## SONGMICS BCB001A

# SONGMICS BCB001A Telescopic Bathroom Shower Shelf User Manual

Model: BCB001A

## 1. PRODUCT OVERVIEW

The SONGMICS BCB001A is a versatile telescopic bathroom shower shelf designed for efficient storage in wet environments. It features a tension-mounted system, eliminating the need for drilling, and offers adjustable height and shelf positions to suit various bathroom layouts.

### Key Features:

- **Adjustable Height:** Extends from 85 cm to 305 cm to fit most floor-to-ceiling or bathtub-to-ceiling spaces.
- **4 Adjustable Shelves:** Triangular shelves made of durable PP plastic, each with a maximum load capacity of 3 kg.
- **Rust-Resistant Construction:** Powder-coated steel tubes ensure longevity in humid bathroom conditions.
- **Easy Installation:** No drilling or screws required, utilizing a spring-loaded telescopic mechanism.
- **Integrated Hooks:** One shelf includes hooks for hanging towels, loofahs, or other accessories.

## 2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in product damage or personal injury.

- Ensure the product is installed on a stable, flat surface (floor and ceiling/bathtub).
- Do not exceed the maximum load capacity of **3 kg per shelf**. Overloading can cause the shelf to collapse.
- Regularly check the stability of the telescopic pole and shelves. Re-tighten if necessary.
- Keep small parts away from children during assembly to prevent choking hazards.
- Avoid placing heavy or fragile items on the top shelves where they could fall and cause injury.
- Do not hang from or climb on the shelf.

## 3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged,

please contact customer support.

- 1 x Telescopic Pole (multiple sections)
- 4 x Triangular Shelves (PP plastic)
- Rubber Rings/Fasteners for shelf adjustment
- 1 x Instruction Manual

## 4. SETUP AND INSTALLATION

---

Follow these steps for proper assembly and installation of your shower shelf. No tools are required.

1. **Measure Height:** Determine the desired installation height (between 85 cm and 305 cm) in your shower or bathtub area.
2. **Assemble Pole Sections:** Connect the telescopic pole sections. You may omit one rod section if a smaller height is required. Ensure all connections are secure.
3. **Attach Shelves:** Slide the rubber rings onto the pole at your desired shelf heights. Then, place the triangular shelves onto these rubber rings. The shelves should rest firmly on the rings.
4. **Position the Pole:** Place the assembled pole in the desired corner. The top end of the pole has a spring mechanism.
5. **Tension Installation:** Extend the top section of the pole until it firmly clamps between the floor and ceiling (or bathtub and ceiling). Ensure the pole is vertical and stable. The spring mechanism provides the necessary tension.
6. **Final Adjustment:** Adjust the height and position of each shelf as needed. Ensure all shelves are level and securely fastened by their rubber rings.

