Grandstream GXP1615

Grandstream GXP1615 IP Phone User Manual

1. INTRODUCTION

This manual provides comprehensive instructions for the Grandstream GXP1615 IP Phone. The GXP1615 is designed for small businesses and home office environments, offering essential VoIP telephony features. It supports one SIP account, two call appearances, and features a 132x48 pixel LCD display for clear information viewing. Integrated Power over Ethernet (PoE) simplifies deployment by allowing power and data to be delivered over a single Ethernet cable.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- GXP1615 IP Phone Unit
- Handset with Cord
- Base Stand
- Universal Power Adapter (if not using PoE)
- Ethernet Cable

3. PHYSICAL FEATURES AND COMPONENTS

Familiarize yourself with the various parts of your GXP1615 IP Phone.

Figure 1: Grandstream GXP1615 IP Phone Overview

This image displays the front of the Grandstream GXP1615 IP Phone. Key features visible include the black handset resting on the cradle, connected by a coiled cord. The main unit features a 132x48 pixel LCD display at the top, showing "GRANDSTREAM", date "2014-10-14", time "03:58am", and soft key labels like "NextScr", "FwdAll", "Redial". Below the display are three XML programmable soft keys. To the left of the display are two line keys. The central area contains a navigation cluster with up, down, left, right, and OK buttons. Surrounding the navigation cluster are various function keys including Home, Message, Headset, Mute, Volume control, and a full numeric keypad (0-9, *, #).

3.1 Front Panel Layout

- **LCD Display:** 132x48 pixel graphical LCD for call information, menus, and status.
- **Line Keys:** Two keys with dual-color LED for line status and call appearance.
- **Soft Keys:** Three XML programmable context-sensitive keys below the LCD.
- **Navigation Keys:** Up, Down, Left, Right, and OK button for menu navigation.
- **Numeric Keypad:** Standard 0-9, *, # keys for dialing.
- **Function Keys:** Dedicated keys for Home, Message, Headset, Mute, Hold, Transfer, Redial, Speakerphone, and Volume control.

3.2 Rear Panel Connections

- **PC Port:** 10/100 Mbps Ethernet port for connecting a computer.

- **LAN Port:** 10/100 Mbps Ethernet port with integrated PoE for network connection and power.
- **Handset Port:** RJ9 port for connecting the handset.
- **Headset Port:** RJ9 port for connecting a Plantronics compatible headset.
- **Power Jack:** For connecting the universal power adapter (if PoE is not used).

4. INITIAL SETUP

4.1 Assembling the Phone

1. Attach the base stand to the bottom of the phone unit.
2. Connect the coiled handset cord to the handset and the handset port on the phone.
3. (Optional) Connect a Plantronics compatible headset to the headset port.

4.2 Connecting to the Network and Power

1. Connect one end of the Ethernet cable to the LAN port on the phone and the other end to a network switch/hub with Power over Ethernet (PoE) capability. The phone will power on automatically.
2. If PoE is not available, connect the universal power adapter to the power jack on the phone and then to a power outlet. Connect an Ethernet cable from your network to the LAN port.
3. (Optional) Connect a computer to the PC port on the phone using another Ethernet cable.

The phone will boot up and attempt to obtain network configuration (IP address, etc.) and SIP account information from your network or VoIP service provider. This process may take a few minutes.

5. OPERATING INSTRUCTIONS

5.1 Making a Call

- **Off-hook Dialing:** Pick up the handset, press the Speakerphone button, or press the Headset button. Dial the number and press the **SEND** soft key or wait a few seconds for automatic dialing.
- **On-hook Dialing:** Dial the number first, then pick up the handset, press the Speakerphone button, or press the Headset button.

5.2 Answering a Call

- When the phone rings, pick up the handset, press the Speakerphone button, or press the Headset button.
- Alternatively, press the corresponding flashing Line key.

5.3 Ending a Call

Hang up the handset, press the Speakerphone button (if using speakerphone), or press the Headset button (if using headset).

5.4 Call Features

- **Hold:** During an active call, press the **HOLD** button. Press the flashing Line key to resume the call.
- **Transfer:** During an active call, press the **TRANSFER** button. Dial the new number and press the **TRANSFER** soft key again (attended transfer) or hang up (blind transfer).
- **3-Way Conferencing:** During an active call, press the **CONF** soft key. Dial the second party's number and press **SEND**. Once the second party answers, press the **CONF** soft key again to establish the conference.
- **Mute:** Press the **MUTE** button to mute your microphone during a call. Press again to unmute.

