate and plastic tray can be easily removed for convenient cleaning and washing. Slide them out, dispose of waste, wash with pet-safe cleaner, rinse thoroughly, and dry before returning.
- **Deep Cleaning:** Periodically, disassemble the platforms and ramps for a more thorough cleaning. The wrought iron construction can be wiped down with a damp cloth and mild, pet-safe disinfectant.
- **Bedding:** For animals like ferrets or hedgehogs, ensure appropriate bedding is used and changed regularly. The pull-out tray facilitates this process.

Figure 6: The pull-out metal grate and plastic tray system designed for convenient cleaning and waste removal.

7. TROUBLESHOOTING

- **Loose or Damaged Wires:** In rare cases, welds may separate during shipping or use. Inspect all wires upon receipt and periodically thereafter. Minor separations can often be repaired with strong, non-toxic epoxy if necessary.
- **Ramps Not Reaching:** If ramps do not align perfectly between platforms, adjust the platform placement slightly. The design allows for some flexibility in positioning.
- **Pet Escapes:** Ensure all doors are fully latched. Check wire spacing, especially for very small or young animals, to confirm it is adequate (1/2-inch spacing is provided).

8. SPECIFICATIONS