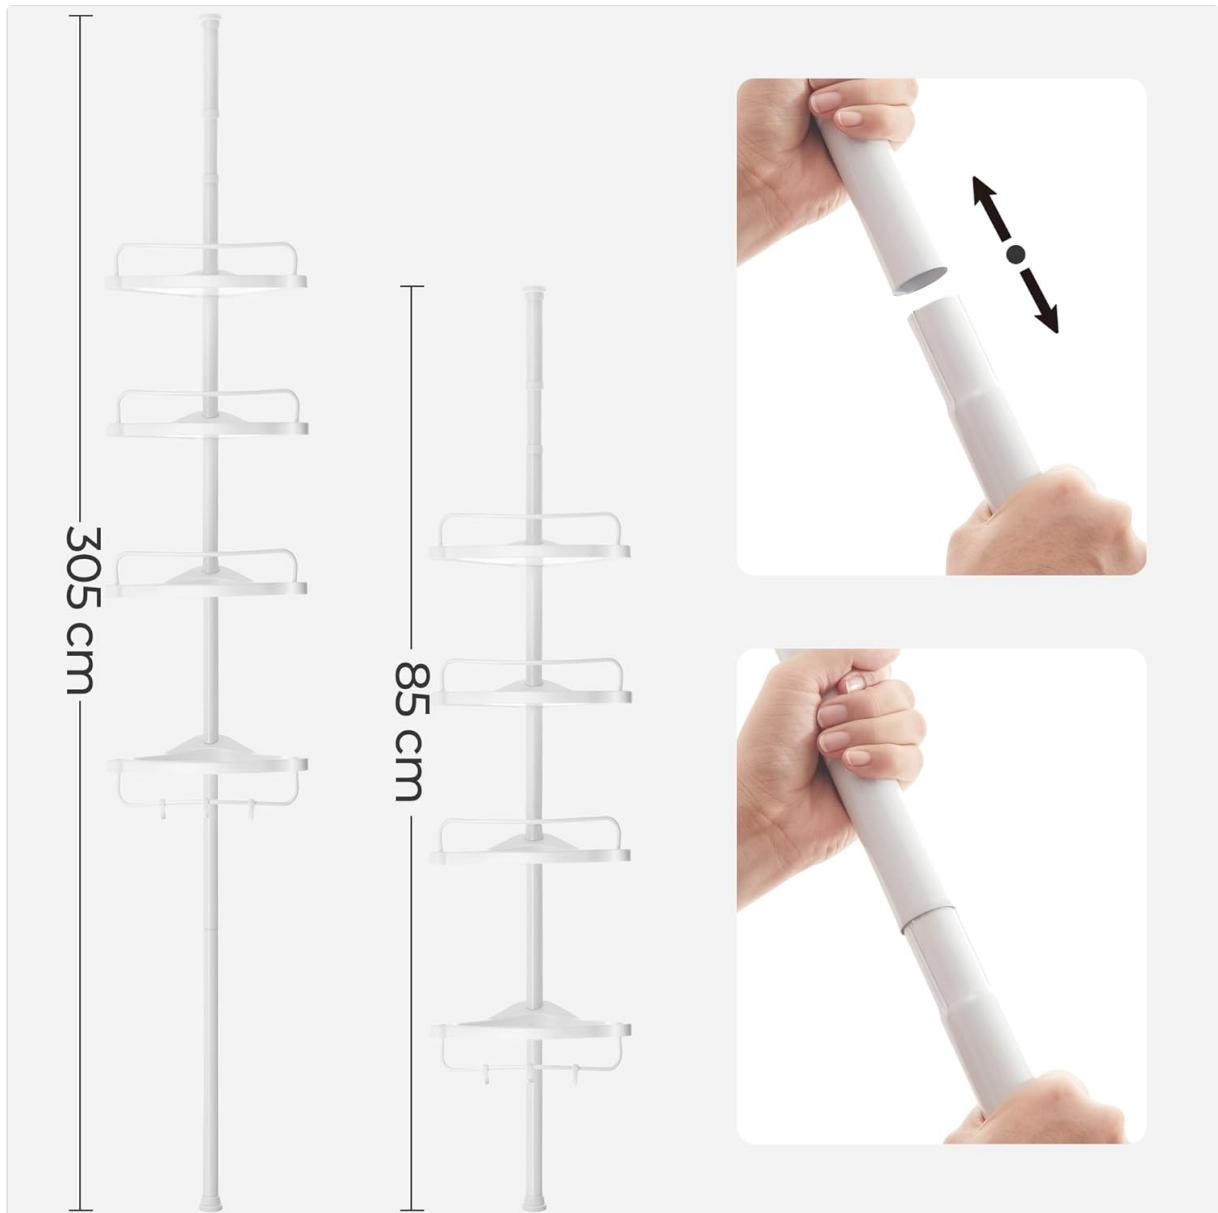

Image 4.1: The telescopic pole can be adjusted from 85 cm to 305 cm to fit various ceiling heights. The image also illustrates the simple push-and-lock mechanism for extending the pole.