- **Volume Adjustment:** Use the **VOLUME +/-** buttons to adjust the handset, speakerphone, or headset volume during a call, or ringtone volume when idle.
- **Redial:** Press the **REDIAL** button to call the last dialed number.

5.5 Using the Phone Menu

Press the **MENU/OK** button to access the phone's main menu. Use the Navigation keys to scroll through options and the **OK** button to select. The soft keys will change functions based on the current menu context.

- **Call History:** Access a list of dialed, received, and missed calls (up to 200 records).
- **Phonebook:** Manage up to 500 contacts.
- **Settings:** Configure various phone parameters, including language, display, and audio settings.

6. MAINTENANCE AND CARE

- Keep the phone clean by wiping it with a soft, dry cloth.
- Avoid using liquid or aerosol cleaners directly on the phone.
- Do not expose the phone to excessive moisture or extreme temperatures.
- Ensure proper ventilation around the device.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your GXP1615 IP Phone.

Problem	Possible Cause / Solution
Phone does not power on.	<ul style="list-style-type: none"> • Check if the Ethernet cable is securely connected to the LAN port and the network switch/router (if using PoE). • If not using PoE, ensure the universal power adapter is correctly connected to the phone and a working power outlet.
No dial tone / Cannot make or receive calls.	<ul style="list-style-type: none"> • Verify network connectivity. Check the Ethernet cable connection. • Ensure your SIP account is correctly registered. Check the phone's display for registration status (e.g., "Registered" or "Not Registered"). • Contact your VoIP service provider or system administrator for account configuration verification.
Poor audio quality (echo, static).	<ul style="list-style-type: none"> • Check network conditions; high network latency or packet loss can affect call quality. • Adjust the volume using the VOLUME +/- buttons. • Ensure the handset cord is securely connected.
Phone is unstable or flips over easily.	<ul style="list-style-type: none"> • Ensure the base stand is correctly attached and the phone is placed on a flat, stable surface. • Route cables carefully to avoid interfering with the phone's stability.

8. TECHNICAL SPECIFICATIONS

Feature	Detail
SIP Accounts	1
Line Keys	2, with dual-color LED
XML Programmable Soft Keys	3
Display	132x48 pixel LCD
Ethernet Ports	Dual-switched 10/100 Mbps (with integrated PoE on LAN port)
Headset Support	RJ9 headset jack (supports Plantronics headsets)
Conferencing	3-way conference
Phonebook Capacity	Up to 500 contacts
Call History	Up to 200 records
Dimensions (L x W x H)	3.6 x 2.2 x 1 inches
Item Weight	1.45 pounds
Material	Acrylonitrile Butadiene Styrene (ABS)
Power Source	Corded Electric / PoE

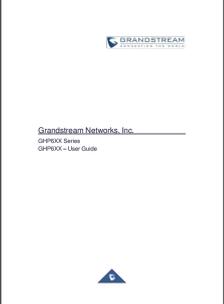

9. WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the official Grandstream website or contact your authorized Grandstream reseller. Keep your purchase receipt for warranty claims.

Grandstream präsentiert ein neues IP Telefon mit PoE für den Einstiegsbereich

Boston, MA (July 19, 2016) – Grandstream Networks Inc., connecting the world since 2002 mit preisgekrönten SIP Unified-Communication-Lösungen, rundet mit dem neuen **GXP1615** das Portfolio der IP-Telefone mit PoE Funktion ab. Dieses IP-Telefon für den Einstiegsbereich bietet zwei Leistungsstellen und ist durch die PoE-Funktionalität ein sehr attraktives Angebot in der Klasse der Einstiegsgeräte.