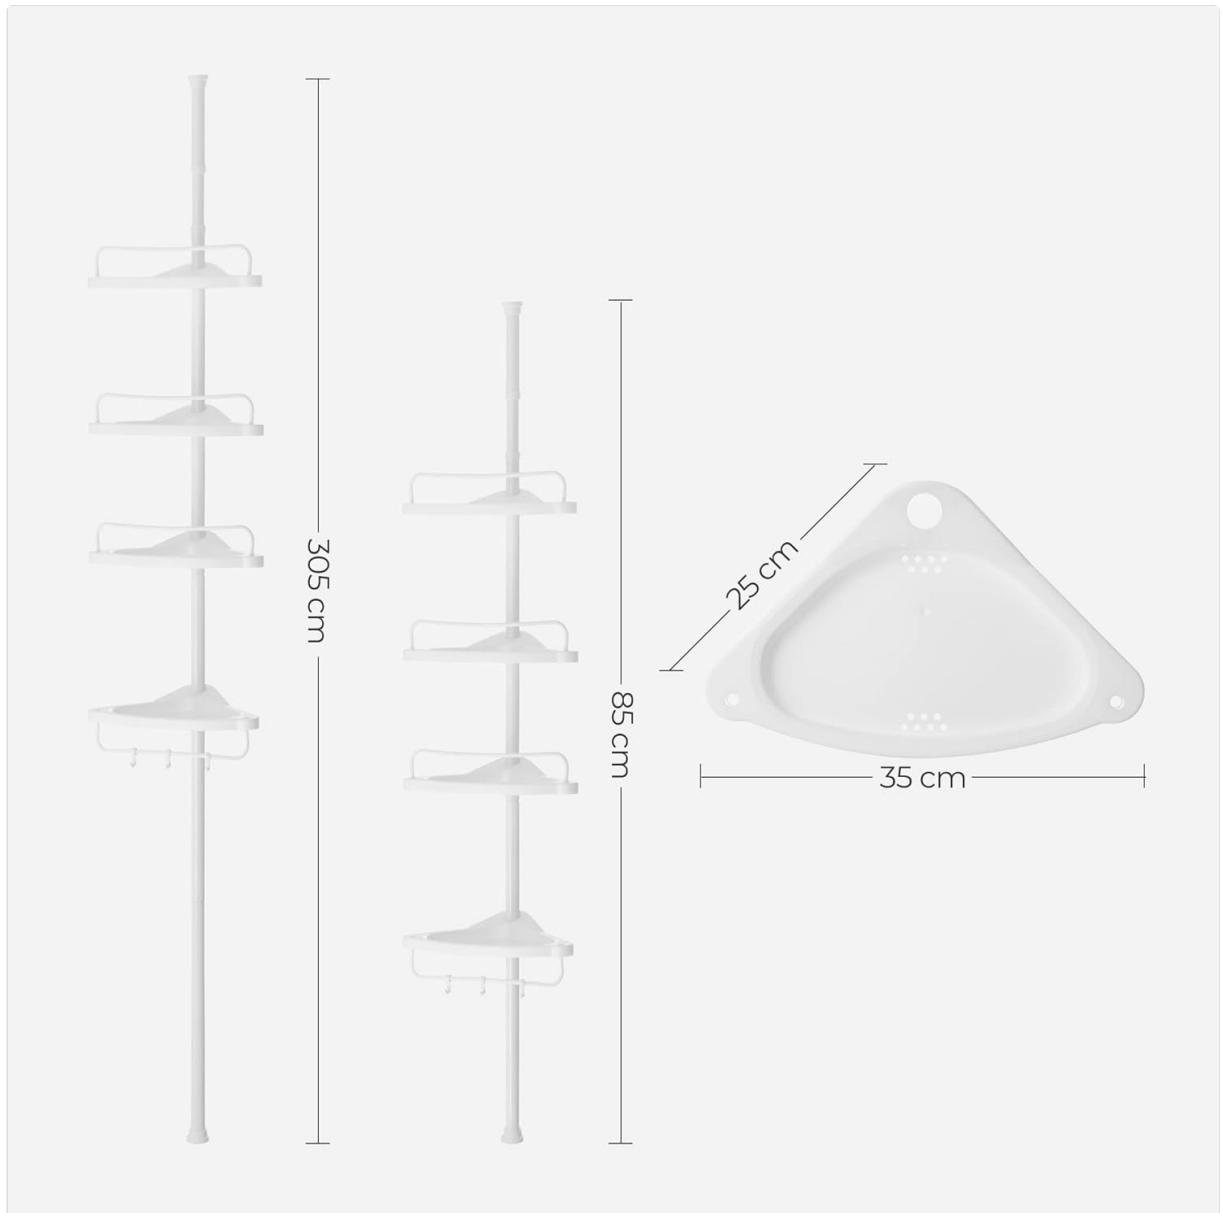

Image 4.2: This image provides detailed dimensions, showing the triangular shelf side lengths (25 cm and 35 cm) and the overall height adjustment range.

Image 4.3: Close-up views demonstrating how to adjust the shelves using rubber rings, the stability of items on the shelves, and the design of the pole's base.

## 5. OPERATING INSTRUCTIONS

Once installed, the SONGMICS BCB001A shower shelf is ready for use. Its design allows for flexible organization of your bathroom essentials.

- **Shelf Adjustment:** To reposition a shelf, simply lift it slightly, slide the rubber rings to the new desired height, and then lower the shelf back onto the rings. Ensure the shelf is stable before placing items on it.
- **Using Hooks:** One of the shelves is equipped with integrated hooks. Use these hooks to hang items such as washcloths, loofahs, or small brushes for easy access.
- **Drainage:** The shelves feature drainage holes to prevent water accumulation, keeping your items dry and clean.

Image 5.1: A close-up of one of the shelves, demonstrating the practical hooks for hanging accessories like a loofah and a towel.

Image 5.2: This image highlights the drainage holes on the shelves, designed to prevent water from pooling and to keep stored items dry.

## 6. MAINTENANCE

Proper maintenance will ensure the longevity and continued functionality of your SONGMICS shower shelf.

- **Cleaning:** Clean the shelves and pole regularly with a mild soap and water solution. Avoid abrasive cleaners or scouring pads, which can damage the finish. The PP plastic shelves are easy to wipe clean.
- **Rust Prevention:** The steel tubes are powder-coated for rust resistance. However, wipe down any standing water to further prevent corrosion, especially in areas where the coating might be compromised.