„Wir bei Grandstream haben immer ein offenes Ohr für unsere Partner und Anwender und sind dabei bestrebt, die Wünsche und Anforderungen unserer Kunden mit maßgeschneiderten Lösungen zu erfüllen. Die Marktbegege sich immer weiter in Richtung Endgeräte mit einer Stromversorgung via PoE und so ist die 'next generation' eines 'next generation' Konzeptes ein absolutes Engagement in Form des GXP1615 zur Verfügung stellen.“ sagt David Li, CEO von Grandstream. „Dieses neue Businesskonzept setzt sich die Unterstützung und Funktionalität mit einem äußerst geringen Anschaffungspreis und ist somit ein attraktives Modell für viele Projektanforderungen.“

GXP1615 Ausstattung und Funktionen:

- 1 SIP Konto, 2 Leistungsstellen für Konferenzfunktion
- LCD-Display (128 x 48 Pixel)
- Voll-Duplex-Freisprechen in HD-Audio-Qualität
- 3 XML-programmierbare, kontext-sensitive Softtasten
- Dual 10/100 Mbps Netzwerkanschlüsse mit PoE
- Unterstützung für Plantronics Headsets
- Tastenblock mit bis zu 500 Kontakten, Anrufe mit bis zu 200 Einträgen
- PoE integriert

Preis und Verfügbarkeit

Das GXP1615 ist über das Distributions- und Partnernetzwerk von Grandstream zu einem Unverf. Verkaufspreis von USD655, ab sofort verfügbar.

Über Grandstream Networks

Grandstream aggiunge il telefono IP a 1 linea con PoE al portafoglio per piccole imprese

Boston, MA (19 luglio 2016) – Grandstream Networks Inc., che mette in collegamento il mondo dal 2002 con le sue soluzioni vincenti di comunicazione unificata SIP, ha annunciato il lancio oggi di un nuovo telefono IP a 1 linea con PoE. Questo telefono IP per piccole imprese supporta 1 account SIP e 2 tasti linea mentre offre un Power-over-Ethernet (PoE) integrato per ridurre il consumo di energia e un end-point a basso costo.

„A Grandstream, è importante per noi lavorare a stretto contatto con i nostri partner per sviluppare prodotti che soddisfano le esigenze e aspettative di mercato. Quando la nostra base clienti ci ha detto di aver bisogno di un telefono IP a 1 linea con PoE integrato, abbiamo risposto con il nostro GXP1615.“ ha detto David Li, Amministratore Delegato di Grandstream. „Questo modello nuovo ed economico combina tecnologia leader del mercato a un prezzo eccezionale, rendendolo un telefono IP attraente e competitivo per soddisfare i nostri clienti nel mondo.“

Le caratteristiche principali di GXP1615 includono:

- 1 account SIP, 2 tasti linea e conferenza a 3 vie
- Schermo LCD (128 x 48)
- Altoparlante full duplex con audio HD
- 3 tasti funzione XML, programmabili sensibili al contesto
- Porta 10/100 Mbps con controller duplex
- Supporto EHS per cuffia Plantronics
- Fino a 500 contatti e rubrica di chiamate fino a 200 voci
- PoE integrato

Prezzo e disponibilità

GXP1615 è generalmente disponibile in commercio, a un prezzo di listino di USD655, tramite i canali di distribuzione mondiale di Grandstream.

Informazioni su Grandstream Networks

Grandstream acrescenta telefone IP com uma linha e PoE a seu portfólio para pequenas empresas

Boston, MA (19 de julho de 2016) – A Grandstream Networks Inc., que conecta o mundo desde 2002 com soluções premiadas de comunicação unificada SIP, anunciou hoje o lançamento de um novo telefone IP a 1 linha com PoE. Este telefone IP para pequenas empresas suporta 1 conta SIP e 2 botões de linha com PoE integrado para reduzir o consumo de energia e um endpoint de baixo custo.

„Para nós, da Grandstream, é importante trabalhar de perto com nossos parceiros para desenvolver produtos que atendam e superem as expectativas do mercado. Nosso usuário informado que precisava de um telefone IP com uma linha e PoE integrado, então respondemos com o GXP1615.“, contou David Li, CEO da Grandstream. „Este modelo novo e econômico combina a melhor tecnologia do mercado com um novo preço funcional, o que torna um telefone IP atraente e competitivo, que certamente ajudará nossos consumidores do mundo todo.“

Os recursos em destaque do GXP1615 incluem:

- 1 conta SIP, botões para 2 linhas e conferência de três vias
- Tela LCD (128 x 48)
- Alto-falante full duplex com áudio em HD
- 3 botões sensíveis ao contexto com programação XML
- Porta de 10/100 Mbps com controlador duplex
- Suporte EHS para fone Plantronics
- Até 500 contatos e histórico de chamadas com até 200 registros
- PoE integrado

Preço e disponibilidade

O GXP1615 está comercialmente disponível pelo preço de tabela de USD655,00, por meio dos canais internacionais de distribuição da Grandstream.