- **Stability Check:** Periodically check the tension of the pole to ensure it remains securely clamped between the floor and ceiling. Re-adjust if any wobbling is detected.

## 7. TROUBLESHOOTING

If you encounter any issues with your shower shelf, refer to the following common problems and solutions.

- **Problem:** The shelf feels unstable or wobbly.

**Solution:** Ensure the telescopic pole is fully extended and securely tensioned between the floor and ceiling. Check that the end pieces have a wide cross-section for good stability. Re-adjust the pole's height to increase tension if needed.

- **Problem:** Shelves slide down or are not level.

**Solution:** Ensure the rubber rings are correctly positioned and firmly holding the shelves. The shelves should rest securely on the rings. Adjust the rings and shelves to the desired height and ensure they are level.

- **Problem:** Items fall off the shelves.

**Solution:** Do not overload the shelves beyond the 3 kg capacity. Distribute weight evenly. Ensure the shelf is level and stable.

## 8. SPECIFICATIONS

<b>Model Number</b>	BCB001A
<b>Material</b>	Powder-coated Alloy Steel Tube, PP Plastic Shelves
<b>Adjustable Height</b>	85 cm - 305 cm (33.5 inches - 120 inches)
<b>Shelf Dimensions</b>	Triangular, approx. 25 cm x 35 cm (side lengths)
<b>Number of Shelves</b>	4
<b>Max. Load Capacity per Shelf</b>	3 kg (6.6 lbs)
<b>Product Weight</b>	1.6 kg (3.5 lbs)
<b>Installation Method</b>	Freestanding (Tension Mount)
<b>Special Features</b>	Adjustable, Expandable, Moisture Resistant

## 9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your purchase or visit the official SONGMICS website. Specific warranty details are not available in this manual. You can visit the [SONGMICS Store](#) for more products and information.
